EYES OF ALL NATIONS.

France has one blind person to every 500 inhabitants.
In Egypt twenty one natives were killed because of defective vision, dur-
ing the first week's operations of an electric railway.
In Germany and England there is one blind person to every 1,000.
China has more blind than all other countries. Spain comes next.
America averages only one in every 1,500, the lowest per cent of any
country. This is explained in the fact that scientific adjustment of glasses has
reached its greatest perfection in this country.

Many eyes have been saved through the timely use of glasses.
We test eyes for glasses. Any eye we cannot fit should have the atten-
tion of a doctor who is an eye specialist.

from all parts of the country of the con-
tinuous dry weather having serious effect
upon the crops Mr. Joseph Rogers, North

bushels of oats out of 90 stooks.

Messrs. Clark & Steeves have moved

THE GUARDIAN regrets to record the
death of Mr. Archibald Campbell, which
occurred at the residence of his brother-
in-law, Mr. Hector McKay, Tryon, on
Saturday morning after an illness of

The funeral took place on Sunday after-
noon.

A peculiarly sad death took place at
Alberton on Friday afternoon last when
Reginald, four-year-old son of Mr. and
Mrs. George Gard passed away some
what suddenly. On the previous Tues-
day night about 10 o'clock the parents
discovered that about two hours earlier
he had eaten the tops off several cards of
matches. An emetic was at once ad-
ministered, but this did not take effect
until about 2 a. m. the poison no doubt
in the meantime having got pretty well
through his system. Under tender care
the little fellow lingered without any
apparent suffering until 10 a. m. Friday.
Mr. and Mrs. Gard have the sympathy of
a large circle of friends in their sore
bereavement. The funeral was held on
Saturday afternoon.

Dear Sirs,—For some years I have had
only partial use of my arm, caused by a
sudden strain. I have used every remedy
without effect, until I got a sample bottle
of MINARD'S LINIMENT. The benefit
I received from it caused me to continue
its use, and now I am happy to say my
arm is completely restored.
