LITTLE BOYS, YOU MUST QUIT SAYING GOSH DARN IT.

CHICAGO, Dec. 2.—Mother must not use slang; it seems a bad example for the little folk. Big brother must move his phonograph; some of the records ought put into little brother's head. TRANSCONTINENTAL BEING OPERATED

MONTRÉAL, Dec. 2.—With the exception of about a hundred miles, the track is all laid in the Transcontinental from Moncton to Winnipeg. The statement that the road is now being operated from Moncton westward to Edmundston by the I. C. R. commissioners, is supplemented to-day by the further statement that only twelve miles of track remained to be laid east of Quebec. This is on the Davis contract and although this gap is a very short one, a good deal of work yet remains to be done. The month of September next is given as the time when the entire line from Lévis to Moncton will be completed and in good running order. Then on the Macdonnell and O'Brien section extending from a point of fifty miles west to the city of Quebec, to 150 miles east of Cochrane, a total distance of 410 miles, only fifty miles of steel remains to be laid, so it looks as if the whole line from Moncton to Winnipeg, would be practically completed late next fall.
