MAILED CONTRACT

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday the 9th March, 1906 for the conveyance of His Majesty's Mails on a proposed Contract for four years six times per week each way, between Charlottetown and Victoria from the 1st July next.

G. C. ANDERSON, Superintendent. Post Office Department, Mail Contract Branch, Ottawa, 24th January, 1906. 2-23131.

DEATH STRUCK OF Summerside is visiting Charlottetown.

"ONLY a Woman" who writes inquiring about civic affairs neglected to give her name, in confidence.

A HEALING artistic engraving is that which appears upon the calendar of the Mannheim Insurance Co., for which Hyndman & Co are the agents here.

"Does God Answer Prayer" will be the theme of the Men's Meeting at the Y. M. C. A. Sunday, Mr. A. C. Casey will give the opening address others will take part.

HON. S. E. REID who returned today from Montreal where he had been attending the good seed meeting, is suffering from a severe cold and is confined to his house.

A. CRAIG, Emerald, and James McDonald, V. S. and Capt. Joseph Reid, Summerside, called in town yesterday afternoon. The latter left last night on route to Halifax.

BESIDES those already mentioned as being nominated for Councillors for Ward Five at last night's meeting, L. C. Worthing was proposed by Isaac Murley and seconded by James Hooper.

MRS. ARCHIBALD of Truro, accompanied by her son who has for some time been undergoing treatment for appendicitis at the Charlottetown Hospital left for home this evening. Mr. Archibald was in the employ of the Massey Harris Co., here.

NEWSPAPER men and those affiliated with the profession will learn with deep regret that Thomas Cahill, who has been a well known member of the Examiner's working staff for very many years, is still confined to his bed in the Charlottetown Hospital.

A WHOLE volume of knowledge won't do a man much good if he's "broke" and unemployed. And capable men often fail to find employment because they fail to take the proper course to find it.

THE Railway reports that the train from the West arrived in Charlottetown on time at 8.05 p. m. yesterday afternoon, and the Post Office reports that the mail from same was not received until 3.4.

Why it should take forty minutes to get the mail from the Railway station to the Post Office requires some explanation, and it looks as if somebody should be waked up. There is no reason why business men should be kept waiting a half hour or more for their mail when it can easily and should be delivered to them speedily.

JOHN THOMAS SHIELDS of the Central Line Road who has been employed in the saw mill of J. H. Cockran, Mimiash was brought to the city yesterday and taken to the Charlottetown Hospital in G. D. Wright's ambulance. While working in the mill on Thursday he was caught in the belt and his left leg was broken in two places. On arrival at the hospital he was too much exhausted to undergo examination—which was postponed until tomorrow when it will be decided whether amputation of the limb will be necessary.

DR. A. J. DONNELLY and Nicholas Murphy of Cambridge, Mass., who spent yesterday in the city, went last night by the special to Georgetown, where they will leave for Cambridge on Monday. Their visit to the Island was consequent upon the death of Mrs. Murphy, who was formerly Florence Donnelly and sister of Dr. Donnelly. All are natives of Sturgeon, King's County. Mrs. Murphy died on January 27 and was buried at Sturgeon on February 1st, where a Requiem Mass was celebrated by Rev. Wm. Phelan. A High Mass was also celebrated at Cambridge, Mass., in St. Mary's church of the Annunciation. Besides her bereaved husband one son and one daughter survive the deceased.

THE VALUE OF CHARCOAL.

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or eating onion and other odorous veg. tables.

Charcoal effectually cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and other odorous veg. tables.

WHAT ABOUT THIS.

The following figures are taken from the Dominion Government report for 1905.

The profits earned for the previous year per \$100.00 of Insurance in force by the different Life Insurance Co's here mentioned are:—

Canada Life \$5.75. Confederation \$3.00. Federal \$3.30. Great West \$3.45. Imperial \$2.20. Manufacturers \$4.33. Mutual of Canada \$6.27.

North American \$1.55. Sun \$4.03. London & Lancashire \$10.30. The profits accumulated per \$100 on the business in force by the same Co's are:—

Canada Life \$13.82. Confederation \$18.08. Federal \$3.48. Great West \$14.10. Imperial \$7.34. Manufacturers \$12.17. Mutual of Canada \$19.07. North American \$14.15. Sun \$13.70. LONDON & LANCASHIRE \$33.62.

The reason this old reliable English Co. can show such a difference in profits compared to the Canadian Co's, is quite apparent to any person who knows.

Participating in the action of the Dominion Government and the reductions that would occur in interest rates, the management of this Co. set aside a large sum in 1892 and later again in 1897 thereby providing for the decreasing rate of interest and placing the reserves of the Co. upon a basis equal to that adopted by other Co's years after.

The Vice-President of a leading Canadian Co. at their annual meeting held in Feb. 1905 said:—"I am free to say that if ten, fifteen or twenty years ago the Directors could have foreseen what remarkable reductions would occur in interest rates they would undoubtedly have applied a portion of the profits at each subsequent period towards strengthening the Co's reserves."

This certainly reflects credit on the management of the LONDON & LANCASHIRE LIFE, Charlottetown, is the representative of this staunch Co. in his Province and will be pleased to quote rates at any time.
