THREE LITTLE GOLD DIGGERS OUT FOR A LITTLE QUICK SILVER!

They started out as working girls but ended working men. "Give and Let Give" was their battle-cry as they charged the man-brigade... and how they charged! The riotous adventures of three girls who came to Broadway to have their "breaks" re-lined.

THE MINTH THEY "TOOK" CALLED THEM

"Gold-Diggers!"
 "Lorelei!"
 "Man-Hunters!"
 "Adventurers!"
 BUT—

The GREEKS HAD A WORD FOR THEM

The Greeks had many words for them, screamingly funny, scorchingly humorous, audaciously amusing.

reporting on the work of a newly organized tonsil clinic in her district. "They are filled with strange and superstitious ideas, some of them claiming that tonsils protect lungs, prevent tuberculosis and will harmlessly disappear when the child grows up, so that it is with greatest difficulty that parents are shown the necessity of removing tonsils." In spite of this fact a tonsil clinic was established to take care of the needs of the 15 schools within a 25-mile radius. A specialist and his son volunteered to come a distance of 48 miles and give of his skill whatever the parents could afford to pay.

The first softball game of the series of scheduled games, which have been played regularly every week during the summer at Centreville Bedeque between the different Bedeque teams for the lovely trophy so generously donated by some of our prominent men of Bedeque, was played on Tuesday evening, August 23rd. The final game being played by the leading teams of the league, which have kept so closely to the same score during the season, namely the North Bedeque team and the Centreville Bedeque team, these teams deserve much credit for the splendid game they turned out to the spectators, who were trim and interesting to the final inning, which ended in a score of 17-16 to the luck of the North Bedeque team. The presentation of the trophy was then made to the winners (North Bedeque team) by Rev. L. P. Archibald. IN MEMORIAM

JAMES RENWICK MATHESON M. D.

It was with deep sorrow the community of Springfield and surrounding districts and friends in different parts of the Province, learned of the death of Doctor J. Renwick Matheson which occurred in the early morning hours of August sixth, in his sixty-fifth year. He was the son of the late Donald Matheson and Barbara McLennan, his wife, being the youngest of a family of thirteen. He was educated in Prince of Wales College and McGill University where he proved to be a very brilliant student. After receiving his M. D. degree his first practise was Murray Harbor South, P. E. Island. He afterwards practised in Montague, P. E. Island, Boston, U. S. A., and Prince Albert, Sask. In the latter place he was enjoying a large practise when the call came for King and country. He enlisted and served as Medical Officer in France. He was considered one of the most skillful surgeons in the army. Many a returned soldier remembers him kindly and will regret his passing. He is survived by one brother, Geo. Matheson on the old homestead, Cardigan, and three sisters, Mrs. Murdoch Nicholson, Vancouver, B. C., Mrs. William Galbraith, Prince Albert, Sask., and Mrs. William Matheson, Oyster Bed Bridge, P. E. Island. The funeral which was very largely attended was held at his late residence on Monday, August eighth. Interment being in the Presbyterian Cemetery, South Granville. The service at the house was conducted by Rev. V. E. Osborne, New London, assisted by Rev. Mr. Palethorpe of Bradabane and Rev. Mr. Patterson of Cavendish, and at the grave by Rev. Mr. Stavert and the brethren of the Masonic Order. Mr. Osborne sang very feelingly a favorite hymn of the deceased "Crossing the Bar." The

casket was draped with the flag. The pall bearers were: Major Robert Howard, Doctor R. F. Seaman, Doctor John F. McNeill, Judge Inman, D. N. McKay and Wallace McKay. During his lifetime he was an observant traveller visiting many parts of the world and an intelligent reader which made him a very interesting conversationalist to those who had the pleasure of his intimate acquaintance. He will be much missed in the home and community where he resided for the last eight years, practising his profession although in ill health to within a few days of his demise. Much sympathy is felt for the bereaved relatives in their hour of sorrow.

New Shoes Look Smaller

MELBOURNE, Australia, Sept. 1.—(By the Canadian Press)—"Feet will probably be smaller this summer." The buyer for the women's shoe department of a city store made the statement without a smile. She was discussing the purchase at the skin sales of a parcel of Victorian snake skins by a firm of tanners in Richmond. "A few years ago shoes of python skin were the rage for a week or so," the buyer said, "but they soon went out of fashion. The pattern of the python is too large, and big patterns make big feet. Small patterns make the opposite effect, and inlays and overlays of snake skin on a leather shoe may be designed to give almost any degree of slowness and daintiness. Python went out quickly, but we sell many shoes with snake skin trimmings."

New Sleeves Transformed

PARIS, Sept. 1.—Gossip from within the great dressmaking shops of Paris discloses but one marked change in the fashionable silhouette. It is, of course, a transformation in sleeves, but not a complete transformation—merely lifting the sleeve puff of last season high on the arm and shortening it, so that it extends only from the shoulder half way to the elbow. It is more universal than last year's mid-arm puff and very much liked by American buyers. Speaking of sleeves, an attractive gray and white plaid silk afternoon frock had pleated cape sleeves falling short of the elbows. Underneath were lace sleeves, full, except for a few inches of tight fitting forearm.

Instead of being a part of the dress as they appeared to be, the sleeves were entirely separate and held in place by rubber tape at the top of the arm. "They are the most convenient sleeves I ever had," said the New York girl who wore them. "Without them, this is a sports frock. With them, it is a distinctly feminine afternoon dress. Besides, isn't it a blessing to have sleeves one can slip on after one is dressed to go out—hat, veil, everything?"

Patou has created consternation by lowering waistlines to the hip in some of his best new models. So dissatisfied have visitors been with his hip-waisted models that it is expected he will withdraw them and rush new models into his exhibition rooms. The high waist line is so popular with customers at home that visiting buyers are loath to take any low-waisted models back.

I hereby Beg to honour to apply and acknowledge you that as the reinstated Parts of the Vacant in your clerical abbreviation I am at present unreinstated.
