

HOW DYER GET THAT WAY

"Me?"
"You!"
"Smoking Buckingham, of course, I'm one of the blokes wot 'elps to sell 78,000,000 more Buckingham Cigarettes every year."
"Sez you?"
"Sez me!"

*78,000,000 more Buckinghams sold every year

*325,000 more Packages sold every month

Smoke Buckingham and Smile

*The figures given are based on the average increased sales of Buckingham Cigarettes during the past five years.

Track Stars Gather For Winnipeg Tests

Percy Williams To Be Absent For Pre-Olympic Meet

Winnipeg, Man., Sept. 5.—(By The Canadian Press)—Without the flashing feet of Percy Williams, the Canadian track and field championships here Labor Day may suffer a color-loss and Winnipeg track fans will miss a thrill, but the pre-Olympic year meeting will bring together most of the fleet and strong who plan to wear Canada's colors to the Los Angeles Olympiad next summer.

Officials are not certain how strong the eastern delegates will be but they felt sure Hamilton Olympic Club would send its outstanding stars west for the title meet, and hoped Toronto and Montreal would be well represented. A strong band of athletes from the west is sure to compete.

Two veterans are slated to make comebacks at the September 7 meet and a host of youngsters, most of them just out of high school, or still there will attempt to block them. Jimmy Ball, three years ago one of the greatest quarter milers in the world, will wind up a strenuous summer campaign by trying to regain his Canadian 440-yard title, stripped from him a year ago by Alex Wilson, sensational Montreal and Notre Dame runner. And Phil Edwards, smooth-striding British Guianan who runs in the Dominion for Hamilton Olympic club, will be here to win back some of the glory that has dropped from him in the last two years.

were recent visitors to Bethel, the guests of Mr. and Mrs. James Jenkins.

Miss Frances Wood, Waterside, spent a pleasant week end in Nova Scotia.

A most enjoyable evening was spent at the home of Mr. and Mrs. W. T. Coady on Monday evening in honor of Mrs. Frank Molloney, (nee Miss Pearl McGilivray), who at one time lived in Hazelbrook and who has recently been married and taken up abode in U. S. A. Some very beautiful presents were received. Music and dancing whiled away the evening.

Mrs. Roy Pierce, Waverly, Mass., is spending a pleasant vacation here with her sister, Mrs. H. K. Jones.

Mr. Robert Horton, Mrs. W. Schwamer and Mrs. Harold Weeks, who spent the past few weeks here, have returned to their home in U. S. A. They were accompanied as far as Sackville by Mrs. Howard Weeks and Miss J. Weeks.

Mrs. Milton Horton and daughter Velda, of Cambridge, Mass., are visiting relatives in Bethel.—H.

OUT WHERE TALL CORN GROWS (United Press)

AUDUBON, Ia., Sept. 5 — Dr. Geo. N. Weighton is exhibiting a stalk of corn taken from a field in Audubon County, which towers 13 feet 2 inches in the air. He has a sunflower reaching just six inches higher.

Both Ball and Edwards appear ripe for the sternest opposition the championships are likely to produce. The Winnipeg star defeated a crack field at Vancouver recently running 400 metres in 49 3-5 seconds and week later captured the quarter-mile event at the Banff games without trying hard.

With Williams not present, the 100 and 220-year events will be wide open. Johnny Fitzpatrick, the bronzed Hamilton ace, who has given Williams some hard battles, will be favorite if he runs but other eastern sprinters, including his team-mate Ralph Adams, and Edmonton's up-and-coming star, Buster Brown, will be strong contenders. Brown was clocked at Banff in 9 4-5 seconds for the century, with a stiff breeze to aid him.

Art Ravensdale, young hurdler from Cobourg, Ont., is entered and one of the outstanding events of the meet may be his race with Norman Coulter, the Winnipeg timber-topper who ran wild in eastern United States intercollegiate meets last spring for Pittsburg. Coulter's entry for the 110-yard hurdles was received a few days ago.

British Columbia is sending two track men, Fred Martell, quarter-miler from Trail and Jack Melville, of Vancouver, who will run in the three mile event.

WITNESSED 25 ELECTROCUSSIONS (United Press)

HOLDENVILLE, Okla., Sept. 5.—Dr. W. L. Taylor, veteran Hughes County physician, has witnessed every electrocution in the state penitentiary. Thirteen of the electrocutions were of negroes and 12 of white men. The first electrocution which Taylor attended was in 1919.

BOUNTIES PAID ON GAME PESTS (United Press)

HARRISBURG, Pa., Sept. 5.—Bounties were paid on 1,065 weasels, 56 gray foxes and a wildcat killed by Pennsylvanians aiding in exterminating game pests during July 1931. The bounties paid provided welcome additions to the claimants' incomes.

APPLE CROP PROSPECTS The Fruit and Vegetable Crop Report No. 4 for 1921, just issued by the Fruit Branch, indicates a substantial increase in the production of apples in eastern Canada ranging from 20 to 32 per cent over last year, while for British Columbia a decrease of 22 per cent is indicated. The total crop this year is expected to amount to 3,629,300 barrels as compared with 3,411,000 last year, and 3,270,684 for the five-year average. Present indications are that apples will run average or better in size, and weather conditions have been such that colour should be good.

Paris Letter

(By Samuel Dashiell) United Press Staff Correspondent

PARIS, Sept. 5 — The most superb specimens of France's naval establishment and perhaps its most brilliant military genius, Marshal Petain, will represent America's colonial ally at the Yorktown commemoration.

It is the present plan of the French Government to send the two 10,000 ton cruisers, Duquesne and Suffren, numbered among the fastest of this world's battleships. This splendid contingent of the new French navy, it is thought, will provide an appropriate representation of the country which sent Admiral de Grasse and especially in the same waters where the famous French Admiral bottled up the British Fleet while on land Lafayette and his men were aiding in the flank movement that assured the victory at Yorktown over Cornwallis.

Proud of Cruisers

France takes exceptional pride in these cruisers and in this class of which there are five are the Duquesne, the Tourville, the Suffren, Colbert and Foch.

Although geared for 34.5 knots they prove even swifter, the Tourville being the world's fastest warship with a record of 36.3 knots. Any of them can do 35 knots.

The presence of these cruisers also will be of interest to American naval constructors, especially in view of the expressed criticism of the recent American 10,000 ton cruisers, which it is believed are outclassed by the French construction, just as the French fear they are outclassed by the new German "treaty" cruisers.

The Duquesne is at present undergoing some repairs, and if she is not ready in time, she will be replaced by the Colbert. These cruisers are a little over 600 feet long, with a beam of 63 feet. They are conspicuously clean on deck with no useless superstructures such as characterized old French navy units, and their four gun turrets each equipped with two eight inch guns. They have two catapults for launching scout planes, and the

quarters for officers and men are ample and comfortable.

Armor Sacrificed

Armor has been sacrificed on both the Duquesne and Tourville, but their great speed is believed to be a compensation for steel plating. The others are more heavily plated.

Fire control, fighting top and masts are of a scientific design which French constructors believe cannot be shot down, consisting of a cylindrical column with a flying support at a sharp angle. The speed of these ships is considered a record for their class only, inasmuch as French destroyers have attained 42 knots an hour in recent trials.

The choice of Marshal Petain as head of the French contingent not only will bring the famous soldier to America for the first time, but will give the Americans an opportunity of seeing one of the men who fired the victory in the World War. Petain is now chief of the Superior War Council of National Defense and General Inspector of the army.

MISSIONARIES LEAVE FOR THE NORTH

(The Canadian Press) WINNIPEG, Man., Sept. 5 —

After a period of intensive training at the historic old Lake Winnipeg Mission House at Norway House, five stout-hearted new missionaries are setting out into the north to preach the gospel to the Indians. Through the winter the missionaries will be the only whites in their districts, except for post traders and Indian agents.

For a week at Norway House, the United Church of Canada missionaries conferred with their predecessors, newly arrived from the north country, to acquaint themselves with the needs of their new flocks. Then followed a month of instruction in the written language of the Crees, and courses in first aid and the use of simple medicines.

The appointees are — Rev. and Mrs. H. L. Chappelle, who will join Miss Frances Patterson, of Calgary, at Island Lake, nine days distant by canoe. Rev. and Mrs. R. L. Bacon, who go to Oxford House, four days journey north, and David W. Hanna, Toronto,

who becomes teacher missionary at Nelson House, three days north of Mile 137 on the Hudson Bay Railway.

Cape Breton is the birthplace of Mr. Chappelle, who with his wife will make a 300 mile circuit of five hunting camps by dog team. They expect to build a church at Wasamagow, "north of 53". Both Mr. and Mrs. Bacon, who were born at Nappan Station, N. S., took University courses at Mount Allison, Sackville, N. B. Mr. Hanna was born in China where his father is still engaged in mission work for the United Church of Canada. He graduated this spring from Toronto Bible College.

HAZELBROOK AND VICINITY

Mr. and Mrs. J. S. Myers were recent visitors to Melville, the guests of the latter's parents, Mr. and Mrs. John McDonald.

Mrs. Alfred Robins and daughter Doris, of Cambridge, Mass., spent the week end in Hazelbrook, the guests of Mrs. Alvin Myers.

Miss Elsie Lund spent the week end in Mt. Herbert, the guest of Misses Alma and Marion Rayner.

Mr. and Mrs. James Mutlow, City,

Speaking Of Sports

By L. S. CAMERON United Press Sports Editor

Turbulent Golf Title Tourney Nears Start

The National P. G. A., regarded by many as the second most important United States golf championship, and possibly the most difficult to capture will be current at Providence, R. I., within a few days. The tournament as a whole got off to a scrappy start. This was because of the arguments and near-quarrels over the methods of qualifying for the tourney proper.

Without going into these fuses specifically, one may be allowed to hope that the professional golfers association will be able to hit upon a plan of qualifying more satisfactory than the present one. Last year's championship was marred by stories of improprieties in qualification. For example there were all sorts of stories told of the qualifying play of Tommy Armour who ultimately became the champion.

P. G. A. Title Heavy Favorite With Press

For a competition which attracts so relatively little interest the P. G. A. is a prime favorite with the professionals. Of course, any pro would prefer to win the U. S. open or British open titles, but for personal satisfaction, there is no honor your pro likes better than the P. G. A. After all, it is his own competition.

A really grand field will tee-off at Providence. Walter Hagen will be back and Leo Diegel, Johnny Farrell, Tommy Armour, Gene Sarazen and many other big shots are to play. There was some doubt as to whether the Dumas, Olin and Mortier would play. It's to be hoped

they will. Popular in their native California, they are just as well liked in the east.

There Are Some Pretty Star Tennis Players

It was only a few days ago that a friend who has seen most of the feminine tennis stars since the days of Molla Mallory was lamenting that so few of them are attractive except as athletes. It is to be hoped that he since has had the good fortune to see Mrs. Eileen Bennett Whittingstall, the British star.

The Messrs Ziegfeld, Carrol and White would do well indeed if they could produce a more lovely show than that given in the finals of the women's singles championship by Mrs. Helen Willis Moody and Mrs. Whittingstall.

Wilmot Valley

Mrs. Thos. MacMurdo, North Bedeque is visiting her daughter, Mrs. Charles D. Wright, Tryon.

Miss Margaret Curtis and her friend, Miss Dorothy Wright, Middleton, spent the week end with the former's grandmother, Mrs. T. J. Humphrey, Wilmot Valley.

Miss Erma Baker, North Bedeque, is spending a few days visiting relatives in Moncton and Sussex, New Brunswick.

Mr. Angus MacDonald, Dalhousie, N. B., spent a week at the home of his parents, Mr. and Mrs. D. B. MacDonald, North Bedeque.

On Friday evening, Aug. 28th, over one hundred friends gathered at the home of Mrs. B. Jardine to bid farewell to two of our Wilmot Valley boys namely: J. Austin Jardine and G. Emerson Huestis, who have decided to procure a college education and thereby fit themselves for greater usefulness. The meeting was called to order by Mr. Reuben Large and addresses of appreciation were read and gold pieces presented to the boys from the

North Bedeque and Wilmot Valley friends. Mr. G. E. Huestis was presented with a gold piece in which he has been the very energetic and capable superintendent for some years. The boys, in a kind words, thanked the donor their friendly gifts. This was the occasion for presenting Miss Bowness of North Bedeque a little gift of remembrance as she returned to Boston. These young people have been leaders of the different organizations of community and will be missed. The rest of the evening was spent in games and general merriment. After partaking of a hearty lunch, the National Amateur brought a very pleasant meeting to a close.

Mr. Vernon MacQuarrie has cured a new auto truck in which he conveys the children of the mot School district to the Summit High School. We are sure children will appreciate the car from the old vehicle. We wish every success.

Heartiest congratulations are tendered to Mr. and Mrs. A. E. C. on the occasion of their marriage which took place very recently.

Miss Florence MacCaull is spending a few days in Freetown at uncle's, Mr. Elton Cairns.

PENNSYLVANIA FAVORS USE OF LIGHTNING RODS

(United Press) HARRISBURG, Pa., Sept. 5 — Lightning rods are practical, Pennsylvania Bureau of Fire Protection reported.

While occasionally buildings protected with the rods are struck, investigations reveal that proper installation had not been made, bureau said.

The rods perform a real service for rural districts in protecting homes and barns from lightning, the report said.
