OF OUR NAVY  
Recommends Pe-ru-na—Other  
Prominent Men Testify.**

COMMODORE  
*Nicholson*

Commodore Somerville Nicholson, of the United States Navy, in a letter from 1887 R St., N. W., Washington, D. C., says:

"Your Peruna has been and is now used by so many of my friends and acquaintances as a sure cure for catarrh that I am convinced of its curative qualities and I unhesitatingly recommend it to all persons suffering from that complaint."—S. Nicholson.

The highest men in our nation have given Peruna a strong endorsement. Men of all classes and stations are equally represented.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

**SUMMERSIDE WINS  
FROM VICTORIAS**

The game between the Senior Victorias and the Crystal-Pioneers in Crystal Rink last night was far from being excitable and lacked even in interest on account of its one sidedness. From the start the Crystal-Pioneers had things much their own way and kept the puck in their opponents territory the greater part of time. And the scoring! Well—some of the intervals between goals were just long enough to give the referee and the reporters time to record the count.

The game began a little late—eight twenty-five. The C. P.'s scored the first goal after a minute's play and continued adding marks to their credit until the count reached eight against the Victorias' none. But just an instant before the bell rang for half time the Victorias saved their "whitewash" leaving their score 8 to 1.

The game was resumed about ten minutes when Summerside team shot their ninth goal which was followed by quick scoring until fifteen goals were weighed against one. It was then that the team from the Metropolis added one to their previous one. Before the play ended the Crystals scored two more and thus the game stood at the finish Crystal-Pioneers 17 Victorias 2.

STANDING OF THE CLUBS.

	Won	Lost	To Play
Abergweits	3	0	1
Crystals	2	2	0
Victorias	0	3	1

The game between the Intermediates was won by the Victorias who upheld the honor of their club in another one-sided game. At half time the score stood 3 to 0 and at the finish 6 to 0 in favor of the Charlottetown team.

**We Shall Spend \$500,000  
To Give Ligozone Away.**

This Company, after testing Ligozone for two years in the most difficult germ diseases, paid \$500,000 for the American rights. That is the highest price ever paid for similar rights on any scientific discovery.

**Kills Inside Germs**

The greatest value of Ligozone lies in the fact that it kills germs in the body without killing the tissues, too. And no man knows another way to do it. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease, as every physician knows.

Ligozone will do for sick humanity more than all the drugs in the world combined. It does what no skill can accomplish without it. It cures diseases which medicine never cured.

**Acts Like Oxygen**

Ligozone is the result of a process which, for more than 20 years, has been the constant subject of scientific and chemical research. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, these gases

are made part of the liquid product.

The result is a product that does what oxygen does. Oxygen gas, as you know, is the very source of vitality, the most essential element of life. Ligozone is a vitalizing tonic with which no other known product can compare. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.

The reason is that germs are vegetables; and Ligozone, which—like oxygen—is life to an animal, is deadly to vegetable matter. It is carried by the blood to every cell of every tissue, and no touch of impurity, no germ of disease, can exist where Ligozone goes.

**Germ Diseases**

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

There is a SOMETHING about VIM TEA that is to be found in no other tea," said a Saint John lady to a grocer the other day. She did not know exactly what or how to describe the difference, only there was a "something" VIM TEA had that other teas lacked. That something was a little more QUALITY.
