

A Great Success

People appreciate our efforts to save them money. It is like finding money—buying pianos, organs, sewing machines, etc., without the heavy commission added.

From all parts of the country we hear nothing but words of praise about our new venture.

From \$50 to \$100 saved on Pianos.

From \$25 to \$35 saved on Organs.

From \$10 to \$20 saved on Sewing Machines.

Why not save it? Remember we give you only the best goods—nothing cheap or trashy. We have a reputation for this—we intend to hold it.

We shall be pleased to see you at any time.

A SATISFIED PATIENT

Is a better advertisement than a newspaper article. This is one reason why it is to our interest that no one shall go out of our office dissatisfied. Our ten year written guarantee is a proof that we have faith in our work.

We have all the appliances for doing first class up-to-date dental work.

ASHER'S ENAMEL FILLING

It gives thorough satisfaction to the most fastidious. It will please you. We charge nothing for consultation. Give us a call and let us examine your teeth, and give you an estimate on the cost of your work, do it this week, it may mean dollars to you, to say nothing of your health. Poor teeth and good health do not run in very long together.

POPULATION 7,700

The Town of Glace Bay is well known as the most important Dominion Coal Company's operations. Of the nine collieries of this Company, six are within the Town limits and contribute to the security of the Dominion Coal Company's operations.

The Dominion Coal Company's property alone is over \$2,700,000. Glace Bay is the second town in Nova Scotia being only surpassed in population and resources by the City of Halifax. The value of the Real and Personal Property as estimated by a Commission acting for the County of Cape Breton, exceeds the assessed valuation by \$1,000,000. A conservative estimate places the revenues of the Town for the current year at \$1,000,000.

\$5,000. Stanfield's Limited 6 per cent bonds due January 1st, 1931

The strength of these securities is appreciated when it is realized that the average net earnings for a succession of years of the Trust Knitting Mills Company (the total undertaking of which was assumed by Stanfield's, Limited) show an annual surplus over the bond interest and preferred dividend requirements of the new Company without regard to the returns from the manufacturing of worsted yarns, the net earnings from which are considerable estimates of \$2,000,000 per year.

Price per \$100 interest yielding 6 per cent.

—A very successful basket social was held Monday evening in the new Temperance hall at Kensington. The hall was crowded to the doors with enthusiastic workers. After a splendid program the baskets were sold and the handsome sum of \$90 was realized, which goes towards paying for the new hall.

—Stylish and smart—and the kind that are as good as they look is the kind of ladies' coats and skirts we are offering. A woman usually wants to see before she orders and we invite ladies to examine our stock carefully. For prices and styles our goods will stand any investigation and we invite comparison.—McGowan & Wright. 5-2011a9131.

—A large number of the primary class and mission band children gathered in the vestry of the Methodist church, Kensington Thursday afternoon, to say farewell to the little Misses Stella and Gladys Sample who leave with their parents today for Vancouver. After an interesting program of music and addresses by Mrs. A. D. Stirling and J. B. Gough, the cream and cake were served. General regret was expressed at the departure of Mr. and Mrs. Sample with their bright little daughters from Kensington and all hope that continued prosperity may attend them in their new home.

—Dr. Alexander McNair entertained his "dear brethren" at St. Ann's, Kensington at the Crystal Cafe, a few nights ago, in recognition of their kindness and attention to him during his recent accident and subsequent illness from the effect of which he has now fully recovered. Needless to say, the spread was all the more exciting epicureans could desire and it was thoroughly enjoyed by the doctors, all of whom know a good thing when they see it. Toasts were honored in cold water, corded drinks of all kinds being strictly excluded.

Wall Paper Superiority!

The best test of the great superiority of our wall paper values, lies in the fact that the people want them, and have wanted them a badly ever since we placed them on this market, that our sales have been almost phenomenal.

Hundreds of designs have been sold down to the last roll, but by a fortunate forethought on our part, we have succeeded in having them all repeated on at the Factory, and some new patterns added also.

This large shipment of several thousand rolls we expect to open up today, and will be priced from 6 cts a roll up, as before.

The designs are extremely beautiful—even at the lowest prices—nothing common or garish looking about them, they add a note of refinement to even the plainest room.

Meanwhile the rush continues for the more expensive lines. We are however in a splendid position to give complete satisfaction to all the matter of selections.

To anyone contemplating papering, we would say, purchase no papers until you have seen our magnificent lines, learned our extremely low prices—we will then feel confident of your patronage.

Join the satisfied throng of paper buyers who have made their selections here at less than half the prices formerly paid for less artistic goods.

VETERINARY DENTIST

J. H. NICHOLSON, D. V. D. (Graduate Detroit Veterinary Dental College)

Kent St. Charlottetown, Telephone 251.

The cause of numerous diseases and disagreeable habits, heretofore ascribed as constitutional, have been traced directly to the teeth. Blindness, drooping, frothing, loss of flesh, weak eyes, driving on one rein and pulling are very often due to diseased and irregular teeth. Rough edges and sharp corners of the teeth lacerate the mouth, and produce nervousness and irritability; uneven and elongated molars and incisors prevent the proper mastication of the food, producing indigestion and general debility. Decayed molars cause necrosis of the bone, abscesses, nasal gleet, etc. These causes should be removed by extracting or trephaning, sharp corners and rough edges should be smoothed down, and elongated and uneven molars and incisors cut off. The common float, or file heretofore deemed sufficient to accomplish this, will not suffice but special instruments devised for the purpose are necessary. 4-254777
