INSIDIOUS EYE STRAIN

We use this adjective advisedly.

Sufferers from Eyestrain may have perfect vision and therefore do not suspect the presence of any eye defect.

The motive power of the entire human organism is Nerve Energy.

Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eyestrain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy may seriously affect the functioning of other organs of the body and produce ill health.

The bride looked charming dressed in a gown of powder blue tulle with trimmings of gold lace, blue marvellous and pile velvet hat to match. The bride was attended by her cousin, Miss Mae McDonald of Plaquid, who wore a dress of rose-wood with hat to match.

The groom was ably supported by his brother Howard. Mount Stewart Notes

Mr. and Mrs. Wendell Glover, spent the week-end at Mrs. Glover's former home in Pauping Brook.

Spring coming! everything starting to move again. Even moving pictures in the hall Monday night.

It is reported that a flock of wild geese was seen the other evening, flying due north, which according to the older men is a favorable sign.

We are sorry to learn of the loss of a valuable horse belonging to Mrs. James Dunn. As the loss of a horse at this season is indeed a serious one.

Mr. Lester Jay, Fanning Brook, who with his engine and saw has been employed in sawing wood for different citizens here has about completed his contracts.

Mr. Calcutt Cameron who has been spending the past few weeks with his family at Hill of Hillsboro, returned Friday evening to Somerville, Mass., where he is employed in carpenter work.

The Mount Stewart citizens are fortunate in having the services of Dr. A. J. LaCourriere, a dentist from Montague, who pays a two day visit every week. And several are taking advantage of this opportunity.

Our school is progressing very favorably and there yet remains to be heard, any complaint which certainly speaks well for our teachers, Mr. Raymond Hughes, principal, and Miss Agnes Clement, asst.

As the ice is sunken in places, due to the weight of snow, it makes a very poor road, so that a number of those who found it a very convenient short-cut in many cases, are now obliged to travel the road, which might be better than it is at present.

The lobster fishermen are getting their gear ready for fishing here and about. Having their herring nets mended, building and rigging their traps, etc., and the owners of the factories having the necessary supplies hauled over before the roads become bare.

In order to be classed with the crowd and gang with the bunch some would forsake their best friend and ignore the sacredness of any bond; some day the winds are going to shift and these deluded hearts will find themselves woefully in the lurch.
