

# PANDORA RANGE

A convenience much appreciated by every owner of a Pandora is the towel rod attached to the range. As one-third of the rod is made of emery, it makes a splendid knife sharpener, too.

Every Pandora thermometer is carefully adjusted and undergoes a practical test by heat—is proven correct before being sent out.

The figures, which show the required degree of heat necessary for the successful baking of bread, cakes, pies, etc., are plainly inscribed in black on a white enamel surface, so that they are easily readable, even when the day is dull.

If your local dealer does not sell the Pandora, write direct for free booklet.

It's always there handy for you. You need waste no time hunting around for the easily misplaced "steel." Bright idea, eh?

\*\*\*\*\*

An accurate thermometer is a reliable guide to successful baking, while an inaccurate one is a "cheat" of the worst kind.

At Fairland another big crowd saw the pictures last night. It takes more than the rain to keep the people away from Fairland. Had the weather been fine there is no doubt the Opera House would have been filled to its full capacity last evening according to the many compliments passed by the audience leaving the theatre. The hit of the evening was the picture entitled Sign of the Times, and the others were received with great applause. Miss Bremner's rendition of Since You Called Me Dearie, was very pleasing. The program will be repeated this evening and an entire change tomorrow evening.

### Beaver Flour

Makes More Bread

because it is made of the finest wheat, Manitoba Hard and Ontario.

Beaver Flour has "strength"—takes up water readily—and the dough "stands up" in the oven.

Beaver Flour has "flavor."

Every good bread, pie and pastry maker knows just what that means.

Beaver Flour makes BETTER bread, and yields MORE bread, cake and pastry to the barrel.

Your first baking proves this. No bleaching process used.
