

Demand for New Scale Williams

Pianos not confined to Canada
Among recent shipments of their New Scale Williams pianos, the Williams Piano Co., Limited, Oshawa, have shipped a very choice piano to Mr. J. R. C. Honeyman, Deputy Minister of Agriculture, Regina, N. W. T.; one to Johannesburg, South Africa, another to Dunedin, New Zealand, showing that the demand for these artistic instruments is not confined to any one country, but is world-wide. Artists and connoisseurs recognize their very fine tone qualities as well as the excellent taste displayed in the design and case construction. It is pleasing to note that this high grade piano is being appreciated abroad as well as at home, demonstrating clearly the high standing of the instrument.
The New Scale Williams is a piano which has been constructed along entirely new lines and possesses so many advantages over other makes that it is well worth one's while calling at the local warehouses to examine them. The Williams Piano Co., Oshawa, publish three booklets on the history and construction of a piano, which can be had direct by mail on application, or from the local agents of this celebrated piano.

For sale by Miller Bros., sole agents, Charlottetown, P. E. I.

PROGRESS IN THE SOUDAN,

The events of the past quarter of a century have brought the British Government and people into new and strange relations with Egypt and the Egyptian Soudan, containing twenty millions of people about equally divided between the two latter countries. Our readers are somewhat familiar with the beneficent results of the British occupation of Egypt. They are less so in regard to progress in the Soudan in whose capital, Khartoum, Gordon met his death and where six years ago Kitchener broke the power of the Mahdi at the battle of Omdurman. An almanac of the Soudan has recently been published, from which The Outlook has gathered many interesting facts, a few of which may be here recited.
In the first place there was the foundation of Gordon Memorial College, due to the initiative and exertions of Lord Kitchener. Here the Mohammedan youth are placed on an equal footing as regards the acquisition of knowledge, with their conquerors. The Mohammedan calendar and festivals are officially recognized, Mohammedan schools are encouraged. This accords with British practice everywhere. There must be religious liberty and personal and property rights must be respected. Law and order have been established in the Soudan, the lawless have been subjected and peaceful industry now prevails.
The country has been surveyed, hitherto little known regions mapped out, the railway extended far up the Nile valley and telegraph wires stretched to distant points. Semi-weekly mails now run between Cairo and Khartoum, weekly mails between Khartoum and places on the Red Sea and to El Obeid. There is a monthly mail service to Uganda, the British province under the equator. The rise of the Nile, and the progress downward of the fertilising flood are telegraphed from day to day to Cairo and intermediate points. Thus is the Soudan becoming modernised and civilized.
It is interesting to read that in Uganda, 2,600 miles south of Alexandria and the Mediterranean the Bible was seven years ago translated into the native language and it is difficult to supply the demand for religious instruction. About 50,000

natives can now read and write. Already in 1902 there were 1,070 Protestant churches, 33,814 members of the Church of England and an average church attendance of 52,471. Catholic missions have also been very successful. In Mengo, the capital, which is situated on the shores of Victoria Nyanza lake, under the equator, there is a Church of England cathedral seating 4,000 people. Such are some of the evidences of progress in the Soudan and Central Africa.

HAD TO BE TAPPED.

Terrible Suffering of a Montreal Man before he Cured his Dropsy with Dodd's Kidney Pills.

Montreal, Que., July 11th.—(Special).—After having to be tapped 12 times to relieve the terrible pain and swelling of Dropsy, Geo. Robertson, 392 St. James Street this City, was completely cured by using Dodd's Kidney Pills.
"My feet were so swollen from Dropsy," says Mr. Robertson, "that when I got out of bed in the mornings I could hardly put them on the floor. My arms would swell at times till I could not put my coat on. I had to be tapped to relieve me of the severe pains.
"Before I had used the second box of Dodd's Kidney Pills I began to feel better. Seven boxes cured me completely."
