PAINS IN THE SMALL OF THE BACK.

Bad Digestion and Racking Headache—Cure Was Brought out by

Dr. Chase's Kidney-Liver Pills.

"Pains in the small of the back" is the way most of people describe their sufferings, not knowing that the pains are in reality in the kidneys. Pains in the back, weak back, lame back—these are the first indications of kidney trouble. They are the warning which nature gives you. If you heed it once you can be cured. Neglect will soon put you at the mercy of the most painful and fatal of diseases.

Women as well as men have kidney disease, and may well feel anxious when the kidney pains make themselves felt in the small of the back.

Because Dr. Chase's Kidney-Liver Pills give you prompt relief from backache it is well worth your while to take them. But they do more than this. They regulate and invigorate the action of the kidneys, and insure a return to health of these important organs.

Mrs. J. Larter, 123 Cross Street, Charlottetown, P. E. Island, and whose husband is a contractor, states:—"I have suffered a great deal with pains in the small of my back, my digestion was bad and I was frequently troubled with spells of racking headache. I have been entirely cured of these distressing symptoms by the use of Dr. Chase's Kidney-Liver Pills, and find that my general health is greatly improved since I have been using this preparation.

"I can also testify to the merit of Dr. Chase's Syrup of Linseed and Turpentine, as I was cured of a severe attack of bronchitis by the use of this remedy."

GERMAN EDITORS DISCUSSING THE FAMOUS MONROE DOCTRINE

Say no European State Has Yet Recognized the Doctrine or Been Asked to Do So, Nor Has Any South American State Yet Admitted Any Claim of the United States to Interfere on Their Behalf—"It Binds Nobody and Confers Rights on None".

BERLIN, Jan. 6.—The government is without information regarding the landing of German marines at Puerto Cabello, Venezuela.

The foreign office says that if such landing occurred it must certainly have been transient, and regards the reported seizure of the customs house at Puerto Cabello by German marines as a canard.

Several newspapers today, in their yearly political reviews, devote much attention to Venezuela and the Monroe doctrine. The Vossische Zeitung (Independent Liberal) regards Germany's proceedings against Venezuela as entirely within the limits of international law. "Whoever has a claim against another," says this journal, "tries to collect it, whether they be private individuals or nations. If anybody disputes our right to compel payment of the Venezuelan claims we must ask that person if he is willing to pay the debt himself, or give guarantee therefor."

"If so, the matter speedily could be settled; but if this other person is unwilling to give such guarantees, his objections do not concern us. The United States could settle the trouble between Germany and Venezuela in a moment if it would stand good for the payment of our claims; but the United States is unwilling to take this step and we cannot demand that it do so. In this case the United States should not hinder Germany from pursuing the course that is deemed expedient."

The Vossische Zeitung refers to what it calls the "will noise" in a portion of the American press, which declares that Germany has no right under the Monroe doctrine to take forcible action in Venezuela, and that Germany has not even recognized the Monroe doctrine. "The latter assertion is correct," says the journal. "No other European State ever recognized this doctrine, and we believe no European country will ever do so. The Monroe doctrine is not adapted to become a subject of diploma in negotiation, and the document hardly exists in which this doctrine is laid before any European power with the request that this power make a declaration thereon."

After reciting the history and the

origin of the framing of the doctrine, the paper asserts that the right of intervention claimed by the Holy Alliance has long since been abandoned. The countries of South America have been in a chronic state of revolution, yet nobody in Europe dreams of intervention.

The disastrous issue of Napoleon's attempt in Mexico renders it probable that no European state will ever repeat the effort to establish itself in the western hemisphere. "Later interpretations of the Monroe doctrine," continues the Vossische Zeitung, "do not involve the defined hegemony of the United States over Central and South America. The United States claims suzerainty over these countries with the right of intervention, but denies to European countries the right to interfere in their political affairs. How far such suzerainty extends and what rights and obligations result from it has never been cleared up. Neither have the Central and South American states recognized this suzerainty, but they have decidedly rejected it, owing to its repulsion of the Romantic and Germanic races. No European state has made any concession in this respect, and finally the United States itself has given no clear statement of its aims."

"The Monroe doctrine does not belong to international law, but to conjunctural politics. It binds nobody and endows nobody with rights, Germany has no obligation to recognize and no occasion to dispute the Monroe doctrine. The South American States stand towards Germany as sovereign nations; they have all the rights and all the obligations of sovereign states, and having such obligations they must pay their debts."

"Germany will establish its claims considerably in form and energetically in action."

The Taegelsch Rundschau complains that that hard realist, the Yankee, does not appreciate courtesies like the visit of Prince Henry, and the gift of the statue of Frederick the Great, "but blows a few notes into the rusty and hoarse Monroe trumpet and Germany must let that impudent trickster, President Castro, alone while he laughs in his fist."

EDITOR VESUS CROPS.

ROCKPORT, Mo. Democrat: "Dear farmer friends, now that you have harvested bountiful crops and prosperity from every avenue in life has smiled upon you the past eight months, we sincerely hope you will remember the editor of this paper and come forward with a liberal heart and renew your subscription. We've harvested no wheat crop; haven't got any corn crop; don't own any fat cattle or swine. The only thing on earth that we can call our own in the way of a living creature is our bulldog, Dave Francis, and he's growing old mighty fast, hence you will understand that we need money. Come in and have your name registered upon the great book of the blessed for another year. Otherwise you will feel that you are partly responsible for the editor of the Democrat wearing old clothes."

MORE PAY FOR MINERS.

WHEELING, W. Va., Jan. 6.—An advance in wages averaging ten per cent will be granted by every important mining concern in West Virginia. The threat of President Mitchell to establish headquarters in the Fairmont region Jan. 25 and remain until the West Virginia field was thoroughly organized is a strong factor in influencing the operators who fear a general strike in the spring.

SAMPLES OF SEED.

DEAR SIR.—By instruction of the Hon. Minister of Agriculture another distribution will be made this season of samples of the most productive sort of grain to Canadian farmers for the improvement of seed. The stock for distribution is of the very best and has been secured by the Director of the Experimental Farms from the excellent crops recently had in the Canadian North-West. The distribution this spring will consist of samples of oats, spring wheat, barley, Indian corn and potatoes. The quantities of oats, wheat and barley to be sent this year will be sufficient to sow one twentieth of an acre. The samples of Indian corn and potatoes will weigh 3 lbs. as heretofore. Every farmer may apply, but only one sample can be sent to each applicant, hence if an individual receives a sample of oats he cannot also receive one of wheat, barley or potatoes, and applications for more than one sample for one household cannot be entertained. These samples will be sent free of charge through the mail.

Applications should be addressed to the Director of Experimental Farms, Ottawa, and may be sent in any time before the 1st of March, after which the lists will be closed, so that all the samples asked for may be sent out in good time for sowing. Parties writing should mention the sort or variety they would prefer and should the available stock of the kind asked for be exhausted, some other good sort will be sent in its place.

PIONEER'S EXPERIENCE.

H. S. Barnes, almost an Octogenarian. Cured of Kidney Trouble by Dodd's Kidney Pills.

RAT PORTUGUE, Ont., Jan. 12 (Special).—Seventy nine years of age, but hale and hearty, H. S. Barnes, of this place, is a splendid specimen of the pioneers of New Ontario. To his numerous acquaintances he often tells the following story:

"I was troubled with Kidney Complaint I suffered severely with pains across my back, and with a scalding burning sensation when urinating that was very painful. Though I had little faith in proprietary medicines, I had a box of Dodd's Kidney Pills in the house and commenced using them. I was not long before I felt better and looked better. My friends started to greet me with 'Hallo, Mr. Barnes, now young you are looking!' My Kidney Complaint was completely cured by Dodd's Kidney Pills. Dodd's Kidney Pills make the old feel young again."
