Fox and Fur Notes

FOXMEN! Make Monday, July 26th a memorable day in the annals of the Fox Industry by attending the meeting in Summerside on that day. In after years we want to look back to this day as the foundation stone of the Co-operative movements in the Provincial Industry.

On that day will be unfolded to you a means of establishing on a firm basis and for all time, a business that will bring wealth to this island, and assure growing dividends and returns to all interested. It is a great big proposition and must be launched in a big way. We cannot and do not wish to force you into this, but come with an open mind. We want to "Show You" and if we can't, then will be the time to say so. No other business is of such importance that can excuse you from attending. From Tignish to Souris; from every part of the Province where the Fox Industry is established, ranchers must come and lend a hand. We are at the parting of the ways; we must choose the right road, and pursue it unflinchingly to the end, and if we do, the goal of success will be attained. Come then, Foxmen, and come ready to play your part, and success will crown your efforts.

The officers of Fox Companies who are neglecting calling their Directors together to consider their subscription to the Silver Fox Fur Selling Association, are delinquent to their duty, to their shareholders, and to themselves. They know the Fox Industry cannot successfully overcome the difficulties of the future without organization and co-operation. They may plead that they are busy, but having assumed their responsibility of Directors, they cannot shirk the obligation placed upon them to use their utmost to make their company profitable. Production of foxes and furs are only one feature. They must take the means of insuring the present and future market of these furs. This can only be done by united action, by each and everyone assuming his share of the burden. Directors! Lose no further time in taking action.

BY EXPRESS.—ELEGANT new voiles for light cool dresses. New lilac, hose in black, white, brown, grey; New bead trimming, silk and jet tassels, fringe, elastic for waist band; elastic looping. Prowse Bros., Ltd. 1834

NEW POTATOES.—Captain A. J. Taylor, Wood Islands, on Sunday last, had the pleasure of having his first dinner of potatoes of this season's growth. The potatoes were of the variety known as Early Ohio, and the seed was procured from Mr. James Young of Wood Islands. Farming in all lines is well advanced in that section of the country, and some of the farmers have had their hay in coil for some days.

FOXMEN, PLEASE NOTE. The Silver Fox Fur Selling Association is not in any way connected with National Registration or Provincial Registration of Foxes. These are independent organizations, and are not at present identified in any means with the Silver Fox Fur Selling Association. 1839

BURLINGTON, Vermont, July 22.—Because United States immigration officers thought their bodies too plump for their faces, A. Lina Remillard, Eva R. Boyer and Mrs. Desperes, Montreal, were held and examined at the border while attempting to enter the United States. In consequence they are to be arraigned on the charge of smuggling spirits into the land of the 18th Amendment. The Misses Remillard and Boyer were spotted at Newport, Vermont. The matron at the immigration office, who "frisked" them, found that each carried two cans of a gallon each, containing high class wines, in specially constructed skirts. About the waist of each girl, say the immigration people, was another specially devised garment, with many pockets. In these wallets each had eight pints of high wines. Miss Desperes was arrested under similar circumstances at Richford, the officers say.
