—BIRTHDAY CELEBRATION.—Some days ago a pleasant reception was held at the home of Mr. Joseph P. Arsenault, at St. Chrysostome on the occasion of the 22nd birthday of Mr. Leo Dolron, teacher. A good number of visitors were present, who partook of a sumptuous supper prepared by the genial hostess. An appropriate address on the occasion was read by Mr. Moses Gallant, assistant teacher, with Mr. Dolron. Accompanying the address was a suitable gift presented by Mr. Andrew Gallant. Mr. Dolron though taken by surprise made a fitting reply. Speeches were then made by Mr. H. D. Gallant, and Moses Gallant, after which the guests were treated to good music and singing. Before dispersing all took part in the familiar song "For he's a Jolly Good Fellow." As stated in the address Mr. Leo Dolron has proven himself to be a young man of winning qualities, an efficient teacher and an upright member of society. Following is the address: Mr. Leo Dolron, Principal of Chrysostome School. On the occasion of this your 22nd birthday anniversary, we crave your permission to offer you our heartiest congratulations and good wishes. In every instance you have always shown the qualities of a gentleman, being at all times affable and of good will that which has earned for you a host of friends. For nearly two years you have fulfilled the duties of a painstaking teacher in our school, and though such a burden very anxious and his delicacy requires a great deal of diplomacy you still have proven yourself equal to the task and have triumphed amid the loud praises of all. A learned philosopher once said that a real friend was a treasure, we therefore congratulate ourselves in possessing an inestimable treasure. Since your advent in our midst your good works have been prevalent and your pupils should feel very grateful for the wise teaching and sound admonitions they received at your tuition. The society also considers you a valuable member, and your company is sought by all who have made your acquaintance. We therefore take occasion to express to you our high esteem and hold of you and deep appreciation we wish you to accept this small token of our good wishes and hearty congratulations. Your friends of St. Chrysostome.

THE WEST WISER THAN THE EAST

Carter, the great magician who is to appear at The Prince Edward for two days Wednesday and Thursday has appeared in nearly every country in the world he says:—

"I have visited India and seen the fakirs, mahatmas, yogi and other magicians of the Hindu race. The lower class who do their tricks for money are in the main, of little account. But up in the cool heights of the Himalayas dwell the upper-caste mahatmas, who perform their experiments as a sort of religious ceremony and never for pay. The most remarkable thing I have ever seen in India was the levitation of a youth on the points of two swords, the hilts of which were buried in the ground. The Hindus acknowledge the superiority of Americans in the production of really great illusions. 'The West is now teaching the East,' they declare. And it is really true."

Sets now on sale at the Box Office, 7004.

BLACK'S SUNNYSIDE

FAVOR TRIAL OF THE IRISH PRISONERS

British Newspapers Show Relentlessness in Their Attitude Towards Sinn Feiners—Much as Possible of Evidence of German Conspiracy will be Published.

LONDON, May 27.—Although Ireland remains surprisingly quiet, there are certain sections of the British press which show relentless regarding the Sinn Fein prisoners and today for the first time an insistent note has been struck in the comments on the alleged German conspiracy. Unofficially it has been stated that as much as possible of the evidence upon which the arrests were made would be published. In advance most Liberal organs, including The Manchester Guardian,

The Gazette, The Star, and The Daily News, declare that an expert statement will not satisfy public opinion here, in America, or in Ireland.

Should Be Tried Soon

Even The Times states that the prisoners should be brought to trial as early as possible. The Irish correspondent of The Manchester Guardian doubts whether any of the prisoners are really dangerous conspirators. In all the comments, anxiety as to America's attitude is evident. Although Englishmen profess to consider Ireland purely a domestic problem, they are anxious to have the favorable opinion of America on their handling of the problem. The Tory organs give the government their unqualified support but the Liberal newspapers seem doubtful of the proper attitude to take. Meanwhile the Sinn Fein party apparently plans to carry on as usual and is now going through a period of reorganization. The Irish Nationalists are not supporting the Sinn Feiners.
