THE CAPE BRETON COAL STRIKE SITUATION

Steel Helmeted Soldiers Guard British Empire Steel Corporation. Residents Keep Indoors in Affected Area. No Untoward Incident Developed up to Last Night.

(Canadian Press) SYDNEY N. S. July 6.—Through-out today and up until a late hour tonight the Cape Breton strike area was so quiet that one might almost hear the proverbial pin drop. Steel helmeted soldiers guarded the property of the British Empire Steel Corporation Sydney and mounted policemen roamed about the streets in the immediate vicinity of the plant but residents of the affected district kept indoors for the most part and no untoward incident developed last night. The band of H. M. S. Whistler, anchored off the royal Cape Breton Yacht Club, played gaily to the evident enjoyment of hundreds lining the shore. An inspection of the colliery district this afternoon revealed the conditions to those prevailing in Sydney, at Glace Bay a baseball match drew a slim attendance about their doorsteps and the streets were practically deserted, only a Dominion number two, the seat of the colliery district supply as it does the electrical energy required to operate the ventilating systems of nine other mines, was there any evidence of a struggle, here the plant is being picketed by 250 strikers working in four relays on six hour shifts earlier in the present strike coal cars enroute to the boiler plant were dumped in instructions to go pickets, but they there was no interference of this nature and food supplies for the officials operating the machinery required to protect the property were permitted to enter. SYDNEY, July 6.—Police officials were investigating today the authenticity of a circular letter purporting to have been addressed

Robert Lansing, former secretary of state at Washington, who is rapidly recovering from a comparatively advanced stage of diabetes, through being treated with insulin in one of the hospitals at the U. S. capital.

Young Agitators Fail To Call New Strikers

(British United Press) LONDON, July 6.—More efforts of outlaw dock-strikers to call out men on the Canadian Pacific White Star Liners in Liverpool failed entirely, the men refusing to listen to young agitators and preferring to cease work during the regular Union leaders who discontinued a strike and ordered radicals back to work. It is unlikely that sailings to Canada will be affected in view of the attitude of regular leaders. It is generally believed the end of the heat wave will see the strike frizzle out, the men are apt to seize any excuse to cease work during the fine weather but gloomy days make work more attractive. As a result of the strike chilled beef prices have gone up. One third of the retail millers are not yet affected but there is only one week's supply of wheat in London. Other foods have not felt the effect so far. The chief feature of the strike is the absolute lack of organization among the men.

New Evidence Presented At Delorme Trial

MONTREAL, July 6.—That the hand writing on the parcel and box containing the watch of Raoul Delorme, addressed to Chief of Provincial Police Lorrain, had been stimulated by the same person who had written on documents admitted by the defence as being in the handwriting of Rex Faucher Delorme, was the feature of the evidence of Charles Hazen, vice-president of the Milton Hersey Company of this city, and professional handwriting expert, given in court here this afternoon in the trial of the priest on a charge of having murdered his half brother. Using as his standard of comparison, letters and documents written by the Abbe, either sworn to in court as having been written under the eyes of a witness or admitted by the defence as being specimens of the priest's handwriting, Mr. Hazen compared the writing on these papers with that on the parcel containing the watch and with that on the Pall Mall cigarette box in which the watch was enclosed. For this purpose of comparison photographs enlarged five and seven times the natural size were produced and after lengthy argument against their validity by counsel for the defence, were admitted by the court. From these photographic enlargements particulars of letters were pointed out by witness who declared that the writing of the accused was of a slanting nature while that on the parcel and box was vertical. Minor characteristics however indicated that certain letters in the vertical writing were slanting and from this the witness concluded that the writing on the parcel had been stimulated. In his expert opinion it was, however, written by the same person who had written the authentic documents agreed as being in the handwriting of Abbe Delorme.

A RARE MUSICAL TREAT AT THE PRINCE EDWARD

The Grand Concert, Scotch and Gaelic Folk Songs, by Miss Mairi Matheson Assisted by Local Artists was Very Much Enjoyed Last Night.

The Grand Concert of Scottish and Gaelic Folk Songs, given at the Prince Edward Theatre last night by Miss Mairi Matheson was followed by a large and appreciative audience. The talented visiting soloist was capably assisted by Prof. W. E. Fletcher, pianist, Miss Kathleen Hornby violinist and the Caledonian Club Pipe Band. Miss Matheson possesses a contralto voice of great sweetness and charm, and her rendition of the old, familiar Scottish and Gaelic songs was a rare treat indeed. To many of the older people present the Gaelic selections made a special appeal and they warmly applauded which greeted each number was eloquent testimony of the appreciation of the audience. Miss Matheson was repeatedly encored and in response gave a number of songs both in English and Gaelic. Miss Hornby is a talented violinist and her selections were charmingly rendered. She was recalled after each of her programme selections. Part one of the programme opened with a splendid selection by the Caledonian Club Pipe Band. Miss Matheson then sang for her first Messes, Miller Bros. "Croth Gun Aighean" (Ferguson), and "The Road to the Isles," a Highland tramping song. (Kennedy-Fraser).
