THE CHARLOTTETOWN GUARDIAN

THURSDAY MORNING DECEMBER 13, 1906.

THE LATE R. T. HOLMAN.

In our issue of yesterday a somewhat extended report was given of the business career and achievements of the late R. T. Holman, the merchant prince of Summerside. He was in many respects a remarkable man. Like many others of the successful men of the world he was not born rich, or with greater advantages than fall to the lot of the average boy in Prince Edward Island. He had not a college education, and some in these days would consider this a serious handicap.

Mr. Holman's business success was achieved under what many would consider to be extraordinary difficulties. Trade in Prince Edward Island is beset with great obstacles because of our winter isolation. Summerside was but a village when half a century ago he began business for himself there. In those fifty years how many Islanders have gone abroad in search of opportunity which they thought denied them at homes. Mr Holman came to us from abroad and by his energy and attention to business built up the greatest commercial emporium the Maritime Provinces could boast, in this little Province which so many thought too small for their energies. There is a lesson in this.

He was from the first a borough master of every detail in his business. Thoroughness, untiring energy, indomitable industry, honesty and upright business methods, were the springs of his great and marvellous success as a merchant. And yet he did not, as many do, in the engrossing pursuit of wealth, neglect the cultivation of his mind, or the home in which he lived, or forget the obligations of the prosperous toward the unfortunate. And these qualities should command our admiration not less than the business success he achieved.

Mr. Holman was not in the ordinary acceptation of the word a religious man. He had his own way of thinking and of speaking in regard to the great problems of life. These matters we must leave to be settled by a higher than earthly tribunal, one which takes cognisance of the natural bent of each human mind and of all the circumstances which go to mould it. But he made the most of his splendid business and intellectual powers, he was a good citizen, a friend to the poor, and he sent an example of kindness and beneficence to beasts and birds that many a religious man might copy with profit. His demise creates a great void in the business world and the citizenship of Summerside, and it will be long before the vacancy can be filled by another of equal capacity, integrity, and progressiveness.

PROHIBITION ENFORCEMENT.

Rev. Dr. Burke, President of the Provincial Temperance Alliance called the council of that body together on Tuesday evening when the general situation was talked over. The work of enforcing the law was found to be energetically conducted in this city while in the counties the several prosecutors were giving evidence of increased activity. The suggestion made some time since in these columns that the different prosecutors should make quarterly or monthly reports of their work has been taken up and acted upon with good results, and it is hoped before long that these reports may be accessible to the press. Chief Inspector Jenkins reports an extensive correspondence from all over the Province with persons who are earnestly desirous to suppress the limited illegal sale that is still going on in various places.

The action of the citizens of Morell in forming themselves into a vigilance committee for the purpose of carrying out the law cannot be too highly commended. We sincerly hope that the example may spread to many other villages and districts. The work can be much better done by the many than by the few and it should be the duty of all good citizens to assist as far as they may. Where the friends of sobriety and order thus make common cause to secure the observance of the law, they prove irresistable and the illegal traffic is discredited much more than where the active work is left to the few. We hope the temperance divisions and lodges will actively promote this movement, either by resolving themselves into vigilance committees or by forming such organisations in their respective communities. The work is going on well and the outlook bright but there are still some sections where more energy and vigilence among the friends of the law are needed.

Messrs. Grady and Campbell won golden opinions for their modest, manly bearing at the presentation yesterday.

Liver and Kidneys

It is highly important that these organs should properly perform their functions.

When they don't, what lameness of the side and back, what yellowness of the skin, what constipation, bad taste in the mouth, sick headache, pimples and blotches, and loss of courage, tell the story.

The great alterative and tonic

Hood's Sarsaparilla

Gives these organs vigor and tone for the proper performance of their functions, and cures all their ordinary ailments. Take it.

The body of the late R. T. Holman will be taken to Montreal and there cremated. This is the first instance in which the remains of a resident of this Province have been thus disposed of. There will be more in future years.

YOU NEED STRENGTH

Vitality is Lacking and You Must Have a Bracing Tonic at Once.

You are sick and need medicine.
Not an emulsion to sicken the stomach, not a "dope" cure, nor bitters.—but a nourishing tonic that will increase weight, strength and spirits.
Try Ferrozone and watch the result.
Because it gives instant effect and steadily builds up new flesh, it is used by thousands in ill-health.
No other medicine contains more nutriment, supplies better building material, makes you feel well and strong as quickly as it did Mrs. Charles Benny, of Cloyne, Ont.
