Emblematic of the Maritime Hockey Championship and Held by the Abegweits for the Past Two Seasons.

### ABBIES WILL HAVE FINAL PRACTICE

At Arena This Evening and Will Leave Tomorrow Morning for St. John. Will Play Granites There.

The Abegweits had another splendid workout last night at the Arena and the way the team is moving it looks as though the Granites will have a big hour's work ahead of them on Thursday night at St. John when they cross sticks with the local Maritime Champs.

Tonight the aggregation will taper off and on tomorrow morning will leave for St. John so as to be on the ground and well rested for the big game on Thursday.

It is likely the boys will have a slight "brush" on Thursday morning at the St. John Arena in order to get more or less familiar with the "batleground."

The locals are confident personified and look forward to giving the Olympics the game of their lives.

### BOWLING

Last night on the "Y" Alleys the Abegweits defeated the Y. M. C. A. in the closest and most interesting game of the series by a close margin of 70 pins.

The "Abs" combine home strong in the last string when Conrad and Sempel finished with the phenomenal singles of 284 and 277 both of them being records of the series.

For the Y. M. C. A. every man rolled their usual steady game.

Line up and scores:

Y. M. C. A.

### S'Side Hockey

A meeting was held in the Town Hall at Summerside on New Year's morning and was largely attended by citizens interested in the furtherance of sports. The president of the Crystal Hockey Club, Mr. John A. Lea, presided and very interesting talks were given by Mr. A. C. Saunders, K. C., and Mr. Creelman MacArthur, M. L. A. It was decided to get as many foreign matches as possible and the president announced that the Crystals will play the Crescents of Halifax at Summerside in about two weeks' time. Delegates were appointed to attend the League meeting in Charlottetown next week, when a schedule of matches for the season will be arranged. The Crystals Hockey Club has received a donation of new uniforms for the season; and on this account the colors have been changed from black and white to garnet and gold which are the colors of the Ottawa Senators, whose footsteps the Crystals hope to follow. A committee is now out soliciting subscriptions to help maintain the club's running expenses, including the hiring of a coach, providing new nets and uniforms for the Junior Crystals; and it is hoped that citizens will make a ready response.—Pioneer.

### When You Catch Cold Rub on Musterole

Musterole is easy to apply and it gets in its good work right away. Often it prevents a cold from turning into "flu" or pneumonia. Just apply Musterole with the fingers. It does all the good work of grandmother's mustard plaster without the blister.

Musterole is a clean white ointment made of oil of mustard and other home simples. It is recommended by many doctors and nurses. Try Musterole for sore throat, cold on the chest, rheumatism, lumbago, pleurisy, stiff neck, bronchitis, asthma, neuralgia, congestion, pains and aches of the back and joints, sprains, sore muscles, bruises, chilblains, frost-bite—colds of all sorts. Seldom fails to deliver results. 40c and 75c. at all druggists.

The Musterole Co. of Canada, Ltd., Montreal.

**MUSTEROLE**  
WILL NOT BLISTER  
Better than a mustard plaster

### ANOTHER WIN FOR GRANITES

Wearers of the Maple Leaf Won From the Sault Ste Marie Team By a 5 to 3 Score

TORONTO, Jan. 7.—Toronto hockey fans said good bye to the Canadian Olympic players here on Saturday night when a crowded house saw the wearers of the Maple Leaf triumph over the powerful Sault Ste. Marie team by 5, 3. It was a thrilling battle, one befitting the occasion, and until the final period when the champions swung into action using the most sensational combination attack since the days of seven man hockey, the result was a toss-up. Bert McCaffrey, veteran of many a campaign, broke a one-to-one, dead lock one minute after the last period began and then ran in two more.

### INDPT. HOCKEY LEAGUE OPENS THIS WEEK

AMHERST, N. S., Jan. 7.—The Independent Hockey League was formally organized on Saturday night in Amherst. Three teams have entered, Stellarton, Moncton and Amherst. The League will open in Stellarton early this week, with Moncton meeting Amherst.

Lester Lowther, former Toronto and Halifax professional will act as playing manager for the Amherst team.

### HOCKEY REFEREES

To be a successful hockey referee one must have nerve, a whistle, a playing code all his own, knickerbockers and plenty of alibis. To be strict you're razed; to be lenient you're done.

Some referees dress in white; others in black. A few give the crowd the blues. Fans want a concise review of rules. They have 37 varieties to choose from. White flannel trousers give referees a frosty appearance. Some of them are. Referee problems will always be with us. So long as the National game is played.

To make good one has to be brave, a good guesser, and an excellent politician.

It's a tough job at best.

### Bankers' Hockey Team Reorganized

The "Bankers" hockey team of this city held their annual re-organization meeting in the Royal Bank office recently. There was a large attendance and the members are very enthusiastic over the prospects for the coming season. Mr. James Herrell, who was appointed coach, predicts that the "Bankers" will make it interesting for all competitors if the "City League" is formed. Mr. L. J. Gay was re-elected president, and Mr. A. G. Parks, secretary treasurer.

Among the players who turned out at the first practice held on Saturday night were L. McEwen, V. C. Wood, Allison Webster, S. C. Moore, B. Stevenson, and Phil McDonald. It is pleasing to know that Mr. A. R. McNis, a former member, is showing his old time interest in the team and was also on for the first practice. Arrangements are being made to have a match Friday with either the Amherst or Moncton teams.

### TO THE GANG

Though the jostles of fate have shaken you up,  
Or shaken you down, so to speak;  
Just hold up your head, and don't let it be said  
That you are discouraged or weak.

For there's always some brightness around in the dark.  
If you doubt it, just search and you'll see.  
Step forth with a smile, and after a while  
You'll be happy, just take it from me.

—Nick Flatley.

### BRINGING UP FATHER

MRS. JIGGS INSISTED ON MY GOING OVER THE PLANS OF YOUR NEW HOUSE WITH YOU!

THAT WOMAN INSISTS ON EVERYTHING!

NOW BEGINNING AT THE BEGINNING I HAVE Laid OUT THE CELLAR 60 FEET BY 80 AND—

YES—VERY MUCH INTERESTED IN THE CELLAR GO ON!

GEE! OUT YOUR LUCKY—JIGGS YOU'VE WON NEARLY EVERY POT!

I'M SORRY—I'VE GOT TO GO—I LEFT THE ARCHITECT OF ME NEW HOUSE SOMEWHERE IN THE CELLAR!

AND NOW WE COME TO THE THIRD FLOOR!

GOOD!

### The Mitchell Commission

Continued from Page 3

not be satisfied with wooden houses; they would build homes for themselves if they had facilities for settling when they got here.

Q. Did he say what kind of houses they would build?

A. He had plans along that line. The material would be stone or brick—something of a permanent nature.

Q. How many immigrants did he represent he was going to bring out to this Colony?

A. He did not set any limit, but he said he could interest 100 heads of families in one year.

Q. Was there any talk about climatic conditions here for settling?

A. Yes.

Q. Was there any suggestion made that it would be cold?

A. Yes, I think everybody made that representation, that our weather was severe, but not any more so than the other parts of Canada. He said that what these people were looking for was a suitable place for a home and residence, and if the winters were severe they were people that could afford to be there a couple of months in the South or back home. It was up to them to do that in the Old Country.

Q. Did he tell you how the colony was going to go in regard to church or schools?

A. He said they would naturally expect to have their own schools whenever settled, within their own territory, also churches.

Q. About the selection of the site for this colony at Emerald, how did that location come to be chosen?

A. Well, the fact that he got in touch with Mr. Mayne was really the settling of it.

Q. Why not near Charlottetown?

A. I might say I recommended that near either Charlottetown or Summerside, Charlottetown particularly, was the more suitable place. He said he was very much against that.

Q. Did he tell you why?

A. Those people would rather have their own society and they were not depending on trains or communication. They could have their own cars and go where they wished in the summer. They would rather be away from a city if they were in a convenient center.

Q. When does the option expire on the land?

A. On the 20th of January—it was drawn for one year.

Q. In regard to the payment for it: did you get any money?

A. No.

Q. Did he pay anything down?

A. No.

Q. Did he tell you how he was able to get in touch with this kind of people?

A. Yes, on account of being associated and bred with the upper classes in the Old Country, and being a descendant of those people; living in India until twelve years old and afterwards being educated in Edinburgh. My understanding of the English life is that the class distinction is more closely drawn than in this country where we are all of one class.

Q. When did you first know that he had been changing the price for land given in evidence?

A. My first intimation of that would be about Sept. 24th, 25th or 26th.

Q. I believe some people arrived at that time?

A. Yes, I was asked to come to Charlottetown by Mr. Thompson; I met Capt. Butler and Capt. Dudley here. That was the first I knew of the representations made by Mr. Mitchell and the first I knew of the deals he was putting through.

Q. Did you take any action on that?

A. I did, but just at the same time notice had come to Mr. Thompson that another man was arriving at Halifax named Capt. Turner.

Q. How long after?

A. He arrived the next day after I had the interview with those men. I would not take any action until we could co-operate.

Q. And then?

A. We found the same thing existing in the case of Capt. Turner. I immediately got Mitchell's address which was on the correspondence and cabled him.

Q. What did you tell him?

A. I said I had seen Capt. Dudley, Butler and Turner and they claimed misrepresentation which was evident by his letters to them. I also told him that their money must be returned to them and that Mr. Turner presented himself as a man who had no pension and

### WAR COSTLY

(By Dominion News Service)

LONDON, Jan. 7.—According to the sixth annual report of the British Ministry of Pensions, just issued dealing with the year ended 31 March, 1923, the number of beneficiaries (including the wives of disabled men and the children of disabled men and widows) at the end of the year was 2,300,000; 200,000 being wives, and 835,000 children.

From the Armistice to 31 March last rather more than a million men were granted pensions, allowance, or gratuity, approximately 42 per cent of the pensions awarded were for wounds or injuries.

Of the total expenditure of the Ministry, which amounted approximately to \$2,700,000,000 up to 31 March, 1923, all but about 5 per cent went directly to the benefit of the pensioner.

If the whole of the awards had been in payment at one time, the beneficiaries would have numbered 1,500,000.

At March 31, 1923, about 34 per cent of the total awards made to widows had ceased on account of re-marriage. For this and other reasons the total number of awards in payments was reduced during the year by 180,000 making the number in force at 31 March, 1923, 1,300,000 of which 755,000 awards in respect of disablement and 545,000 in respect of death.

This total compared with a maximum number in payment at one time of 1,785,000 at the end of 1920.

During the year under review 25,000 awards were notified as final, of which 55,400 were disablement pensions granted for life.

The expenditure of the Ministry for the year amounted approximately to \$406,000,000 compared with \$475,000,000 during the preceding year, and in the year 1920-21.

### THE CANADIAN HIGH COMMISSIONER'S OFFICE IN LONDON WEEK BY WEEK, 20TH DECEMBER, 1923

During the week 149 visitors called at the Canadian Office of which 93 obtained interviews and 22 registered.

The High Commissioner's Office has notified the Department of Marine and Fisheries, Ottawa, that the Board of Trade does not intend to bring into operation the Merchant Shipping (Convention) The High Commissioner's Office Act 1914 until the 1st July, 1924.

The High Commissioner's Office within the last few days made arrangements for the despatch of 10 cases containing sanitary registers to the Department of National Defence, Ottawa. Many of these registers contain names and particulars of deceased Canadian soldiers.

The High Commissioner has been asked by the organizers of an appeal for funds to restore the

### WINDSOR LIKES ITS HOCKEYISTS

The following is an extract taken from the Windsor Tribune commenting on the recent Windsor-Kentville game, which the former lost by one goal in an overtime play: "Even though the local team was defeated by the narrow margin of one goal in last night's game, we have the pleasure of knowing it was an all Windsor team. We do not have to send to Ottawa, Grand Pre, and Canning to make up a winning Hockey Team. We have the material right here to win the Nova Scotia Hockey League again this year. The younger players on the team have proved that they are all champions in the making, and they are not afraid to mix things with their heavier opponents. Yellow is a color they don't know anything about, and with some good, hard practice before they cross sticks again with the Ottawa-Grand Pre-Canning-Kentville Team, we are confident of the result. Get down to business boys, and the Graham Cup will once more have a year's sojourn in Windsor; then after that, go after the Provincial Championship again. You can do it! The town is back of you, and who knows; maybe the Maritime Championship will come to Windsor this year."

This total compared with a maximum number in payment at one time of 1,785,000 at the end of 1920.

During the year under review 25,000 awards were notified as final, of which 55,400 were disablement pensions granted for life.

The expenditure of the Ministry for the year amounted approximately to \$406,000,000 compared with \$475,000,000 during the preceding year, and in the year 1920-21.

LONDON, Jan. 7.—According to the sixth annual report of the British Ministry of Pensions, just issued dealing with the year ended 31 March, 1923, the number of beneficiaries (including the wives of disabled men and the children of disabled men and widows) at the end of the year was 2,300,000; 200,000 being wives, and 835,000 children.

From the Armistice to 31 March last rather more than a million men were granted pensions, allowance, or gratuity, approximately 42 per cent of the pensions awarded were for wounds or injuries.

Of the total expenditure of the Ministry, which amounted approximately to \$2,700,000,000 up to 31 March, 1923, all but about 5 per cent went directly to the benefit of the pensioner.

If the whole of the awards had been in payment at one time, the beneficiaries would have numbered 1,500,000.

At March 31, 1923, about 34 per cent of the total awards made to widows had ceased on account of re-marriage. For this and other reasons the total number of awards in payments was reduced during the year by 180,000 making the number in force at 31 March, 1923, 1,300,000 of which 755,000 awards in respect of disablement and 545,000 in respect of death.

This total compared with a maximum number in payment at one time of 1,785,000 at the end of 1920.

During the year under review 25,000 awards were notified as final, of which 55,400 were disablement pensions granted for life.
