36 KILLED WHEN AIRLINER CRASHES IN STORM

Potato Blight Situation Is Now Alarming

The potato late blight situation has continued to grow worse at an alarming rate, according to a bulletin issued by the Dominion Entomological Laboratory, Charlottetown.

Fields that have been sprayed consistently throughout the season are in good condition, but in many areas where spraying has been entirely ignored or delayed until the disease has become established the fields are either dead or rapidly dying. These fields are a menace to those better growers who have followed a wise spray schedule because wind-borne spores carried from these neglected fields are making it very difficult for them to ward off the attack.

Spraying both ways of the rows is strongly recommended, and growers using Bordeaux mixture 8-8-8 should now change the

Severe Electric Storms In Summerside Yesterday

Increased Assistance Given In Construction Of Bait Freezing Plants

New and more liberal regulations for providing assistance in the construction of bait freezing and storage facilities, have been announced by the Department of Fisheries, Mr. J. Watson MacNaught, M.P., parliamentary assistant to the Minister of Fisheries, informed The Guardian over the weekend. This announcement will be of great interest to those engaged in the fishing industry in this Province because the need for cold storage facilities to provide fresh bait for cod fishing has become a matter of extreme importance. This summer, for a time, there was a serious shortage of bait but this has now been overcome, to some extent, by the appearance of fall mackerel. But one person interested in the industry told The Guardian that fall mackerel are too nice a fish to be used for bait. Mackerel caught in the spring and kept in a frozen condition till the cod fishing season opens is the proper bait, he said.

Regulations have been in force since 1939 to give assistance in the construction of cold storage facilities but they were so restrictive that they were not taken advantage of and this has now been recognized by the Department in passing this new order in council, entitled, "Regulations for providing assistance in the construction of bait freezing and

Hurricane Moves Towards Coast Of Georgia-Florida

MIAMI, Fla., Aug. 29—(AP)—A vicious tropical hurricane with winds up to 120 miles an hour is now 390 miles from the mainland and moving about 10 miles an hour toward the Georgia-Florida coast line.

In an advisory issued at 11:45 p.m. EDT, the United States Storm Warning Service said the hurricane was continuing its west northwest movement and had been moving in that direction for the last 12 hours.

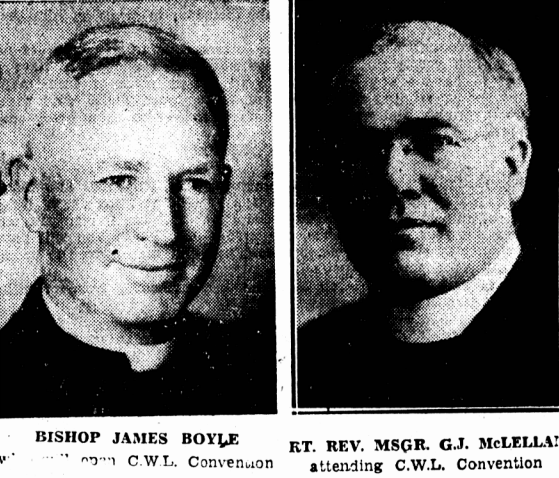

The advisory placed the storm about 390 miles east of Jacksonville, Fla.

An earlier advisory, issued at 6:30 p.m. EDT, said the storm had either stopped or was moving so slowly its direction could not be accurately determined, but the new advisory said this assumption was "probably incorrect" and the storm had not stopped its forward movement.

The hurricane, now spread over an area 140 miles in diameter, is expected to continue on its present course but little change in intensity is forecast.

Winds are expected to begin increasing along the Carolina and Georgia coasts Monday afternoon. All interests in those areas were placed on the alert and told to stand by for further advisories.

Annual C.W.L. Diocesan Convention Opens Tonight

BISHOP JAMES BOYLE attending C.W.L. Convention

RT. REV. MSGR. G.J. McELLA attending C.W.L. Convention

DR. J. A. MacMILLAN who will give an address.

but they would not be outside in generosity by one of their faith. St. without delay they set to work to hew and haul scantling and provide boards and shingles and other materials and before two years had elapsed they had built a pretty little church, dedicated to St. Malachy, which served the congregation for well-nigh fifty years, till replaced by the present stately edifice, whose spires rise in solemn grandeur above the heights of the parish of Kinkora.

To look today on the parish buildings, church, Parochial House, hall and convent, and the prosperous and well appointed farmsteads one marvels at the progress of the past one hundred years. The pioneers of this district must have been endowed with more than ordinary courage,

Some Damage Caused But No One Injured

Yesterday two unusually severe electric storms were experienced in Summerside and vicinity and although no serious damage was reported, several narrow escapes were recorded.

The first storm occurred at about 9:30 a.m. and the second about 6 p.m.

Several dwellings on Ottawa Street were struck during the first storm. At the home of Mr. Harold Chlow the lightning entered an upstairs window, causing considerable damage to one of the bedrooms and hall. At the home of Mr. Fred Bingham a short distance away, Mrs. Bingham suffered severe shock to her right arm and throat. Across the street from Mr. Bingham's, at the home of Mr. Reginald Gay, the occupants experienced severe shock but no serious injury.

Mr. George Morrison, manager of the electric light plant stated that several transformer fuses had blown out between Summerside and St. Eleanor's.

About six o'clock in the evening a recurrence of the storm took place with very severe lightning and accompanied by torrential rains. The lighthouse east of Summerside was struck near the top and fire broke out. Several firemen went out from town and put out the blaze with chemical extinguishers. Some damage was done to the structure but the light functioned as usual. Two telephone cables in Summerside went out through the evening and about 200 phones were out of commission. — S.

Plane May Have Been Struck By Lightning

WINONA, Minn., Aug. 29—(AP)—Thirty-six persons were killed today when a Northwest Airlines passenger plane crashed into a 500-foot Mississippi River bluff during a severe storm.

Walter Haussinger Winona police radio dispatcher, said the 33 passengers and three crew members were killed.

Capt. Jack Volkel, a N. W. A. pilot who lives in Winona and who was one of the first at the scene of the crash, said he thought lightning had struck the plane. He said it appeared the plane had broken up in the air.

The plane, a Martin 2-O-2, had left Chicago at 3:50 p.m. PMS and was due in Minneapolis at 5:30 p.m. PMS.

The crash occurred on Sutters Ridge, between Winona and Fountain City, Wis., on the Wisconsin side of the Mississippi River.

Parts of the wreckage were found in swamplands along the river. A few parts also landed in a ball park at Winona, seven miles south of the crash scene.

Haussinger, executive editor of the Winona Daily News, said that Gordon Clossway and reporter William White of the Winona Republican-Herald were among the

Heat Wave Abates In Central Canada

(By The Canadian Press)

The end of the week-long heat wave in Central Canada was in sight late Sunday.

Weather experts in Toronto and Montreal announced that the cooler air which lay stagnant over Northern Ontario for five days while southern regions of Ontario and Quebec sweltered in temperatures near the 100-degree mark had finally started moving south.

The mercury reached a sizzling 100 degrees in Toronto Saturday for the second time in a week. That was 11 degrees higher than the previous Aug. 28 record.

Death Early Today Of Mr. W. J. Brown

A prominent Charlottetown citizen in the person of Mr. W. J. Brown passed away early this morning. His death followed a long illness.

The late Mr. Brown was a man of varied interests in addition to his active business life. He was connected for years with the drug firm of Reddin Bros. Then he became Provincial representative for the pharmaceutical firm of Lyman's Ltd.

His other interests were concentrated principally in two loves, the choir of St. Dunstan's, St. Dunstan's, and the horse racing game. He was choir director at St. Dunstan's for more than 30 years, and was associated with the choir for some 50 years. His connection with the horse racing game was equally long, and he acted as clerk of the course at the Charlottetown Driving Park for a great many years. He continued to fill both positions with great ability until compelled to discontinue due to ill health.

His passing will be felt with deep regret by a wide circle of friends.

He is survived by his widow and one son, William, and by a sister, Mrs. Gilbert Gaudet, also of Charlottetown.

His daughter, Lillian, died eight years ago, and a brother, James predeceased him by two years.

Funeral arrangements were not completed early this morning.

Election Talk Heard In France As Schuman Attempts To Form Cabinet

PARIS, Aug. 30—(Monday)—(AP)—Fomer premier Robert Schuman, a member of the Mouvement Republicain Populaire, left early today to try to form a new French cabinet after Socialist Paul Ramadier had failed.

Schuman was Foreign Minister in the cabinet of Premier Andre Marie's coalition government which fell Saturday after a term of one month.

Schuman said he would begin consultations with party leaders later today.

Ramadier, as was expected, went through the motions of trying to form a cabinet. He spent nine hours talking to political leaders of the various parties.

Then he adopted the usual procedure of telling Agence France-Presse of his giving up, rather than making an official announcement to French and foreign newspaper men. The official announcement was not made until several minutes later.

Schuman's choice as the second leader to try his hand was expected. However, his failure also was anticipated unless some unforeseen new factor should enter the picture to heal the breach between the parties.

Many observers who are predicting a Schuman failure still feel the crisis would degenerate into an impasse which would result in a dissolution of the National Assembly.

Explaining his failure, Ramadier said he had succeeded in winning full support from his own Socialist Party and the M.R.P. faction. He said he got only partial conditional approval from the Radical Socialists.

President Vincent Auriol asked Ramadier to form a cabinet Sunday following the fall of the Marie government over the issue of wages and prices.

Many parliamentary experts

Prof. Blanchard Director Of New Teachers Group

OTTAWA, Aug. 29—(CP)—Greater co-operation between French-speaking and English-speaking Canadians was urged by Omer Cote, Quebec's Provincial Secretary, in an address Saturday before the three-day convention of the newly-formed Canadian Association of French Language Teachers.

Dr. Louis Charbonneau of Ottawa was elected president of the Association and Dr. Ernest C. Desormeaux was chosen honorary president.

Mr. Cote said part of the blame for the slow progress of French-speaking minorities in other parts of Canada should be borne by Quebec. "We cannot expect co-operation if we do not offer it," he stated.

Also elected to the executive were: First vice-president, Leb Guindon, Montreal; second vice-president, Rev. J.C. Laframbolse, Ottawa; third vice-president, Albany Robelaud, Bathurst, N.B.

Directors include Henri Blanchard, Charlottetown, and Brother Leopold Thallion, St. Joseph, N.B.

Procedural Agreement Expected At Moscow

MOSCOW, Aug. 29—Prospects are good for a procedural agreement this week at the four-power talks in the Kremlin. It was learned on excellent authority today.

Bare technicalities now are reported holding up such an agreement, and these may be dispensed with in the next 24 hours.

Such an agreement, of course, should not be taken to mean the four powers have settled all the questions they have discussed involving east-west differences. It would mean, however, that there was a good chance of agreement over the next phase of the talks.

The three Western diplomats negotiating with Russian leaders conferred at the United States Embassy for 45 minutes today after the arrival of an awaited message from one of the Western capitals—London, Washington or Paris. Just which one was not disclosed.

Cross-communication has been one of the difficulties in the talks. Frank Roberts, special British envoy, Walter Bedell Smith, United States ambassador, and French ambassador Yves Chateigneau have to refer various matters back to their capitals. Replies of the Western Governments then must be discussed and new reports filed. This time-consuming procedure explains why the three have met with Foreign Minister Molotov six times and Prime Minister Stalin twice since July 31.

The fall of the French Government of Radical-Socialist Andre Marie was reported authoritatively today neither to have brought the talks to a standstill nor to have blocked the possibility of an agreement and a communique covering it.

An authoritative source indicated Roberts, Smith, and Chateigneau might have another talk with Molotov tomorrow.

Acadia Appointments Make Progress In Income Tax Drive

WOLFVILLE, N.S., Aug. 29—(CP)—Appointments to Acadia University, one of Canada's two Baptist universities, were announced today. They include: John Margeson, Trull, B.G., graduate of the University of Toronto, as assistant professor of English.

Mrs. W. Genevieve Allan, University of Toronto graduate, as assistant professor of home economics and supervisor of the practice house.

Kenneth H. Hart, Edmonton, graduate of the University of Alberta and Robert Mills, Hamilton, Ont., University of Manitoba graduate, as lecturers in physics.

Twister Causes Severe Damage In Ontario Town

SMITHS FALLS, Ont., Aug. 29—(CP)—A wind twister, striking like a thunderbolt, roared through this Eastern Ontario town Saturday and in a few minutes caused damage expected to run into hundreds of thousands of dollars.

It felled more than 200 trees, chopped off electrical power and badly damaged several homes and more than 20 cars. No casualties were reported.

The twister struck about 5 p.m. A.D.T. It lasted possibly 15 minutes but in that time it stunned this railway town of 8,500 population, situated about 50 miles south of Ottawa.

The town was without lights through Saturday night and police stood guard all night to prevent any outbreak of looting. None was reported.

The twister sent great trees

Annual Convention Of Bar Association

MONTREAL, Aug. 29—(CP)—Canada's top legal minds will subject the countries' laws to a searching investigation at the annual convention of the Canadian Bar Association opening here Monday.

Some 1,200 delegates from Nova Scotia to British Columbia are expected to register before the 30th convention opens its five-day sessions.

An annual dinner of the Association will be held Thursday night with the Governor General, Prime Minister Mackenzie King and External Affairs Minister S. Laurent among the guests.

Five Killed When Two Small Planes Collide

PENTON, Mo., Aug. 29—(AP)—Four men and a woman were killed when two Piper Cub planes collided head-on 400 feet above the ground near here today. Penton is about 15 miles southwest of St. Louis.

The Missouri highway patrol identified the victims in one plane as Milton Carl Fick, 22, and Allen Burkhardt, 16. Those in the other plane were identified as Richard Arnold, 18, the pilot, his mother, Mrs. Loretta Lovrey Arnold, 36, and Frank G. Kubas, 32.

The planes were owned by two nearby flying services which rent the crafts to private flyers.

MINIMUM and maximum temperatures: Vancouver 55, 69; Edmonton 41, 81; Regina 50, 87; Winnipeg 42, 77; Toronto 72, 91; Ottawa 70, 82; Montreal 73, 92; Quebec 66, 77; Saint John—77; Moncton 61, 86; Halifax 60, 85; Charlottetown 60, 79; Sydney 47, 68; Yarmouth 59, 74.

HALIFAX, Aug. 29—Official inland forecast issued by the Dominion Public Weather Office at Halifax and valid until midnight Monday.

Synopsis: Temperatures soared to the 90's in parts of Western New Brunswick and Nova Scotia this afternoon, several record temperatures being set. Tomorrow will be much cooler, however, as cooler and drier air moves across the region. A low pressure area located near the eastern tip of Prince Edward Island is moving rapidly southeastward. It caused continuous rain in the Gaspe region and parts of the Maritime Provinces. This storm will pass out of the forecast regions tonight and will be followed by cooler air and clearing.

Regional forecasts:

Prince Edward Island: Overcast with occasional rain or drizzle tonight. Monday overcast, clearing in the afternoon. Much cooler. North winds 15 becoming light Monday evening. Low early Monday morning and high in the afternoon at Charlottetown 56 and 66.

High tide this morning at 5 and tonight at 7:40.

Sun sets this evening at 6:42 and rises tomorrow morning at 5:19.

New moon September 3rd, 8:21 A. M.

Summerside tide eighteen minutes later than Charlottetown.
