RIFLE SHOOTING

Home Guard No. 1 had its weekly shoot last evening, but its score was not up to the average. This was owing not to any lack of skill on the part of the shooters, but rather to lack of accuracy on the part of the machine in use. Even when no hostile forces are near sometimes guns will go out of action.

POPE TO EMPHASIZE VATICAN'S POSITION.

ROME, via Paris, April 19.—Arrangements are being made at the Vatican to hold a consistory in May. The consistory is to appoint a new chancellor of the Catholic Church, which post has been vacant since the death of Cardinal Agliardi on March 19.

The Pope wishes to take the opportunity it is said, again to address the world with a solemn allocution further to explain the attitude of neutrality of the Holy See in its efforts to re-establish peace without any preference for the faithful among the belligerents on one side or the other.

It is considered probable that no new cardinals will be created, owing to the difficulty even if they were chosen from the clergy of neutral European countries.

REVISED REGULATIONS FOR ENTERING THE PORT OF HALIFAX
OTTAWA, April 19.—New war regulations governing the entry into and exit of vessels from the port of Halifax have been framed by the naval service department. Ship owners and shipping agents are advised that, as a general rule, they should time the arrival of their vessels for daylight, the eastern passage is closed to traffic and masters of vessels who use it are liable to be fired on without warning. Provisions are made for the examination of all ships. The usual signals made by vessels arriving either with flags, guns, bombs, rockets, lights etc., are not to be made and the use of wireless telegraphy in the port is forbidden. Masters of vessels are specially warned that it may become necessary in the event of an attack on the port being imminent to remove buoys and extinguish lights without notice.
