

SPORTING COMMENT

(BY "TEC.")

Abegweit mettle, stamina and speed will be sorely tried tonight and tomorrow night when they cross sticks and juggle pucks with the fast Windsor outfit which arrive in the city this evening for their two days engagement at the Arena, with the P. E. Island champions as hostesses.

With reference to the visitors it may be mentioned here that they are at present runners-up for Valley League hockey title, being only one game behind Kentville. It is also a peculiar coincidence that they have played the same number of games to date as the Abegweits, and furthermore scored the same number of goals in the six games.

Rowdism at Montreal

Ottawa and Toronto, among Canadian cities, are immune from the rowdism which, according to reports, seems to mar every game of late in Montreal. There have been no outbursts at Ottawa to detract attention from hockey such as the so-called metropolis seems to revel in.

The St. Pats Sisters

The annual benefit dance given by the St. Pats Sisters basketball team will be held tomorrow night at the Casino. Last year this club held one of the most successful dances of the season, and this year an even greater success is anticipated.

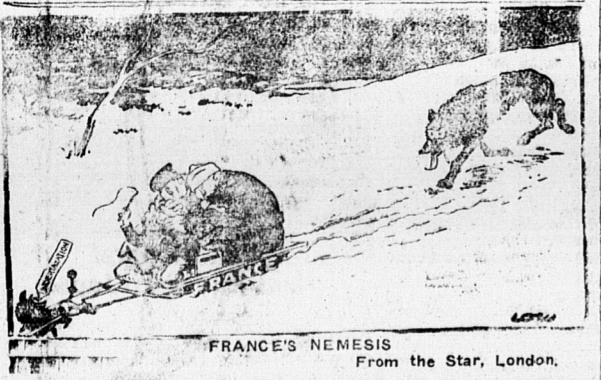

Too Much Is Enough

Leo Dolan writing in the Halifax Herald and extolling eloquently on the prowess of the Truro Bearcats in Boston, says in part by way of comparison, that not for 20 years has any team gained so much prestige as the Bearcats have this year, or words to that effect.

It would be the last thing in the world for the writer of this article to reflect in any way on the merits or ability of the Truro sextette. Truro has an excellent hockey team, and an aggregation hard to beat, but far the benefit of those who are not familiar with the B. A. A. and Boston College lineups this year, the following might be of interest:

Hockey fans here and elsewhere will regret to learn that Earle "Jollif" Prowse is at present confined to his home through sickness. The Guardian learned yesterday, that he is somewhat improved, but is still unable to leave his bed.

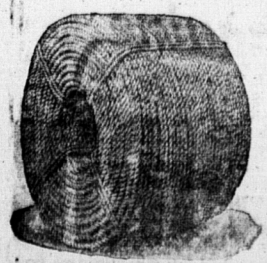

"We the Wiltshire Hockey team do hereby challenge the Cornwall." HOCKEY CHALLENGE team for a friendly game to be played in the rink this week. E. H. MCKINNON, Capt.

WINDSOR-ABBIE FIXTURE WILL BE BEST THIS SEASON

Invading Aggregation Have Excellent Record Behind Them and To-night's and To-morrow Night's Contests Will it is Expected be Witnessed by Bumper Houses.

A flutter of excitement has seized hockey fans, since the announcement of the coming of the Windsor hockey team was made. The history of the visiting team is well-known. Champions of Nova Scotia in 1923, their battle here with the Abegweits for the Maritime title was a classic of the icy arena. They were defeated in the last few minutes by 4-3. Since that date the Windsor sextette has been one of the four or five outstanding mainland teams, and their work thus far this year stamps them as runners-up for the Maritime championship. At present they lead the Valley League in which four teams are competing. Their scoring table shows 30 goals for and 15 against. They have twice met Truro, Maritime champions, in exhibition games, winning one by 2-1, and tying the other.

Woman Sent to Penitentiary

SYDNEY, N. S., Jan. 25.—Katherine Mackenzie, alias Macdonald, was sentenced to two years in Dorchester Penitentiary when convicted of perjury in the County Court here today. It was charged that the girl at her trial for vagrancy in the City Court swore in answer to questions that she had never previously been in jail, where the Police Court records proved the contrary.

Twenty Million Dollar Apple Crop

OTTAWA, Jan. 25.—Canada produced twenty million dollars worth of apples in 1925. Actual figures according to a preliminary estimate by the Bureau of Statistics were: 1925, 3,580,770 barrels, valued at \$20,057,417; 1924, 3,375,084, valued at \$19,747,772. Average value per barrel was lower than in 1924. In 1925, it was \$5.60. In 1924, \$5.85.

INSIDIOUS EYE STRAIN

We use this adjective advisedly. Sufferers from Eye Strain may have perfect vision and therefore do not suspect the presence of any eye defect. The motive power of the entire human organism is Nerve Energy. Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eye Strain is present, a much larger proportion is required. Hence defective eyes, through this consumption of an excessive amount of Nerve Energy, may seriously affect the functioning of other organs of the body, and produce ill health.
