Closer Coordination Held Need In Foreign Affairs

LONDON, April 19.—(CP Cable)— Rt. Hon. R. B. Bennett, addressing a Canada Club dinner in his honor, tonight declared that people claiming equality within the British Commonwealth of Nations could not possibly be at war and at peace at the same time. "You cannot maintain neutrality and owe allegiance to a common crown if one Dominion is at war and another is at peace," the former Canadian Prime Minister said. "That problem however, is with us and is one with which responsible statesmen of the Empire must grapple."

Mr. Bennett declared that however great difficulties were encountered or whatever sacrifices were involved, if the life of the Empire was threatened, there would arise such a feeling as would manifest itself by sweeping aside longings for peace. In that surge would also arise a demand that Canadians take their place in defending the life of the Empire along with the freedom and liberty its peoples had enjoyed. He was convinced that if the Empire is to survive it can only do so on the basis of consolidation of its economic life. "I believe we must find some scheme for closer co-ordination of effort in foreign affairs if we are to present a united front to the world," Mr. Bennett went on. He said he personally was convinced that ministers of every government of overseas dominions might as well be resident in London for closer consultation in times of crisis and to "present a common front to the world."

Dismissal Sought In Libel Suit

EDMONTON, April 19.—Statement of defence in the libel action brought by E. L. Gray, Alberta Liberal leader, against Premier Aberhart and Hon. E. C. Manning, provincial secretary, was filed at the court house here today by Neil D. Maclean, K. C., solicitor for Premier Aberhart and Mr. Manning. Dismissal of the action with costs is asked. The action was instituted by Mr. Gray March 29, seeking damages of \$15,000 as a result of a statement March 24 regarding the Eastern Irrigation District allegedly made by Premier Aberhart and comments allegedly made at a meeting March 26 in Edmonton by the Premier and Mr. Manning. Mr. Gray formerly was manager of the E. I. D.

W. C. T. U. NOTES

THE DAYSPRING

Through the tender mercy of our God, whereby the dayspring from on high hath visited us.—St. Luke 1:78.

Jesus Himself journeyed with them That Eve of the first Easter Day, And touching the thing that perplexed them, He talked with them, walking the way.

With them on the folk-crowded highway, With them through the dust and the heat, Till weary and footsore at even They enter the small village street.

And something they could not decipher, Made Him and the Master seem kin, So opening the door of their dwelling.

They begged Him to enter within, He came as a Guest and a Stranger, A wayfaring wanderer indeed, Yet He blessed the bread and He broke it.

And handed to each, for his need, And just as the pierced hands did so, God opened their wondering eyes, And they knew that the Guest they had had in Him.

Was Jesus Himself in disguise, Perhaps from the rest of Thy children We too may have wandered today, And questions that vexed and perplexed us, Vex more as we hold on our way— O come with Thy blessed communion, And make us like Thee, - Wholly wise, O come with the charm of Thy Presence, To scatter the dust from our eyes.

Not only today, Master, tarry With us at the breaking of bread, But afterwards, when the glory Of Easter has vanished and fled, When life with its path dipping downwards Through gloom or through shadow-land lies, And mist from the mountain are falling, And shutting out home from our eyes, That always come sunshine or shadow, Thy Presence still with us may be; Till Life's journey over, we enter An Easter Eternal with Thee. —Anon.

MY THOUGHTS AT EASTER

Some one has said: "April is the green door that loveliness comes through." As we see in the spring-time the promise of bud, blossom and fruition, the songs of birds returning, the reviving of Nature in our bleak Northern clime, so in the Easter festival we see God's promise of a new life beyond, where there shall be no night, neither sorrow nor crying, "for God shall wipe away all tears from their eyes." Easter is typical of this abundant life. Easter brings not only thoughts of the future reunion and bliss, but also lessons of new opportunities for service. Perhaps to more of our beloved friends, this winter has brought darkness—clouds of sorrow, bereavement, loss, but the Easter morning of joy, rest, peace, lies just ahead. The promise: "I go to prepare a place" "resting place—for you" is verified in the Easter joy. "Because I live, ye shall live also." The winter is over and gone; the time of the singing of birds has come. What a beautiful illustration of the day when the day shall break and the shadows shall flee away. "It is the day the Lord has made: let us rejoice and be glad in it." Let us bring gladness to those less favored, sad and downcast.

MEDICAL REASONS FOR ABSTINENCE

Dr. Haven Emerson, College Physicians and Surgeons, Columbia University "Medical Reasons for Temperance and Abstinence" were presented by Dr. Haven Emerson, of the College of Physicians and Surgeons, Columbia University, who said: "Until the latter quarter of the nineteenth century there was not an exact knowledge of the actions of alcohol on man which permitted the creation of a sound medical and public opinion as to its suitability for beverage use by human beings. "First, among the facts of this new era of science was that alcohol is a depressant, narcotic drug and not a stimulant in any rational sense of the word. "Next was the evidence that alcohol could not serve the purpose of the body-building or tissue repair foods, and that even as a fuel in the body its property of energy development was of limited value because it cannot be stored or held until needed in the tissues as can true fuel foods such as those derived from starches and sugars. "Again it was proved that even if alcohol taken with usual foods could develop that heat and energy in the body, there is always the toxic or poison effect which makes its use for food purposes strictly limited and decidedly undesirable. "Further precise tests on human performance of a wide variety of

occupations, sports, and physical tests made it clear that the healthy individual is benefited in no way in any of the functions or structures of his body by the use of alcohol.

FORTY NEW YORK SCHOOL BOYS TEST THE CIGARET

After reading the test of forty boys we wonder how many realize the danger they are facing. The handicap of cigarette-smoking boys are under is clearly shown by Prof. F. L. Lord in the School Journal (New York). Two groups of twenty boys each were chosen New York City, one group of cigarette smokers, and the other from those who did not smoke. They were taken from the same classes in the same schools, their ages ranging from 10 to 17 years, average age 14 years. The reports were made impartially by ten teachers, the boys being under observation for a number of months. The table below shows the status of the forty boys, pointing sharply to the deadly work of the cigarette which the Tobacco Trust would put in the mouth of every boy and girl in our country.

—From "The Cigarette" by Col. Sanctuary. It has been said by R. L. Alsaker, M.D.: "Wisdom is that quality of soul which leads the individual into the great universal harmony so that he is in tune with the laws of the universe. A man with extensive book learning may have wisdom, but it is not obtained from books. True wisdom is garnered in the process of living up to high ideals; in serving one's fellowmen; in working and thinking constructively and leading the life in which one ever seeks to obtain the truth in the spirit of love and faith, with confidence in the Ruling Power that is over all."

New Crusade Wanted

What was done in the eighties of the last century can be done again in the thirties of this one. It would be a fitting reply to the brewers' plot against youth if, instead of a negative defence of the rising generation, the Churches were to unite in a positive crusade, which would display the same sacrifice and flaming zeal as in the great Blue Ribbon Movement.
