## THE MYSTERIOUS VISITOR IS NOW INVADING MANY HOMES

It Strikes Young and Old Who are Physically Weak and Predisposed to Disease.

### Palne's Celery Compound

Fortifies the Body, Cleanses the Blood and Gives Strength to Resist All Attacks.

That mysterious visitor "Grip" is now invading many homes and striking down the young and old who are weak or predisposed to disease. It is now well known that the disease spreads rapidly to the various members of the households into which it has been introduced. It accords with the theory of infection, also, that the disease has usually attacked the persons liable to infection. Dr. Richard Sisely, in his book on "Epidemic Influenza," says the disease is almost entirely propagated by infection.

In past winter seasons it has been fully and happily demonstrated that Palne's Celery Compound is a tower of safety when Grip is prevalent. When this scientific and health-giving medicine is used, it strengthens the nervous centres of all the vital organs; it purifies the blood, regulates digestion, gives a healthy tone to the whole system, enabling young and old to feel secure from the ravages of disease. Weak, nervous, dyspeptic and ailing people will find in Palne's Celery Compound a true protector and shield from the dangers of Grip. A trial of one bottle will banish all existing doubts.
