

STOMACH ULCER AND GALL STONES

After Suffering 25 Years, Completely Relieved by "FRUIT-A-TIVES"

MR. EDWARDS
MABLEBURY FARM, HILLBURY, P.Q.
"I am in my 78th year. About 25 years ago, I began to have trouble with my stomach. One doctor said I had Cancer; another said, Ulcer of the Stomach; another, Gall Stones; others, Ulcers of the Liver and Inflammation of the Gall Bladder.

Three years ago, I consulted one of the best specialists in Montreal. He said I must go to the hospital, have an Galler cut out of my stomach and gall stones removed. It was then 71 years old. I said "NO."

Then, I began to take "Fruit-a-tives". I found they helped me a lot, and still take them occasionally, and I am so much better that my old friend often ask me what I have done to myself to look so well. I am gaining weight and enjoying life very much.

H. W. EDWARDS

Next Week's Big Special AT THE PRINCE EDWARD Wednesday and Thursday Feb. 1 & 2

Agnes Ayres and Rudolph Valentino in a Scene from the Paramount Picture, 'The Sheik', a George Melford Production.

COMMENT SIGNIFICANT

LONDON, Jan. 27.—Several leading London newspapers today comment very significantly concerning the position of Horatio Bottomley, M. P., after the collapse yesterday of the prosecution against Reginald Bigland for alleged libel in connection with the Victory Bond Club. Bigland characterized the Bond Club, originated by Bottomley for the purpose of encouraging subscriptions of £1 from people who could not afford to subscribe £5 to the Government loan as a swindle.

The following is a fair specimen of the ordinary run of the criticism: "In his airy way Bottomley now talks of submitting his conduct to some vague tribunal of independent members of Parliament. He is arraigned not before a private tribunal of his own choosing but at the bar of public opinion. He still rests under the stigma of Bigland's charges, which have not been withdrawn, and he must find some way of clearing himself or public opinion will return another verdict from which there will be no appeal."

When raw cold winds blow DRINK Baker's Cocoa

It imparts a cheering warmth, valuable nutrition and has a most delicious flavor. The very odor of a steaming cup is appetizing and attractive. It is absolutely pure and of high grade.

INSURRECTION IN CAIRO

LONDON, Jan. 27.—A cable despatch to the Evening Star from Rome today says, it is reported there that fresh disorders have broken out in Cairo, Egypt, resulting in 90 persons killed and more than one thousand others injured. British troops, the message adds, quelled the insurrection.

OPPOSES DRAFT IN BASEBALL

CHICAGO, Jan. 27.—The American Association today voted down the proposal of the baseball advisory council for restoration of the draft. The vote was unanimous. The club owners met in special meeting here to consider the proposal which carried with it a draft price of \$7,500 for each player selected. This was an increase of \$2,500 over the former draft price. The American Association is the second class A. A. league to oppose restoring of the draft.

The Pacific Coast League voted against it at its meeting recently. The International League, third class A. A. circuit in organized baseball, has not yet voted on the proposal.

The major league, if they desire to obtain star players from the American Association clubs, will have to purchase them outright at whatever price demanded.

The proposal to amend the agreement between the major and minor leagues relating to the draft came from Judge K. M. Landis, commissioner of baseball; President Heydler, president of the National League, and Ban Johnson of the American League, constituting the baseball advisory council. Judge Landis held that restoration of the draft was necessary so that baseball players could advance in their profession.

The American Association magnates, however, declined to accept the proposal, they being permitted either to reject or accept it. The club owners declared that they could obtain a better price for any stars developed by selling them rather than being forced to accept the \$7,500 draft price.

The Pacific Coast League voted

Extent Of German Resources Hidden

LONDON, Jan. 27.—The somewhat uncompromising attitude of France toward the proposals which were made at Cannes for the restoration of Europe is causing weakness in the exchange market, especially in francs and marks. In endeavoring to form an opinion as to Germany's ability to pay, people here are hampered by the lack of knowledge as to Germany's resources.

It is strongly contended that the Reparations Committee should throw light upon the question. This would assist in judging as to whether the attitude of France in this particular matter is really justified. Without this knowledge it is difficult to say whether the revised plan in regard to reparations payments is good or bad, or whether it is fair or unfair to the Allies. As the matter stands at present Germany is to pay every ten days a sum of 31,000,000 gold marks in currencies approved by the committee of guarantee.

The first instalment was paid this week. Before January 23 the German Government must submit proposals for the reform of its finances and complete plans as to how she intends to fulfill her obligations, in cash and kind, during 1922. It is understood that the guarantees asked for by the Reparations Commission for the reform of German finances include relinquishment of Government control of Reichsbank, an early stoppage of note issues, without cover and undertaking that exported German capital shall be brought back. If Germany again defaults, and the stage has not yet been reached when she can be trusted to make an honest attempt to meet her obligations, measures will have to be taken under which the Allies will assume direct control of German Government finances.

DECREASED SHIPBUILDING

LONDON, Jan. 27.—Although the United Kingdom, provided 35.5 per cent. of the world's output of merchant shipping in 1921, the shipbuilding industry has undergone a severe slump. Lloyd's Register's quarterly returns show that at the opening of last year 3,708,916 tons were under construction in the United Kingdom, and the March, 1921, returns show an increase of about 90,000 tons, the totals reaching 3,798,593. This is the highest figure ever recorded in the society's returns.

Since then a steady decrease has taken place, the figures for the end of December, 1921—2,646,319 tons—being the lowest since June, 1919, and showing a reduction of 1,152,274 tons during a period of only nine months.

"Very few new orders recently have been received by shipbuilders," says Lloyd's annual summary. "The December quarterly returns show that during the whole quarter only 55,000 tons of new vessels have been commenced."

Europe As Factor In Farming Slump

WASHINGTON, Jan. 27.—The National Agricultural Conference turned to Europe today for a study of factors causing the general farm depression in the United States and for possible means of relief.

G. F. Warren, of Ithaca, New York, just back from a trip of investigation in Europe told the delegates of the effect of the situation there on United States agriculture and emphasized the need of accurate information for United States farms as to European production and demand.

A proposal that the United States offer to take over the entire navies of the Allies at full cost "as payment toward the billions they owe the United States," accept on account the Allies' other war equipment as "junk prices," and said: "This grand armada to the Pacific there to be sunk ten miles deep with all flags flying," was made to the conference by Herbert Myrick, editor of Farm and Home of Springfield, Mass.

Representative Summers, of Texas, submitted suggestions for establishing the "business of agriculture" upon a basis of relatively permanent economic strength, and of "bringing about economy and uniformity in the sale and distribution of commodities. His suggestions included standardization of agricultural commodities with references to their use rather than for future board transactions," establishment of a warehouse system under which commodities could be graded, stored and guaranteed in assignable receipts, and sale through a marketing agency by graded classification, with delivery from warehouses of original or secondary storage.

Extension of credit facilities to foreign countries to enable them to purchase surplus corn and oats was recommended by Governor McCray of Indiana.

ENGLISH WOMEN FLY

Flying is said to be popular with English women travelling in Paris because it saves their complexion from the dust of train journeys.
