OTTAWA, May 16 — (CP) — Investment in new accommodation for summer visitors to Prince Edward Island is "as sound and probably sounder than a similar investment anywhere in Canada," D. Leo Dolan, director of the Canadian Travel Bureau told The Guardian this week-end.

Mr. Dolan who recently has spent some time in eastern Canada and the United States said he had not the slightest doubt but that all properly-built and managed new accommodation which might be built in Prince Edward Island would be fully occupied "season after season." Existing accommodation the felt sure would be filled to capacity this year.

"No one knows better than those who cater to the travelling public that the best customer is the one who comes back again year after year. I know scores of people who after their first vacation in Prince Edward Island said they didn't need to look for any other summer playground; it has a beauty and restful quality very hard to equal anywhere."

Not only does he expect that more Canadians than ever will try to arrange their 1948 summer holidays in Prince Edward Island but as many and perhaps more Americans as well.

Mr. Dolan admitted that a "difficult situation" had been created temporarily when operators of certain tourist resorts in the Eastern States attempted to persuade Americans to boycott Canadian summer resorts. They were resentful of the currency restrictions which preclude Canadians from visiting many resorts on the Atlantic which for two or more generations catered to large numbers from eastern Canada.

"I think that matter has been pretty well cleared up now," the Travel Bureau director said. "I went down there and found that resorts on the New England coast seemed to think the government had deliberately taken action to harm their business. I explained the situation as it is and the very real shortage of United States dollars with which Canada is faced. I found a very reasonable response to my explanations and since that time I've encountered no protests from our American friends."

EDMONTON, May 16 — (CP) — The wild Atlantic No. 3 oil well continued out of control tonight, but hopes were expressed the unchecked gushings through ground fissures can be stopped within a week.

"We hope to stop the cratering in a week if everything goes well," said I. N. McKinnon of Edmonton, chairman of the Alberta Petroleum Conservation Board, which Saturday took over the supervision of control measures.

Oil and natural gas still were bubbling out of the ground over a 40-acre area adjacent to the well, about 16 air miles southwest of Edmonton. However, dry weather enabled "good progress" since yesterday in control work, Mr. McKinnon reported.

It is estimated that malaria causes 3,000,000 deaths a year throughout the world.

SAINT JOHN, N. B., May 16 — (CP) — Firemen from across Canada were arriving in Saint John tonight for the joint convention of the Dominion Fire Prevention Association and the Association of Canadian Fire Marshals to open tomorrow.

The conference will end Wednesday.

LAKE SUCCESS, N. Y., May 16 — (CP) — Members of the United Nations Security Council tonight pondered what action to take following Egypt's admitted invasion of Palestine and Israel's demand for sanctions or actual U. N. military force to stop it.

The 11-member Council meets Monday to consider its next move. At an extraordinary session Saturday members hesitated to discuss the important issue pending instructions from their governments.

EVERY INCH
Making one of her rare public appearances, Queen Mary arrives at a state function at St. Paul's Cathedral, London. The Queen Mother, who will soon celebrate her 81st birthday, still looks every inch a queen.

A fire that caused an estimated four thousand dollars damage occurred in a chicken hatchery owned by Mr. S. R. Pendleton in Kensington about 5.30 Saturday evening. About \$250,000 worth of chickens were saved but eggs in incubators valued at \$1,400.00 were lost.

The origin of the fire is unknown and it occurred when the caretaker was home to supper. The Kensington Fire Department arrived on the scene and did good work in saving the building but not before considerable damage was done to the interior. The structure has tile walls with a wooden floor. There was a quantity of packing boxes in the building and the fire seemed to center in these.

Mr. Pendleton has been ill at his home for the past week. It is understood that the building is partly covered by insurance but there was no coverage on the equipment.—S.

TEL AVIV, May 16 — (AP) — Dr. Chaim Weizmann tonight was elected president of the council of the Israel Government, a post tantamount to provisional president of the new Jewish state.

NEW YORK, May 16 — (AP) — Dr. Chaim Weizmann, 73-year-old Jewish leader elected president today of Israel's council of government, is under the care of a physician in New York.

One of his secretaries said tonight he had retired and could not be disturbed to be told of his election to the post.

The secretary did not disclose the nature of his illness.

A twin-engine cargo plane crashed east of Port Columbus airport tonight after radioing that it had lost its rudder.

First reports said two bodies were found in the wreckage.

Airport officials said the plane owned by Slick Airways, Inc., of San Antonio, Tex., was en route to Chicago from Newark, N. J.

The plane radioed the control tower that it had lost its rudder and was coming in for a landing. It made two attempts to land and then fell in a field about two miles east of the field.

HALIFAX, May 16 — (CP) — The Imperial Oil tanker Imperial Welland was beached in the soft mud today at Inhabitant's Cove, near Canso, N.S., while divers and a salvage crew prepared to make hull repairs so the ship can be towed to Halifax.

The Imperial Welland ran aground about 3.30 A.M. Saturday on Welsh Island. Later the ship was able to work free and anchor.

Dance Bonshaw, Wed. May 19. Refreshments. Aid of rink. Mac-Nell's Orchestra.

Beginning week of May 17, this store will be open Tuesday and Thursday nights till 9 o'clock and closed Wednesday afternoons. J. F. Morris, Kinkora.

TEL AVIV, May 16 — (AP) — Enemy planes bombed Tel Aviv four times today and Hagana reported British troops had been machine-gunned by the Egyptian Royal Air Force in Southern Palestine.

Today's four raids made eight enemy air raids over this city since the new Jewish state of Israel was set up less than 48 hours previous.

(A Defence Ministry source in Cairo was quoted by Reuters as saying that the Egyptian air force planes had carried out attacks today "destroying" the port area of Tel Aviv.)

Hagana now the army of the New Jewish state, reported that two Arab planes were believed shot down this morning.

The Jews put up light and scattered anti-aircraft fire, but so far no aircraft defence has appeared.

Some casualties were reported in the city, and slight damage. Jews taking the raids calmly, watched from the rooftops and windows as the raiders came over at about 5,000 feet.

The first group of attackers was driven off by light anti-aircraft fire, and in the second raid one of two Spitfires dropped a stick of bombs.

Yesterday an Arab plane was reported to have made a forced landing after a hit by Jewish guns, and Hagana announced that the pilot was being held prisoner.

A communiqué from Hagana said at least 200 enemy soldiers (Continued on Page 5 Col. 1)

Three persons were rushed to the P. E. Island Hospital last night as a result of a head-on collision between two cars near the Marshfield schoolhouse six miles from Charlottetown. The collision occurred about 8 o'clock.

The injured are Mr. and Mrs. Heath Foster, Marshfield, and Harry Wakelin, Charlottetown. Mr. Foster is reported to have escaped serious hurt but his wife suffered severe cuts and lacerations about the face as well as other injuries. Wakelin has a fractured leg among other injuries.

Mr. and Mrs. Foster, nee Edith Ross, New Glasgow, were married two weeks ago in New Glasgow and had returned but a few days ago from spending their honeymoon in Ontario. They were coming from New Glasgow last night with their wedding presents in their Oldsmobile sedan when the collision with a Ford coupe, driven by Harry Wakelin, occurred.

Both cars were badly damaged. The Oldsmobile, reported to have been more badly damaged than the other, was taken to a Charlottetown garage. At a late hour last night the Ford coupe was still on the road where the collision occurred.

The R.C.M.P. were called to the scene last night and inquired into the circumstances.

MIAMI, Fla., May 16 — (AP) — An advance unit of 44 Canadian Mennonites will leave here Thursday by plane for Paraguay to found a new colony. They will be followed in June and July by some 1,700 others from the Canadian West. The 44 will make plans for the mass migration. They will stop at Port of Spain, Trinidad, Rio de Janeiro and reach Asuncion, Paraguay's Capital next Saturday.

HALIFAX, May 17 — Brig. W. L. Coke of Army Headquarters, Ottawa, Director General of Medical Services for the Canadian Army, will arrive in Charlottetown at 6 o'clock Tuesday (May 18), evening for a short visit to Reserve Force units.

Accompanied by Major M. E. Brackett of the U. S. Army Medical Corps, Brig. Coke is presently touring the Maritime Reserve Force units in the various centres. While in Charlottetown he will inspect Reserve Force medical units and address members of the Reserve Force.

He leaves Charlottetown Wednesday by automobile for Pictou and New Glasgow after a one-day visit to the Island capital.

TORONTO, May 16 — (CP) — Minimum and maximum temperatures: Vancouver 49-60; Edmonton 48-64; Regina 38-67; Winnipeg 42-63; Toronto 48-69; Ottawa 49-65; Montreal 51-57; Saint John 33-51; Moncton 30-54; Halifax 31-59; Charlottetown 33-46; Sydney 32-50; Yarmouth 34-56.

HALIFAX, May 16 — (CP) — Official inland forecasts issued tonight by the Dominion Public Weather Office at Halifax and valid until midnight Monday.

Synopsis: There was frost in most regions of the Maritimes Sunday morning. However on Monday morning only the eastern sections are likely to experience below freezing temperatures. Cloud has spread into the western section of the district in advance of a disturbance in Ontario. This cloud was thin during the afternoon and temperatures in the Annapolis Valley reached sixty degrees. Further east in Cape Breton the skies were clear but cold north winds off the Gulf kept the temperature below forty. Even in Prince Edward Island afternoon temperatures reached only the mid forties. On Monday it is likely to be cool in the western sections as thick cloud and rain covers the district. The eastern sections are likely to have enough sunshine to raise the temperatures somewhat.

Regional forecasts: Prince Edward Island: Clear during the night with frost in hollows. Overcast by morning and intermittent rain beginning Monday afternoon. Little change in temperature. Light winds increasing by afternoon to east fifteen. Low early Monday morning and high in the afternoon at Charlottetown 35 and 50.

High tide this morning at 5.55 and this afternoon at 5.25. Sun sets this evening at 7.27 and rises tomorrow morning at 4.29. Full moon May 22nd, 8.37 P. M. Sunrises tide eighteen minutes later than Charlottetown.
