tion with the Bracken Government on  
condition that two seats in the cabin-  
et be given to Liberals was proposed  
in a resolution submitted at the pro-  
vincial Liberal convention here to-

Alex. Dunlop, Neepawa, Manitoba,

(Special to The Guardian)  
TORONTO, Mar. 19.—A full and  
immediate settlement of all repa-  
ration claims, with interest to date  
will be demanded by the newly or-  
ganized Canadian Reparations Asso-

ing of the organization last night

while letters from many parts of  
Canada were read.

In view of the fact that the govern-  
ment has received \$15,000,000 for  
the express purpose of settling citi-  
zen's claims, it was declared, Parlia-  
ment should pay the awards already  
decided by the commissioners. It was  
pointed out that payments of this  
kind had been made some time ago  
by Great Britain and the United  
States.

## COMPENSATION

(Canadian Press)  
HULL, Que., March 19.—As com-  
pensation for the loss of freedom and

Empire Service League, is seeking a  
monetary grant from the Utah legisla-  
ture. The American Legion has also  
taken an interest in the case. Phillion  
was erroneously identified as a  
man guilty of murder in Price, Utah,  
and was kept in jail for six months.

## TO IMPOSE TAX

(Special to The Guardian)  
CONSTANTINOPLE, Mar. 19.—  
Turkey's swift transition from flour-  
ishing harms to bachelor apart-  
ments and the first generation of  
old maids have given rise to official  
alarm at the possibility of depopu-  
lation and to creation of a celibacy  
tax. This celibacy tax will be imposed  
on bachelors of from 25 to 45 years  
in age and spinsters of from 20 to  
35 and on childless widows and wid-  
owers. Twenty percent of the revenue  
of the celibacy tax will be distribu-  
ted to families with a minimum of  
five children.

## Bonfires of Foreign Cloth

(Special to The Guardian)  
BOMBAY, March 19.—The move-  
ment to boycott foreign cloth, where-  
to Gandhi gave fresh impetus in  
Calcutta, has resulted in many bon-  
fires. The demonstration here last  
night, according to a local national-  
ist newspaper, recalled memories of  
the "halcyon days of non-co-opera-  
tion." Bonfires of foreign cloth  
and meetings advocating a boycott  
have also occurred at Lucknow, Al-  
lahabad, Cawnpore and Nagpur.

## LAST MINUTE NEWS FLASHES

(Canadian Press)  
WASHINGTON, D. C. Mar. 19  
—The administration will con-  
tinue to permit rebels who may  
come over the border from Mexico  
to use the U. S. as a sanctuary.  
NEW YORK, March 19.—Capt.  
Einar-Paul Lundberg, Swedish avia-  
tor, who rescued General Umberto  
Nobile, of Italy, after the  
crash of the dirigible Italia in  
the Arctic last year, arrived on  
the liner Drottningholm today  
still strongly defending the Italia  
commander against all charges.  
WINNIPEG, Mar. 19.—A report  
that one farmer in the Delnord  
district has commenced seeding  
wheat, has been received by J.  
M. McKay, general agricultural  
agent of the Canadian Pacific  
western lines. Further reports  
state that discing operations are  
now under way south of Arrow  
Wood, Alberta.  
BOGNER, Eng., March 19.—The  
possibility of taking King George  
on short motor rides in the im-  
mediate future was under discus-  
sion by members of His Majesty's  
entourage at Craigwell house  
today. The King's rapid improve-  
ment recently was understood to  
be responsible for the plans to  
permit motor rides. The King  
passed a good night.

## MOND WINS BY ELECTION

(Canadian Press)  
LIVERPOOL, March 19.—Hon.  
Henry Mond today won the by-elec-  
tion in East Toxteth and retained the  
seat for the Conservatives. Mond re-  
ceived 6,992 votes, while J. J. Cleary,  
Labor, received 6,583 and A. O. Rob-  
erts, Liberal, 6205.

preceding years.

8. Negotiations have been carried  
on by my Government with the  
Dominion Government, to continue  
the grant for Technical Education,  
including and embracing therein  
certain branches of agricultural ac-  
tivities, and I am glad to inform you  
that the grant will be continued for  
a further period of at least five years.

9. It is gratifying to note that  
free instruction is now available for  
our fishermen—a short course now  
being held at Halifax, Nova Scotia,  
in the preparation of pickled and  
boneless fish and in the co-operative  
marketing of fish. Satisfactory pro-  
gress has been made during the past  
year in cleaning and improving the  
oyster beds in Richmond and Mal-  
peque Bays. I am pleased to report  
that the disease which affected and  
killed the oyster industry in these  
areas has been completely eradicated,  
and we have every reason to believe  
that within the next two years our  
oyster industry will be revived.

10. The standard of educational  
efficiency has not been lessened dur-  
ing the past year. My Government  
has increased the number of School  
Inspectors in the Province to nine,  
in the hope that by closer supervision  
the younger teachers may be materi-  
ally assisted.

11. We are now making progress  
in regard to Public Health matters.  
12. I greatly regret that owing to  
our limited revenue, my Government  
finds itself unable to give that finan-  
cial assistance to the prevention and  
cure of Tuberculosis which we should  
like to be able to devote to that pur-  
pose.

13. The results of the policy pur-  
sued by my Government last year in  
regard to road construction and road  
maintenance were most gratifying.  
The power road machines clearly  
demonstrated their worth. An exten-  
sive programme of road construction  
was made possible at a minimum  
cost, by the very efficient work of  
these machines, and thereby about  
1200 miles of clay highways, were  
materially improved. Thirty miles of  
roads in the wet and low-lying sec-  
tions were gravelled. All these roads  
were thus made even superior to the  
improved highways of former years,  
at a much lower cost per mile. My  
Government intends to increase these  
activities in road construction, as  
greatly as the revenue from related  
sources will permit.

14. I am happy to say that the  
Prohibition Act is now being vigor-  
ously enforced.  
15. Among the Acts which will be  
submitted for your consideration at  
this Session are:—An Act for the  
Prevention of Frauds in the Sale of  
Sediment: An Act to provide for a

## Brain is Clear While Body Is Dying

Paris, March 19.—Marshal Foch to-  
night was at another crisis in his  
long and apparently hopeless illness.  
His physicians, in leaving him for a  
while this evening, said that he had  
no actual new attack, but that it was  
a case merely of a gradual slow sink-  
ing and a weakening of his heart.  
One doctor said with intense sadness:  
"Poor, dear Marshal, it would not  
require much of an attack to put an  
end to his game battle now." The  
heart of the former generalissimo of  
the Allied armies has begun to give  
out under the coalition of diseases  
affecting his lungs, kidneys and blad-  
der. The brain which carried the Al-  
lies to victory remains clear while the  
body was dying. In a voice quite aud-  
ible the Marshal commanded: "I must  
see Weygand." General Weygand was  
his Chief of Staff during the Great  
War. He appeared at the home half  
an hour later.
