IN MEMORIAM

THE LATE DR. F. O. NORTON.
A telegram received by relatives yesterday brought the sad news of the death at Chester, Pa., of Dr. Frederick O. Norton, a native of Brudenell River, Prince Edward Island. Dr. Norton, who passed away in the very prime of manhood, received his early education in Prince Edward Island, graduating from the Prince of Wales College about thirty-seven years ago. He taught school on the island for a time, and later, went to the United States, where he took a University course in Lexington, Kentucky, and later was appointed Dean of the College of Liberal Arts of Drake University, Des Moines, Iowa, a position he held for fifteen years. During the war he was a member of the American Expeditionary Forces and Liaison Dean of the American soldiers in the University of Paris. At the time of his death he was head of the Department of New Testament Language and Literature, Crozier Theological Seminary, Chester, Pa. Dr. Norton has revisited his native Province on a number of occasions, preaching in the Church of Christ at Montague, where his eloquent and scholarly sermons made a deep impression upon the people. He was a preacher, an educationalist, a writer of outstanding ability, and a man of most charming personality. One of his latest books was "The Rise of Christianity" which gave a complete story of the origin and messages of Christianity and its development to the point when it became established as a world religion. The New Testament records were made especially plain, and Christianity's unique message was presented in terms of modern day life and thought. The death of Dr. Norton, when in the very zenith of his brilliant career, is very deplorable, and the deep sympathy of our people will go out to the bereaved relatives. He leaves to mourn besides a widow and two children, one sister, Lena, and one brother Edgerton S., at Brudenell River, also one brother, James in Winnipeg.

THE LATE CECIL HENRY McLEOD
The death occurred in St. Paul's Hospital, Saskatoon, Sask., on Feb. 28th, after an illness of eight weeks of Cecil Henry McLeod, aged thirty-four. Mr. McLeod, after an illness of eight weeks from quinsy, passed away despite all that medical skill could do. Mr. McLeod was a fine type of Western Canada's prosperous young men. He himself was a product of Western Canada, having been born at Souris, Manitoba. He was one of the pioneers in the famous grain belt of the Goose Lake country in North West Saskatchewan. He opened the first hardware store in Marenco, Sask., and was identified with the growth of that town until five years ago when he removed to Loverna, Sask., and opened up a large garage in company with his brother, William McLeod. Mr. McLeod was married to Miss Theo Hemphill, a daughter of the late Captain Dan Hemphill of Georgetown. She had removed with her mother, the late Mrs. Hemphill,

GUESTS AT RIDEAU HALL.—Among those invited to the state dinner given by their Excellencies Governor General and Lady Byng at Rideau Hall were Sir Joseph Pope Col. A. MacPhail, Col. D. A. MacKinnon, D. S. O.

POWNAL CIRCUIT.—The postponed Quarterly meeting will be held in the Mt. Herbert Church on Thursday, March 6th at 2 p.m. Worship on Sunday, March 10th, in Pownal at 11 a.m. and 7 p.m. in Millview at 2.30 p.m. Worship in Hartney Hall on Tuesday, Mar. 11th at 7 p.m. and in The Orphanage on Thursday, Mar. 13th at 7.30 p.m.

WANT EXEMPTION FROM TAX.—A petition to the Minister of Finance requesting exemption from income tax of life insurance premiums is being circulated throughout the Dominion. Life insurance premiums are already exempt in Great Britain. A person who pays for life insurance is really providing a fund for the support of his dependents in order that they will not become a public charge on his death. It certainly does seem reasonable that such payments should be exempt from taxation.

VISITING CALIFORNIA.—Mr. and Mrs. W. H. Hood of Calgary, Alberta, passed through Oakland this month on their way to Southern California. They made the long journey by automobile. Their stay in the South was shortened by the sudden illness of their son in Calgary, and they hurried home. Mr. Hood is a native of Tryon, P. E. I. He has been in business in Alberta's chief city for several years. Mrs. Hood is also a native of "The Island," a daughter of Jabez Lea of Victoria—Oakland Maple Leaf.

INSTITUTE MEETING.—The monthly meeting of the Cornwall York Institute was held Feb. 4th at the home of Mrs. Hector Murison, York Point. Ten members and four visitors were present. A quilt for the dispensary was kindly donated by Mrs. George McDonald. A committee was appointed to visit the sick. After the conclusion of the meeting, refreshments were served and a social hour enjoyed. The institute will meet at the home of Miss Kathleen McDonald Cornwall, March 3rd.

to Western Canada some years ago. She and four children are left to mourn the loss of a loving and devoted husband and father. The remains of the late Mr. McLeod were taken by train to Loverna, where interment took place in the cemetery there. The high register in which he was held as fellow townsman by people of the surrounding country was shown by the large attendance at his funeral. Cecil, as he was familiarly known to his business friends and energy and business ability, and his death at a comparatively early age was deeply deplored by a wide circle of friends.

Simple Way To Take Off Fat
There can be nothing simpler than taking a convenient little tablet four times each day until your weight is reduced to normal. That's all—just purchase a box of Mar-moia Prescription Tablets from your druggist for one dollar, the same price the world over. Follow directions—no starvation dieting or tire-some exercising. Eat substantial food—be as lazy as you like and keep on getting slimmer. And the best part of Mar-moia Prescription Tablets is they are harmless. That is your absolute safeguard. Purchase them from your druggist, or send direct to Mar-moia Co., 4612 Woodward Ave., Detroit, Mich.

ISLANDERS ON TRIP.—Among the visitors to San Francisco this month was Mrs. Ed. H. Manson of Summerside, P. E. I. (a daughter of Geo. V. Warren), who was on her way to Southern California to spend the winter months. Mr. Manson had also started on the trip West, but on reaching Boston found it necessary to return to the island. He will later join Mrs. Manson in Los Angeles—says the Oakland Maple Leaf.—Accompanied by Mrs. Lin-han of San Francisco (formerly Miss Marion Behaut, youngest daughter of the late Thomas Behaut of Summerside), Mrs. Manson crossed the Bay to get a glimpse of the cities of Oakland and Berkeley before continuing her journey to Los Angeles. They visited the grounds of the University of California, saw the immense new Stadium, the Greek Theatre, the Campanile, and the various educational buildings. Standing on the rising ground, carpeted with nature's green, with a background of tall eucalyptus trees, on that delightful February evening, those two Summerside girls watched the glorious sun sink below the horizon through the Golden Gate—while they pictured in their minds the snow banks back in their "old home town."

Whatever Your Skin Trouble
Zam-Buk
IS THE RIGHT THING TO USE

WHEN discovered 25 years ago, Zam-Buk revolutionized the treatment of skin ailments. Nothing since has approached it for real medicinal value. Zam-Buk is unequalled for the way it soothes pain, allays inflammation, draws poison out of a wound or sore, and overcomes eczema, salt-rheum, psoriasis, scalp trouble, blood-poison, etc. Zam-Buk's unique success is due to certain rare and costly herbs exclusively used in its manufacture. It is no fatty, pore-clogging ointment, but a pure, refined balm that soaks naturally into the tiny pores of the skin, and thereby attacks disease at its roots. Zam-Buk makes the whole skin healthy. A box of Zam-Buk should be kept handy on every homestead.

W. LASCELLES SCOTT, F.S.Sc. says:—"Zam-Buk's constituents are exclusively of herbal origin; it contains no irritating mineral drugs and animal fats. Moreover, its astringent and balsamic constituents render Zam-Buk an emollient of rare healing power. In my opinion, Zam-Buk is well adapted for treating superficial injuries and skin disorders."

Dr. PATTERSON SHIBLEY, of Wyoming Avenue, Washington, D.C., says:—"For years I have employed Zam-Buk in my practice, and I know of nothing to compare with it for skin troubles, from roughness and irritation to chronic disease. I would never hesitate to recommend this herbal Zam-Buk amongst my own patients."

Dr. ANDREW WILSON, Ph.D., M.B., the famous Medical Authority, says:—"Zam-Buk may be relied upon as an ever-ready antiseptic dressing which has the additional advantage of unique soothing and healing properties. Zam-Buk exercises a special action on torn and severed tissues, keeping them clean and helping them knit together again."

THE GREAT SKIN-HEALER
ARCHBISHOP WORRELL'S
LENTEN TO CLERGY
Lenten Pastoral Letter of Archbishop Worrell to the Clergy Of His Diocese.

WEDNESDAY next—March 5—is Ash Wednesday, the first day of Lent. His Grace Archbishop Worrell, now in Bermuda, has issued the following Pastoral to his clergy:

To the Members of the Church of England in the Diocese of Nova Scotia.

My Dear Brethren:—
ONCE more the call of Lent is heard. Once more the opportunity is given for deepening the religious life. Once more the Church holds out her hand to help her people, and lead them to a closer walk with God.

It is for the Church people to ask themselves what they will do in answer to the call.

The fact of Lent continuing for forty days suggests a thorough testing of ideals, and the formation of habits which may affect for good the whole subsequent life. Such habits include both temporal and spiritual matters, and in both of these mistakes may be made, unless the true idea of Lent be carried out. In one, there is the fatal tendency to put all religious effort into the first few days or the last week of Lent, and to let the rest of the year go. In the other there is the no less fatal tendency to leave any serious consideration of the business of the church to the last few days of the year. A little thought will convince that, if any satisfactory results are to follow, both of these demand continuous effort extending over the whole year.

NO religious life can be complete unless it is developed along the lines of prayer and service, unless worship and work have their due proportion. These are not for special cases and unusual circumstances alone. They are the proper and mainstay of daily life, ever ready throughout the routine of the common round, and ever ready for the most unexpected emergency. A well spent Lent will help to make them such. But it must be really well spent. It will not do to make it a fitful period of emotion, in which to live a household sort of religious life, inevitably checked and killed by the cold atmosphere of the experiences afterwards. It should be rather a nursery in which the young plant may grow strong and healthy, and able to develop into a sturdy and fruitful tree. It should bring out all that is best and noblest, to the exclusion of the mean and narrow, by fostering an earnest, manly life, strengthened by prayer and fasting, and sacrament and consecrated to the service of Jesus Christ.

IN this busy world, where the majority of people have their minds killed with the material problems of life, both great and small, it is not easy for everyone to find time for all the work of the Church. But because all cannot be done is no reason why some should not be undertaken. There is plenty of work to go round all hands, and there are plenty of hands to keep everything going.

There is no room today for a Church with content superficial religion. If it is only an incident of time for all the work of the Church, but because all cannot be done is no reason why some should not be undertaken. There is plenty of work to go round all hands, and there are plenty of hands to keep everything going.

THIS year a series of Parochial Missions is being planned to be held in every Deanery from the first week in October to the last in November. Make Lent a time for actively beginning preparations for this period of spiritual revival, and if that preparation is carried on up to the time of the Mission, the best possible results may be hoped for. Use one or both of the prayers appended to this in the church, and at home.

There is much in the work of the Church in this Diocese which

should appeal to the liberal mind. The Cathedral is an appealing motive to those who have been blessed with world's goods. Our Church University and Theological College, which ought to supply a sufficient number of clergy to fill every parish and missions cries out to us. In her Mission Board, the Diocese has something peculiarly her own, and I believe the loyalty of her people may be trusted to support the work it has undertaken. Then, there are the individual needs of each parish, for which its members are especially responsible, and which demand the active co-operation of every soul of whatever age or circumstances. Let everyone, rich or poor, set aside a part of his income for Church purposes, not fitfully in answer to some moving appeal, but all through the year, and there will be no hardship felt and no worthy cause left to languish.

THIS was St. Paul's direction: "Upon the first day of the week let every one of you lay by him in store as God hath prospered him." No one can lay by a right motive, and not at the same time be led to consider, and perhaps to carry out all else that the religious life demands. On the other hand mere is nothing which so lowers the spiritual tone as an attempt to

(Continued on Page 5)

Try Magnesia For Stomach Trouble
It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour Gassy Stomach and Acid Indigestion

Doubtless if you are a sufferer from indigestion, you have already tried pepsin, chargin, enzymes, and various digestive aids, and you know these things will not cure your trouble—in some cases do but even give relief. But before giving up hope and deciding you are a chronic dyspeptic, just try the effect of a little Bismuth Magnesia—not the ordinary commercial carbonate, citrate, or milk, but the pure Bismuth Magnesia—which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder of water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulency, heartburn and the bloated or heavy,ummy feeling that seems to follow almost every meal.

You will find that provided you take a little Bismuth Magnesia immediately after meals, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the Bismuth Magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

Fiery, Itchy Skin Quickly Soothed With Sulphur
Menthio-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or discomfort. Mentio-Sulphur always heals eczema right up.

A small jar of Rowles Mentio-Sulphur may be had at any good drug store.
