Stock Market Prices Continue To Strengthen

NEW YORK, Oct. 4—(AP)—A modest rise in the stock market today extended the current recovery move through the third session.

Gains—with some outstanding exceptions—were fractions to a little more than a point.

Trading was very quiet with the volume only 610,000 shares, compared with 670,000 Friday, the lowest in more than a week.

Oils and rails were the leaders, and steels also came in for a share of favorable attention.

Utilities were narrowly mixed but the plus signs had an edge over the minus signs on average.

The Associated Press average of 60 stocks advanced 4 of a point to 68.2, the highest level since Sept. 8.

The industrial and railroad sections of the average advanced 5 of a point, but the utilities were up 2 of a point.

At Montreal
 MONTREAL, Oct. 4—(CP)—The majority of selected industrials displayed firmness within a narrow range on the Montreal Stock Exchange and Curb Market today.

Most gains were fractional, but a number of issues rose a point or more. Mines moved into higher ground in a quiet list.

Industrial sales slipped from fairly active to moderate at closing time, while mines remained dull throughout the day.

Industrial turnover stood at approximately 34,900 shares, or 200 shares fewer than Friday's total. Mines totalled 114,100 shares, compared with 245,400 shares in Friday's session.

Closing averages indicated banks up .01 at 26.48; utilities up .3 at 72.2; industrials up .5 at 127.2; papers up 3.99 at 347.13 and golds up .59 at 59.74.

At Toronto
 TORONTO, Oct. 4—(CP)—Prices strengthened and the list broadened in the afternoon session of the Toronto Stock Exchange today, and only western oils finished down.

Base metals started out well, lost ground, but picked up again. Smelters advanced a point, Nickel 3-4, and Quenont 1-4. Noranda was off 1-4 and Labrador 20 cents.

Western oils also got away to a fair start but retreated later.

At London
 LONDON, Oct. 4—(Reuters)—Quiet trading in the London Stock Exchange produced firm markets today.

Demand in the industrial section was concentrated in the better class issues most of which recorded gains of a few pence.

Of the groups, tobaccos, textiles and irons and steels were particularly favored.

Winnipeg Grain

WINNIPEG, Oct. 4—(CP)—A fairly good demand in oats was noted on the Winnipeg Grain Exchange today. It was attributed to American houses and shipping interests.

Offerings in oats were on the light side although hedging prices increased near the end of the session.

Shipping interests were on the buying side of barley, with some demand noted from southern firms. Offerings increased near the close of the exchange.

Rye was being bought by commission houses, with occasional demand showing from export interests. Offerings were light.

Seaboard accounts were buying flax but trade in this grain was light.

Range on oats was 1-8 to 3-4 cent lower; on barley 1-09 to 1-2 cent lower; on rye 3-8 cents to 2-1-2 cents higher; and on flax 1-8 cent lower to 1-2 cent higher.

Prices of class two wheat—for export to countries other than the United Kingdom—remained unchanged. There was no export business in Canadian wheat.

Cash prices:
 Oats: No 2 CW 75 1-4; ex 3 CW 73 3-4; 3 CW 73 1-4; ex 1 feed 72 3-4; 1 feed 71 3-4; 2 feed 70 1-2; 3 feed 68 1-2; track 75 1-4.
 Barley: 1 CW 6-row 1.20 1-2; 2 CW 6-row 1.20 1-2; 1 CW 2-row 1.09 1-2; 2 CW 2-row 1.09 1-2; 3 CW 6-row 1.13 1-2; 1 feed 1.09 1-2; 2 feed 1.06; 3 feed 1.03; track 1.05 1-2; 2 CW yellow 1.09 1-2; 3 CW yellow 1.09 1-2.

TOBACCO SCARCE IN U.K.
 Shortage of tobacco in the United Kingdom has reached an all-time peak with retailers limiting sales to ten cigarettes a customer. This is a consequence of the severe drop in British tobacco imports during the past three years, a measure to conserve dollar exchange. In spite of sharp excise-tax and price increases, tobacco consumption has declined only moderately from a monthly average of 20.86 million pounds in 1946 to 18.75 million in 1947 and 18 million in the first half of 1948. The relatively small decline in consumption. In view of the severe reduction of imports, was accomplished by drawing on stocks on hand. Stocks in May, 1948 were 1946 to 18.75 million in 1947 and they were 392 million, and by May, 1947, they were further reduced to 331 million pounds.
