RESTORATION OF GOLD STAND-ARD WILL READJUST UNI-QUE MONETARY SITU-ATION.

The United States and South American and Oriental nations, which as a consequence of the war have an abnormal proportion of the world's stock of gold, may reasonably expect a persistent drain on their holdings of the metal until an approximate world equilibrium has again been restored, the National Bank of Commerce in New York says in the May number of its magazine, Commerce Monthly. This will compel the nations situated to readjust their credit structures within themselves. At present, the bank declares, the world monetary situation is unique as a result of the war which overturned the currency systems of Europe. A return to the gold standard throughout the commercial world seems to be the most practicable solution of the current monetary problems, according to the bank. To bring about this return, it says, the prevention of additional inflation, the more or less gradual reduction of the volume of outstanding currency and credit and the increase of production are necessary. A prediction that gold will be employed for money uses more effectively in the future than it has been in the past also is made.

It is shown in the article that between 1913 and 1918 the money stocks of gold in France decreased from \$1,200,000,000 to \$664,000,000; in Great Britain from \$830,000,000 to \$596,000,000; in Russia, from \$1,012,000,000 to \$412,000,000 and in Germany, from \$915,000,000 to \$720,000,000. Meanwhile, in the United States the gold money stock had increased from \$1,905,000,000 to \$3,165,000,000. Using the year 1913 as a 100 per cent basis, currency in the larger countries had by 1919 increased as follows: United Kingdom, 244 per cent; France, 375 per cent; Italy, 435 per cent; and Germany, 875 per cent. During the same period the currency expansion in the United States, reached only 171 per cent.

In countries which have developed the use of credit to a high degree, the war occasioned a similar expansion in the volume of credit, it is pointed out. In England, according to a recent estimate, the volume of bank deposits, exclusive of those in the Bank of England, approximated 1,070,000,000 at the war and at the end of 1919 totaled 2,300,000,000, an increase of 115 per cent. In the United States deposits subject to check increased from \$8,520,000,000 in June 1913 to \$21,064,000,000 in June 1919 an advance of 147 per cent.

ARTIFICIAL GERMAN RUBBER

West German newspapers report that the production of artificial rubber on a commercial basis is about to be begun by the Elberfeld Dye Company, which during the war had down large plant for this purpose.

Germany, shortly before the armistice, was equipped to produce 300,000 pounds of synthetic rubber per month. This was in no way inferior to the natural product, except in greater difficulty in vulcanizing. The present German output capacity of synthetic rubber is stated to be 420,000 lbs. per month.

A 10-Day Tube of Pepsodent

They Have Found the Way to Beautiful Teeth

All Statements Approved by High Dental Authorities

Dental science has found a way to combat film on teeth. It has been tested for years by able authorities in clinical and laboratory tests. Now leading dentists everywhere advise its daily use.

The method is embodied in a dentifrice called Pepsodent. This week we offer a 10-Day Tube to every home in this city, and we urge every home to get it. Let it prove itself.

Film is What Discolors

You can feel on your teeth a slimy film. It is ever-present, ever-forming. It clings to teeth, enters crevices and stays. The tooth brush doesn't end it. The ordinary dentifrice cannot dissolve it. So it accumulates and may do a ceaseless damage.

Most tooth troubles are now traced to that film. And now it is known why brushed teeth still discolor and decay. The reason lies in that clinging film which the old cleaning methods omit.

Cause of Decay

That film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus the film is the teeth's chief enemy.

It Can Be Ended

Dental science has for years sought a

way to end that film, and the way has now been found.

Pepsodent is based on pepsin, the digester of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

The way seems simple, but it is not. Pepsin must be activated. The usual method is an acid harmful to the teeth, so pepsin long seemed impossible.

What has been found is a harmless activating method. Now pepsin can be applied twice daily and left between the teeth. And millions of teeth are now being cleaned as they never were before.

Watch the Effects

We ask you to watch the effects. Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

Compare this method with the old. Read the facts about it. Then decide for yourself what is best.

Tartar and Stain

are based on film. This 10-Day Tube will show you that they are avoidable. And so is tooth decay.

Look in Ten Days

See how white the teeth are—how they glisten. You can see that the film is gone. You will know that teeth can be kept forever whiter and cleaner and safer.

Pepsodent CANADA
REG. INS.

The New-Day Dentifrice

An efficient film combatant, based on pepsin, now endorsed for constant home use by leading dentists everywhere.

The Store Named Below Will Supply the Free Tube on This Coupon

E. A. FOSTER,

HUGHES DRUG CO LTD,

10-DAY TUBE FREE

Present this coupon, with your name and address filled in, to store named. It is good for a 10-Day Tube of Pepsodent.

Your Name.....

Address

Out-of-town residents should mail this coupon to The Pepsodent Company, 1104 So. Wabash Avenue, Chicago, and the tube will be sent by mail. Guardian, P.E.I.

MOTHER'S PLACE

You lead a worthy, womanly life. It will be a home life—free from great excitements. The current of your thoughts will naturally flow in retired channels. You hear, outside, the sound of whistles, and the roll of drums, the din of wheels, and the rush of the world's great business. Oftentimes, when you are with your modest affairs, and through the wearying routine of your life, you will be temping at the quietness and peace.

her labors. But the world has never seen that quiet woman laboring for her children, making their clothes, providing their food, teaching them their prayers, and making their homes comfortable and happy.

Work is a Pleasure When Health is Good

With lots of rich, red blood coursing through the arteries and veins to keep up nervous vigor and muscular strength, there is a joy in living and work becomes an actual pleasure.

If tired at times, healthful natural sleep soon restores the wasted energy and you are happy in being able to accomplish things—to do your work thoroughly and well.

It is only when the blood is thin, the system run down and the nerves starved and exhausted that work becomes irksome and you get down-hearted and discouraged. In this condition you do not rest and sleep well, get up tired in the mornings and dread the day's work ahead of you.

It is under these circumstances that Dr. Chase's Nerve Food can be of inestimable value to you.

By feeding to the blood the elements from which new blood is formed, Dr. Chase's Nerve Food builds up the run-down system in the most natural and rational way imaginable.

Through the blood stream new vigor and energy is instilled in the nervous system and the benefit is felt throughout the whole body.

The functions of the vital organs are resumed, digestion is improved, you sleep and rest naturally and regain gradually and certainly the vigor and energy of health.

By using Dr. Chase's Nerve Food you can to a large extent be master of your health. 50 cts. a box, all dealers, or Edman-son, Bates & Co., Ltd. Toronto. On every box of the genuine you will find the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

ORCHESTER PENITENTIARY REPORTED FILLING UP

Moncton Transcript—A wave of crime apparently is sweeping over the province of New Brunswick. It is pointed out that some 32 Dorchester Penitentiary sentences are to be served, all having entered in April. To date it is said that 28 have been taken to Dorchester, while four additional are to be sent in the near future. If this report is correct it would appear that on an average of every day in the month of April one accused has been sentenced.

ADD A LITTLE LEMON JUICE

To nice baked with apples that have little flavor of their own. Use this method also in making apple sauce with tasteless apples.
