COLLECTOR WELL ORDERED GOODS PASSED

Trunks and Other Articles Passed Without Examination on Instruction of Customs Collector at Montreal.

(Canadian Press) OTTAWA, Ont., May 18.—Customs Officer B. Balthasar, of Montreal, told the Parliamentary Committee investigating the administration of the Customs Department, that he passed trunks and various articles without examination on order from W. S. Weldon, Collector of Customs at Montreal.

Nearly the whole morning was occupied by the reading of orders from the Montreal collector to his Customs examiner to release goods for certain special reasons. R. L. Calder, K. C., committee counsel, read the orders to the witness and Officer Balthasar then commented on them.

Asked if he had anything to say in his attitude was that an instructor authorizing the clearance of goods which were new and dutiable. Because he thought some of the transactions were not bona fide, he had retained the memo authorizing the clearance of goods. The order covered a wide range of articles. A bull dog was one of them. Officer Balthasar made no comment on this release by saying that there was no difference about examining the dog trunks.

No Salary Increases For Civic Employees

(Special to The Guardian) OTTAWA, May 18.—Just fifteen minutes before midnight the City Council took a vote which decisively eliminates the prospect of some 170 civic employees getting salary increases.

Left Young Baby In St. John Hotel

(Canadian Press) SAINT JOHN, N.S., May 18.—A young woman giving her name as Leigan, claiming to come from Prince Edward Island and carrying a five-week-old baby girl procured a room in a local lodging house on Sunday. This afternoon the woman went to the baby on the bed and went out, as she said, to do some shopping. She did not return. The police were notified and are now searching for the woman.

LAST NIGHT'S EVANGELISTIC SERVICES

At the Central Christian Church—Able Address by Mr. Hamilton.

"That Old Rugged Cross" was sung by Mr. Woodruff, and it was one of the best efforts of Mr. Woodruff and greatly appreciated by everyone present.

The Evangelist took as his text Romans 8: 1 "There is now therefore no condemnation to them who are in Christ Jesus who walk not after the flesh but after the Spirit."

The Evangelist handed certain truths without gloves. The soldier does not save himself by his own blood. There were certain preachers who taught that kind of stuff to the American soldiers but he preached a lie. Jesus caught the eye. Jesus appealed to the eye. He are you inside or outside? You can be a good citizen of the United States or the Dominion of Canada or any other country but you may at the same time, be out of Jesus' Kingdom. Conviction is what we need. Repentance by conviction. They count. If you have no conviction you are a jelly fish.

Are you a member of any lodge tonight? In some sense the lodge is good thing. Take a black board and mark down all the blessings you have received or expect to receive by belonging to your lodge.

Mark down every blessing you received or expect to receive by being a Canadian citizen.

It is a good thing to be a Mason but not a vital thing. A good thing to be an American citizen but it is not a vital thing to be an American citizen.

But this Bible is a vital thing. Our text is vital—don't forget that it is vital for you to know if you are in Christ Jesus. Denominationalism is not vital. You know that if you study deeply the present status of denominationalism, but getting back to the fountain head of the Free Church of Jesus Christ—that is vital.

Are you in Christ? That is vital, and around that vital truth I would bring all the possible changes that such a truth involves.

What are the blessings flowing out of being in Christ Jesus? First of all, there is no condemnation. Masonry doesn't promise you "no condemnation." No lodge promises this mighty gift. But get in Christ Jesus and you are free from all condemnation. If you are out of Christ you are under condemnation here and now.

The depths of religion to some people is simply to join some church. You can belong to a church and be lost. Don't forget that it is not Church; it is being in Christ. Are you in Christ? "Am I in Christ? Then I am free. Free from what? Free from the law of sin and death. How free? By the law of life in Christ Jesus. I am free from the law of death by the law of life. Jesus and Paul are perfectly agreed. The moment an American citizen becomes a naturalized citizen of the Dominion of Canada that moment that man is free from the laws of the United States of America. The law of my arm makes that book free from the law of gravitation.

"Our civilization is half pagan"—so says one of the greatest scholars of our day. If that is true, it is true because of our customs—social, religious and economic. You can't get away from that fact. On the day of Pentecost three thousand men and women were converted. This crowd were convicted. This multitude repented. This great convulsion of people obeyed. Their baptism attested their obedience. There is your order: there is your law. The law of faith and obedience—obey that law and you are saved and safe. Accept Christ and you won't be questioned: "Do I have to be baptized? Stop hair-splitting, stop quibbling, stop asking irrelevant questions. Believe and obey—there's your law. Give way as mist before the rising sun.

After this message, which was one of the best that the Evangelist has so far delivered—a message of peculiar power and sweetness—one young girl decided for the wonderful Christ that the Evangelist so faithfully uplifted.

Tonight the Evangelist will speak on the Baptism of the Holy Spirit.

First quarter moon Thursday, May 27th 7.25 p. m.

Another General Strike Unlikely Says Cramp

(Special to The Guardian) LONDON, May 18.—Speaking at Plymouth C. T. Cramp, president of the Railwaymen, declared that the union lost £1,000,000 as a result of the strike and that the railway companies' loss would reach £5,500,000.

He added there never would be another general strike like the one just ended. "I don't believe," said Cramp, "that a general industrial strike can ever be carried out effectively because if the workers carried it to its logical conclusion they would starve and paralyze themselves as well as everybody else."

Denies Purchase Of Anticosti Island

(Canadian Press) MONTREAL, May 18.—"There is absolutely nothing in the statement from the British Press that the Wayagamack Company has purchased Anticosti Island. We have a permit but have been unable to do so on account of the lateness of the season for it is still winter with three or four feet of snow down there," said O. R. Whitehead, president of the company, when questioned today in regard to a despatch from London to the effect that the deal had been concluded with Senator Claxton Menier of France for the sum of 180,000,000 francs.

British Golfers Win From U. S. Stars

(Canadian Press) WORKING, Eng., May 18.—The United States Walker cup stars lost all five of the four-somes played here this morning against a team of ten British golfers known as "the moles."

P. E. Island Butter Wins Honours in World Competition

In the list of Canadian Butter awards at the London (England) Dairy show recently held, Canada carried off the premier awards for their product in the O'Leary Dairy and Cold Storage Company's Prince Edward Island. The Guardian takes pleasure in congratulating this enterprising island company under the management of Mr. E. J. Hallett, on its excellent showing in a competition with products from all over the world. Successes of this kind do very much to keep Prince Edward Island to the fore and to enhance the value of its products in the world markets.

Spirit. A subject that scores of christian men and women are deeply interested in, and those who are interested are most cordially invited to attend this meeting.

A LOT MORE MEN WOULD PLAY GOLF IF IT COULD BE DONE SITTING DOWN

TORONTO, May 18.—Martime moderate north-westerly winds, fair with stationary or a little higher temperature. Maximum and minimum temperatures: Toronto, clear 72-52; Montreal, clear 76-58; Quebec, rain 76-58; Charlottetown, rain 56-38; Halifax, cloudy 54-40; St. John, fair 57-40; Boston, clear 60-52; New York, clear 78-62; High tide this afternoon at 3.15 and rises tomorrow morning at 5.22. Sun sets this evening at 7.30 and rises tomorrow morning at 4.22. First quarter moon Thursday, May 27th 7.25 p. m.

ANNUAL MEETING LAST NIGHT OF THE P. E. I. HOSPITAL

Excellent Reports of Year's Work Are Read and Adopted. Lengthy and Interesting Discussion of the Future of the Hospital.

The forty-third annual meeting of the contributors to the Prince Edward Island Hospital was held last evening in St. Paul's Parish Hall, with the chairman of the Trustee Board, Mr. W. K. Rogers, in the chair, and a good number of subscribers present.

The meeting was opened with prayer by Rev. H. D. Raymond, after which the minutes of the last annual meeting were read and adopted. The report of the treasurer of the Ladies' Aid, Mrs. Roland Melkie, and of the Secretary of the same auxiliary, Miss Catherine Macleod, followed. These reports were published in the connection with the report of the Aid annual meeting, held last Thursday, and gave an account of the work of the organization which has done for the Hospital in the past year.

His Honor, Lieutenant Governor Heartz, then read the following annual report of the Campaign Committee:

CAMPAIGN REPORT Following the procedure of last year I will make two sections of this financial statement, the first being the account of the activities of the fund since the last report, which was made up to April 30th, 1925, and the second will be a complete statement of the whole situation from the opening day of the Campaign in December, 1923, to the present time.

According to figures submitted at the annual meeting of the Hospital in 1925, the total amount of the Campaign Fund Committee's credit in the Canadian Bank of Commerce on April 30th, 1925, the sum of \$10,681.39, and Bonds to the amount of \$5,092.60, in all \$15,773.99. During the past twelve months we have collected the sum of \$10,430.79, and interest on Bonds \$375.40.

Charlottetown and Foreign Subscribers, April 30, '25. Yet due. \$86,037.75 \$42,966.17 \$23,041.58 \$2,587.00 1,550.82 1,036.18 632.10 1,595.50 902.00 1,133.00 498.45 634.55 5,805.60 4,450.58 1,355.02

You will note by the foregoing of the books the subscribers that about two-thirds of the amounters who have paid nothing and the amount of the unpaid amounts are as follows: Charlottetown 263 \$4710.50 Scoria 123 1230.00 Montague 25 187.00 Georgetown 21 255.00 Country at large 82 432.50 399 \$5,708.00

Last year at this time this account showed 433 delinquents for an amount of \$6,836.00. This indicates an improvement of \$1,128.00. It will be seen by the foregoing that we have on hand \$26,476.11, and that there is yet to be paid in \$26,759.43. This will probably be subject to a reduction owing to the deaths of several subscribers and departure of others to different countries, but I feel confident that there will be collected at least \$20,000.00, which would make a total of over \$46,000.00.

According to the original intention when the Campaign was inaugurated, there is yet to be included in the main building, including new roof and brass plumbing, all of which improvements were specified to cost about \$50,000.00.

The collection of this Fund presents some very peculiar difficulties. Quite a number of subscribers say they will not pay any more until the work for which this money was intended has begun. The Trustees have used this money to heat the Hospital on the other hand, say that they cannot start work until they are assured that the money subscribed for this particular work is paid in—the result assumes the complexion of a deadlock.

The question naturally arises, is it advisable to spend all this money, even if it was paid in, on a building which was never adequate for the purpose of a plant and the locality totally unfitted in every way for the requirements of a hospital, or would it be more advantageous to dispose, if possible, of this property and use the proceeds, the Campaign Fund balance and other assets, in the erection of a new and more up-to-date institution, situated in a more central and consequently a more desirable locality? This is a matter that might very well be discussed here this evening.

EXPLORERS EX-GIGANTIC UNDERTAKING NEARING COMPLETION

Leaders of Arctic Expedition Content to Rest Until Next Boat Leaves Nome, Which Will be June 15th.

(Canadian Press) NOME, May 18.—Four Arctic explorers settled down today to routine life in a cabin here and continued to exchange reminiscences of their flight over the top of the world.

Awaiting the arrival of a steamer the party headed by Roald Amundsen, discoverer of the South Pole and the third man to reach the North Pole, are content to rest. There were indications of a long stay as the next boat out of Nome will be on June 15.

The dirigible Norge the huge bag in which the explorers made their way through clouds, fog banks and arctic atmosphere from Spitzbergen to Teller, 75 miles from here, is being carefully packed for shipment out of Alaska by steamer when the ice locked harbor thaws.

Captain Amundsen, Lincoln Ellsworth of New York, Captain Oscar Wiisting, and Lieutenant Oscar Omdahl, all members of the expedition party, are occupying a cabin which they have christened the "explorers' club." Here they plan to hold forth.

An undersized fox terrier dog, "Flanck," pet of Colonel Dorn, Nobil, inventor and constructor of the Norge, was one passenger apparently happy to be on earth once after its trip over the uncharted area of the polar regions.

appeal to the public for funds during the period of the Campaign. I presume a considerable deficit would result as the Hospital usually received about \$4,000.00 annually from this source.

According to the arrangement made with the public at the time of the opening of the Campaign, no appeal was to have been made until after July 15th, 1926, and even if the balance of the Campaign Fund due July 15th, 1926, is not completely paid I feel that the incoming Board of Trustees will be justified in beginning the usual annual appeal this Fall, which appeals have been deferred for the past three years.

The Campaign money is kept separate and apart from the Hospital finances, and cannot be expended only under the direction of the Campaign Committee.

FRANK R. HEARTZ, Chairman Campaign Committee. General Endowment Fund

EXPLORERS EX-GIGANTIC UNDERTAKING NEARING COMPLETION

10,500 Tons Fertilizer Imported and Now Being Distributed Throughout The Province Involving an Outlay of Around \$350,000 and With a Saving of Over \$40,000 to the Province Besides Giving Work to Hundreds of Men. All Through the Farmers Own Co-operative Organization.

An undertaking which in size is perhaps greater than any ever before attempted in this Province is now being successfully conducted by the P. E. I. Potato Growers' Association in the distribution of over ten thousand five hundred tons of fertilizer chemicals to the farmers of this island, an outlay of three hundred and twenty thousand dollars. This is a work of tremendous magnitude and could only be handled through well conducted co-operative organization.

The Association should be commended for having the re-shipment of all this material done at our Island ports rather than at ports in other provinces, thus patronizing not only Canadian but home industry. Thousands of dollars for labor is thereby kept at home. The discharging and re-shipment would approximate the work of one hundred and twenty working days equal to steady employment for six men for one year. We are further informed that in addition to the above the saving in the first cost of the chemicals means at least forty thousand dollars more money left in the province.

We understand that already one-half of the fertilizer has been loaded into cars or otherwise disposed of. The condition of the cargoes is excellent. The acid phosphate and Nitrate of Soda were both remitted before shipment and never arrived in better mechanical condition.

The Ammonia and potash are in the original bags as in former years. The potash is all the German potash and is in sealed sacks analysis guaranteed at least fifty per cent. From analyses received the chemicals are all slightly in excess of the guarantee.

The steamer Sokdald is expected to complete discharging her cargo at Charlottetown on Thursday at the Fredensborg at Summerside will require several days before she finishes her cargo. There are two other smaller cargoes expected daily.

The fertilizer is distributed to thousands of farmers who are not members of the Association. The price is the same to every one. The handling charge made by the Association is used to defray expenses and any balance is used for operating the business or is rebated to the members.

So smoothly does the organization work that little is known outside of those immediately concerned of the colossal business done. The office is so busy that talk and will rarely give a reporter an interview.
