Great British Strike Came To An End Yesterday

SECOND PLANE TO FLY OVER THE POLE

Airship Norge Duplicated
Within Three
Days the Feat of
Lieut.-Com. Richard
Byrd.

(Canadian Press)

NEW YORK, May 12.—The air-
ship Norge, second aircraft in his-
tory to fly over the North Pole,
on its way to a landing field at
Nome, Alaska, today, the 45th
birthday of Lincoln Ellsworth, New
York, one of the expedition's lead-
ers.

The great balloon duplicated
within three days the feat of the
three engines aeroplane Miss Jo-
sephine Ford piloted, by 5 a. m.
Comm. Richard Byrd, with the dif-
ference that Com. Byrd returned
to King's Bay, Spitzbergen in a 1-
600 mile nonstop flight, while the
Norge continued a 2,750 miles
journey toward Nome.

Road Amundsen, commander of
the third expedition to reach the
North Pole and the first human
being to reach the South Pole,
wireless yesterday to Ralph Lo-
men, Norwegian Consul at Nome,
to have 100 men ready to lower
the dirigible. He said he would
keep Mr. Lomen advised of progress
by radio and the Consul had
four anchors, known as "dead
men" placed in readiness to hold
the ship down.

The Norge left Spitzbergen at
10 a. m. Norwegian time, or 5 a. m.
Eastern daylight saving time yes-
terday and sailed over the Pole
with the 17 members of its crew at
1 a. m. today Norwegian time, 7
o'clock last night Eastern Stand-
ard time.

The news reached the New York
Times at St. Louis Globe-Demo-
crat, the first message ever receiv-
ed direct from the Pole, at 3:05 a.
m. Eastern Standard time.

Commander Byrd saw the Norge
off but remained at King's Bay to
prepare, in the words of Lieut. A.
N. Parker, of his party, to "investi-
gate every foot of real estate near
the Pole for Uncle Sam."

The 250 men have now seen
the North Pole, six in the Peary
expedition, Commander Byrd and
mechanic and 17 on the Norge.

The Norge reached the Pole in
15 hours from King's Bay, Com-
mander Byrd required 15 hours
and 30 minutes to go to the Pole
and back to King's Bay in his air-
plane, and Peary using dog sleds,
took eight months for the trip to
the pole and back to civilization.

The Norge travelled at approxi-
mately fifty miles an hour and it
was estimated that if she kept
this pace, she would reach Point
Barrow, enroute to Nome, at 10 p.
m. tonight, Eastern Standard time.

The ship lost 11 hours by the
mere act of passing over the pole,
that is, on approaching the pole it
was 1 a. m. today Norwegian time
aboard ship, and a moment later
it was 2 p. m. yesterday.

The whole 2,750 miles route was
in the land of the midnight sun,
making it a daylight trip through-
out.

After passing the pole the Norge
which started with enough fuel for
3,000 miles, headed for an unex-
plored area estimated at 1,000,000
square miles. Explorers of the past
believe they have found evidences
of land in this area.

This last geographical mystery
of the globe stretches from the
north of Alaska to the Pole. It is
practically the last lure left to ex-
plorers, to determine whether
there is in it anything, but ice,
charred rock and barren waste
such as fringe the Polar Sea in
which it lies.

Bill to Amend the Criminal Code Receives 2nd Reading

(Canadian Press)

OTTAWA, Ont., May 12.—Sen-
ator Belcourt introduced a bill in
the Senate yesterday to amend the
Criminal Code respecting the pos-
session of weapons.

It is pointed out that the crime
was due in a great measure to
the freedom with which revolvers
could be obtained. There was
an almost universal demand for
restrictive measures dealing with
the possession of firearms. He pro-
posed to amend the Criminal Code
to prohibit the importation, manu-
facture and sale of revolvers and
similar weapons except under au-
thorization and supervision.

The bill received its second read-
ing and was referred to committee.

Radio Orchestra Played "God Save the
King"—The Miners Strike Continues
Pending the Decision of a National
Conference Called for Friday Next in
Kingsway Hall, London.

(Canadian Press)

LONDON, May 12.—The British general
strike was called off today.

Announcement of the settlement was
made from Downing Street where the
General Council of the Trades Union
Congress met Premier Baldwin and his Cabinet.

The Cabinet Ministers were told of Lab-
or's decision to end the conflict by Arthur
Pugh, Chairman of the Trades Union Coun-
cil.

The General Council of the Trades Un-
ion Congress called off the strike in order to
resume negotiations.

Telegraphic instructions to this effect
were being sent to the unions throughout
the country this afternoon.

Announcement Made From 10 Downing Street

LONDON, May 12.—The Great British general strike was called off today.

The Trades Union Congress which initiated the movement in sympathy with the striking miners, visited Premier Baldwin and his Cabinet Ministers at No. 10 Downing Street at noon and announced that the strike was over.

This action was taken, Chairman Arthur Pugh said, in order to enable resumption of the negotiations for settlement of the miners' grievances, which negotiations the Government had declared could not be resumed while the general strike lasted.

The Trades Union Congress forthwith dispatched telegrams to this effect to the affiliated unions throughout the country.

The individual unions, before acting, must await definite instructions from their own executive councils. However, it is expected the Trades Union Congress instructions will have quick effect and that the wheels of industry stilled since last Monday midnight will begin to turn again almost immediately.

Official Statement of Settlement

The official statement of the settlement issued from the Premier's residence in Downing Street reads:

"The Prime Minister, who was accompanied by the Minister of Labor, the Secretary for India the Secretary for War, the First Lord of the Admiralty the Minister of Health and the Secretary for Mines, received the members of the General Council of the Trades Union Congress at 12.20 o'clock this afternoon at No. 10 Downing Street."

"Mr. Pugh announced on behalf of the General Council of the Trades Union Congress that the general strike is being terminated to-
morrow, the following statement: In order to resume negotiations, the General Council of the Trades Union Congress has decided to terminate the general strike today, and telegrams of instructions are being sent to the secretaries of all the affiliated unions. The members before acting must await definite instructions from their own executive councils. (Signed) Arthur Pugh, John Bromley, W. Citrine."

News Flash to an Anxious Public Conditions on Which Strike Was Called Off

Almost as soon as the decision was made known to the Cabinet it was flashed throughout the country by radio to the anxious public, who had been informed earlier that strong peace rumors were in the air.

In the London hotels and restaurants, announcement of the great news was received with almost hysterical cheers and handclapping, and a moment later when an orchestra on the radio struck up "God Save the King," thousands sprang to their feet and stood at attention.

There are many candidates for the Caliphate. King Fuad of Egypt is one, and Aga Khan, direct descendant of the Prophet Mohamed and spiritual head of the 70,000,000 Indian, Central Asian and East African Moslems—and also a snappy dressed owner of pure-blooded race horses in England and France—is another.

Abdul Medjid, whom the Turks deposed, the Sultan, and half a dozen minor dignitaries in the Far East and the Malay Archipelago of islands off the tip of Sumatra, are also in the field.

OTTAWA, May 12.—Presbyterians in the Ottawa Presbytery have undertaken to raise \$75,000 which is Ottawa's quota towards the capital fund of \$750,000 to constitute a new building fund for the Presbyterian Church in Canada. This was decided at a meeting of Presbyterian laymen held here this afternoon.

RUM SCHOONER PLOT TO RE- BROUGHT INTO STORE GERMAN N. Y. HARBOR EMPIRE

With Liquor on Board
Valued at \$1,420,000
—Crew were "Roar-
ing Drunk" and
Very Obstreperous.

(Canadian Press)

NEW YORK, N. Y., May 12.—With a large cargo of whiskey, champagne and alcohol valued at \$1,420,000, the freighter Donetta, was brought into the harbor last night by the coastguard cutter Seneca.

The freighter, seized last night sixty miles south east of Atlantic City, flying the United States flag but without ship's papers, and with no one aboard with officers' credentials, was said by coastguard officials to come technically under the classification of piracy.

Coastguard officials believed the Donetta to be connected with the Ring of Port Chester, N. Y.

Enslaved Wormser and five other men were indicted yesterday in connection with the ring which is estimated to have had assets of ten million dollars.

The Donetta's cargo had shifted and the vessel had a 35 degree list to starboard as she came up the bay. The crew were reported by coast guardmen to be "roaring drunk and very obstreperous."

Discovered by Berlin
Police—Plans Call-
ed for Forcible Res-
ignation of Pres.
Hindenburg.

(Canadian Press)

BERLIN, May 12.—Discovery of detailed plans for the establish-
ment of a German Fascist dicta-
torship whose object was the "restor-
ation of the Hohenzollern Empire
in renewed splendor" was an-
nounced by police today.

In continuing police raids on the homes of alleged German Fascist leaders, the police reported that they had unearthed a mass of documents which included a detailed plan for a concentrated attack on Berlin.

While the police were question-
ing numerous political leaders of
the alleged plot in an effort to get
to the bottom of it, they said that
they regarded it as merely a dream
worked out on paper.

Revolutionary Plans.

BERLIN, May 12.—Among the documents taken by police were plans calling for the forcible res-
ignation of President Von Hin-
denburg, the overthrow of state
constitutions by armed forces, the
dissolution of all parliaments, the
execution without trial of strikers
as well as other opponents, the ex-
pulsion of Jews from Germany and
the confiscation of their property.

The seized documents, police
said, revealed that the ring leaders
of the conspiracy maintained a
steady correspondence with the
former Kaiser and with Bavarian
reactionaries like Hitler.

One of the seized letters address-
ed to the former Kaiser read: Your
faithful followers are unwavering
in their determination to re-erect
in renewed splendor the Hohen-
zollern Empire in a regenerated
and liberated Germany."

The Kaiser rewarded the writer
of the letter with an autographed
photograph containing glowing
praise of the plan.

LAST NIGHT'S EVANGELISTIC SERVICES

At the Central Chris-
tian Church—In-
spiring Address by
Mr. Hamilton.

(Canadian Press)

"Hallelujah Thine the Glory,"—
an old revival hymn, of the Moody
and Sankey type, was sung, and
quite a few others of a similar
kind opened the fourth meeting of
this week. Weather conditions had
no effect upon this happy gather-
ing of young, and those older, who
came together in one united effort
to win and to be won to the high-
est and best life in this world and
the world to come.

Rev. Nell Herman led in prayer.
Mr. Woodruff sang. In his usual
pleasing style, "I am sure that He
loves even me."

Hobbes, chapter nine was read
by the Evangelist, who took as his
subject—"The Blood of Christ."

We have a lot of worship, but lit-
tle service. Why did Christ die?
What is the significance of the
cross of Christ.

There are three theories of the
atonement of Christ. First, The
criminal conception, which means
that man has committed a crime
against his own soul, against so-
ciety and against God, and punish-
ment must fit man's crime. The
greater the crime, the greater the
punishment. God said: "The soul
that sinneth it shall die." And
Christ, on the cross, meets the pun-
ishment that falls on the sinner.

Second, The Governmental idea,
which is this—the very nature and
authority of God is at stake, and
the justice of God must be met.
The cross meets the justice of
God and the nature of God. The
Cross meets the very majesty of
the law. The Cross meets not only
the sinner's guilt, but the demands
of God's authority and government.

Third, The commercial view of
the death of Christ. We have been
bought with a great price. We have
been purchased. The debt has been
paid. This commercial idea runs
through all the history of Israel.
The Jewish government was a
theocracy, and theocracy involves
obligation. Notice how this runs
through the law of the Sabbath,
the law of labor, both for man and
beast. The very law of the land af-
fects this whole situation of com-
mercial values and obligations.

What about the year of Jubilee?
That fiftieth year affected indus-
try; affected commerce. The entire
Sabbath law, relative to the very
soil, illustrates this very law of
commerce and finance. The Jewish
law demanded that debt must be
paid, and during the forty-nine
years, a whole multitude of debtors
