the world's markets are still inactive.

However, countries like Belgium, Holland, Sweden and Denmark from the European side are already passing valuable orders and it is hoped that in the not distant future arrangements will be made by the French Government whereby that country, too, will absorb, as previously, a percentage of the goods available.

It was a story of stealing cars within a few feet of the Police Station; of driving them about the city and into the hands of the time and of hiding them at night. Never it appeared, were they stopped by police officers though at times as many as four, the oldest 11 years, were in one car.

One lad, an aggressive little chap with distorted ideas, told the story of his "gang", "Yes, sir," he admitted, "we did give one boy a beating. He had been a member of our gang and had left it and was coming back to the gang and he said he did not think he was, that he wanted to play football; so I told him the gang did not want 'no' for an answer, and I 'smacked' him and we gave him a beating and told our chief and he had done the proper thing."

Finally they came to grief. Driving along a road one day watching the scenery, instead of the road, the youthful driver ditched that particular car. They just had time to decide they would send out a call to the "gang" and pull the car on the highway when they saw the police car coming and they had to run.

It may be some of the lads will have to do some explaining to their school teachers also, for one of them told of how he would write a note to another boy's teacher, signing the name of the boy's mother to the note, asking out of school, they would all meet at their rendezvous, then out to the country in the car.

It was a great life while it lasted.

Russians Pleased At Prospect Of Moscow Parley

MOSCOW, Dec. 13 (A.P.)—The people of the Soviet Union seem "sincerely pleased" with the forthcoming conference, the London fur export group of which Mr. E. W. Chadwick is chairman have worked untiringly to persuade Mr. Byrnes that an early resumption of trade in furred skins was highly desirable so that London might endeavor to regain as speedily as possible her pre-war status as the entrepot of the international fur market.

The advantages to be gained by prompt action were recognized by the Government with the result that on September 8 the embargo placed on importation of furred skins was removed and the London trade in consequence has been given a wonderful opportunity to get right into its stride and activities, though of course many of

KISS YOUR TIRED FEELING GOODBYE!

Peoples Many Suffer Low Blood Count—And Don't Know It.

The bad thing about low blood count is that you can't see it as such as you can't see a headache or a cold, you can't see it as you can't see it in your eyes, nose, throat and mouth.

Low blood count means you haven't got enough red corpuscles. It's their job to carry life-giving oxygen from your lungs throughout your body. And just as you must have plenty of oxygen to explode the energy in your body and give you going power.

Get Dr. Williams' Pink Pills today. They are world-famous for the help they give in increasing the number and strength of red corpuscles. Then with your blood count up, you feel like a new man. The pills are in your store or you can get them from Dr. Williams' Pink Pills today.
