Back Home After European Tour

Edmonton Superiors Cleaned Up In The "Old World", Winning 37 Games Out Of 38

(Canadian Press) HALIFAX, Feb. 3.—With thoughts of the Allan Cup tournament uppermost in their minds, Edmonton Superiors returned here today in the Canadian Pacific liner Montrose, leaving behind them an old world more conscious than ever of the prowess of Canadian ice hockey.

One Defeat in 37 Games

Their impressive European record of 37 games with only one defeat during their two months' tour sounds something like a picnic, but both Cliff Galmé, President of the club, and Ira Stuart, Manager, reported that several European teams were able to put up stiff opposition to the seasoned Canadian hockeyists.

Spectators Riot "A riot featured this game, when a section of the 17,000 crowd mixed it up among themselves," Mr. Stuart said, commenting on this game. "The French crowds get very ex-

cited, though they do not understand much about the game, and I suppose they found the heavy scoring against their team rather a shock after the previous game. The players were not involved in the scrap, but plenty of bottles, chairs and bricks were thrown at us, and the patrol wagons took a good many spectators from the arena. That was the most exciting game of the tour.

"Many of the European hockey teams show excellent form," he continued. "The all-England team put up a good resistance. The best European team we met was a Swiss team at Zurich, but the Germans and Italians also play good hockey.

Agreeably Surprised

We were all surprised to see the huge arenas on the continent. There were sold-out houses at Paris, Prague, Zurich and Berlin. The Paris rink holds 17,000, and the other three 10,000 each. In England and Scotland the rinks are not so large, holding only three or four thousand at London, Liverpool, Birmingham and Glasgow.

The Superiors have brought back with them the St. Moritz hockey trophy, which they won by defeating England and Czechoslovakia to win the annual championship held at that resort. Each player has also brought home a cup emblematic of the team's victory in the International Tournament held in Paris, in which they defeated the Boston Olympics, also touring Europe, France and all-Europe team.

CANZONERI WINS BY K.O.

(Canadian Press) MADISON SQUARE GARDEN, New York, Feb. 3.—The murderous mitts of Tony Canzoneri of New York, belted Billy Townsend of Vancouver into a one-round knock-out here tonight.

The veteran Italian lightweight champion of the world, unleashed a right-hand volley to the head to put the blonde Canadian "trial-horse" down and out in one minute and five seconds.

As the referee tolled "ten" and the end of the fight that was scheduled for 10 rounds, a crowd of 12,000 boomed lustily, chagrined at the quick end of their entertainment.

Tony didn't even muss his shiny black hair as he left-jabbed the hitherto rugged Townsend across the ring, then snuffed him out with the lightning right hand volley. A smash high to the temple, was the last punch that landed on the Vancouver 23-year-old before he crumpled to the canvas.

LOCAL HI-Y'S VICTORIOUS

The Charlottetown Hi-Y basketball team defeated Moncton Hi-Y's at Moncton last night by a score of 23 to 22.

Pensions Probe Very Inorough, Says Gen. Ross

(C.P.) YORKTON, Sask., Feb. 3.—"On the whole I think it will be found that the investigation was possibly the most extensive and scientific ever held concerning pension affairs," Brigadier General Alex. Ross said in a statement issued to the Canadian Press concerning the joint committee investigating the administration of the Pension Act in connection with alleged pension frauds.

The general has just returned from Ottawa, where he sat as a member of the committee. "The evidence indicates the situation is not as bad as it was supposed to be. Yet it is serious enough to warrant action and the evidence before the committee coupled with the reports submitted should make it possible to correct the existing defects without much trouble."

Teacher: "What is meant by Hobson's Choice?" Bright Pupil: "Mrs. Hobson, sir."

Curling Today

East and West, will get under way today at 2 o'clock. Everybody is asked to be at the rink as this is the beginning of a series of games.

MIN. OF TRADE

(Continued from Page 1)

control, he said, and for the past five years their foreign trade had been conducted on long term agreements. The question of extending such credits to Russia was a matter of grave importance. Up to the present the government had not considered it advisable to place Canada's resources behind goods shipped to Russia.

"The proposition is open for discussion," said Mr. Stevens, "but I doubt if much can be said for it." The fact that the Russian Government controlled all foreign trade should be an advantage, Dr. Donnelly counted, making it more simple for Canadian trade envoys to negotiate.

"They are willing to barter," Dr. Donnelly stated. "Is the Canadian Government willing to barter to guarantee, in the case of oil for instance, that when the shipment is on the ocean a prohibitive duty will not be placed on it?"

The Minister expressed surprise at the suggestion that the government guarantee certain import duties on certain proposed shipments. It was not done with any country, he declared. Anybody who desired to bring in Russian oil was at liberty to do so. The duty was laid down by statute.

Where the difficulty arose, the Minister said, was that attempts were made to bring in what amounted to partially refined gasoline with a little crude oil added, attempting to get it by the customs as unrefined. It has been attempted by countries other than Russia.

"The only thing the government has refused to do is to put the credit of the people of Canada behind the movement of goods to or from Russia, and the same holds good with trade with other countries," Mr. Stevens declared.

With respect to coal, the Minister went on, the Canadian Government had consciously diverted this business to Great Britain. Pulpwood had been shipped into Canada from Russia in competition with the Canadian product and, as with coal, it had been produced under working conditions far different from those which would be tolerated in Canada.

The government has decided the pulpwood producers of Canada should not have to face such competition. The same was true of lumber and furs, although the restrictions regarding the latter commodity had been modified.

"The main object behind Russian exports is to obtain foreign credit," said Mr. Stevens, "not an adequate return on their effort or a profit for the producers." He had stood on a dock in Bristol, England, in 1930 when Canada was trying to ship wheat to Great Britain.

"We in England at that time saw ships of seven, eight and nine thousand tons, loaded with unsold Russian grain, on consignment tie up at the British docks. I stood on the Bristol dock and saw a 7,000 ton steamer loaded with Russian grain arrive. It was shipped on consignment to a broker who told me he was ordered to sell for whatever he could get."

"That day the Liverpool wheat market broke six cents a bushel and the market has never recovered from the blow," Mr. Stevens declared.

There was not before the government at the present time any official intimation that Russia proposed buying from Canada. Last year Canada sold Russia 3,000,000 bushels of wheat largely for seed purposes. There was no reason to believe that country was at present in the market for wheat.

Col. Thomas Cantley, (Cons., Picton), asked Dr. Donnelly what reason he had to believe Russia wanted to buy from Canada. "None," replied Dr. Donnelly, "I said, if they wanted to buy."

William Irvine (U. F. A. Wetaskiwin) enquired what reason there could be for the government not supporting or sanctioning the proposal for the exchange of 100,000

CAPITALS 5 SUSSEX 0

(Canadian Press) FREDERICTON, N. B., Feb.—Fredericton Capitals collected five goals tonight and Sussex Dairy Kings left the ice with a goose egg. Fredericton went up another notch in the lead of the Southern New Brunswick Hockey League. Sa'nt John Beavers, four points below, occupy second place, and Sussex remains in the cellar.

Capitals ran riot in the first period with three goals. Gammon and Steen assisted Gulliver, and Steen and Taylor counted on solo rushes.

Gulliver dodged adroitly through the Sussex defence in the second period and scored from close in.

The final tally came early in the last period when Gammon took a pass from Taylor and scored.

Civil Servants Salary Bill Still Pending

(Canadian Press) OTTAWA, Feb. 3.—The bill extending for another year the 10 per cent deduction from the salaries of civil servants, will probably be introduced in the House of Commons next Monday, Hon. E. N. Rhodes, Minister of Finance, told the house this afternoon.

Rt. Hon. W. L. Mackenzie King, Liberal leader, who led a strong opposition last year to considering the estimates on the basis of the 10 per cent deduction before the legislation authorizing it had been passed, raised the same objection today. Mr. Rhodes promised that the bill would be brought in without delay, probably Monday.

Double Drowning In Newfoundland

(Canadian Press) ST. JOHN'S, Nfld., Feb. 3.—A double drowning occurred at Winterton today, according to a brief report received here tonight. George Gregory and his eight-year old grandson were crossing a pond when the ice gave way and precipitated both into the water. Gregory's body was recovered.

McIntyre Mines To Pay Bonus

(Canadian Press) TORONTO, Feb. 3.—(By The Canadian Press)—It is understood in mining circles that the premium paid to McIntyre Mines for gold production will be paid to the shareholders in the form of a bonus along with the next dividend.

J. P. Bickell, president of the company, could not be reached at his Port-Credit home tonight for the confirmation but according to an official of a brokerage house here, this step was intimated by Mr. Bickell at the annual meeting held last September.

People who hate beating around the bush shouldn't be golfers.

head of Canadian cattle for Russian oil.

Mr. Stevens said that according to G. G. Serkau's own written statement there was \$8,000,000 to be paid by Russia for the cattle. It was clear that the proposers of the scheme did not expect to get the Russian Government to pay for this cattle in full until June, 1935 and payments of the \$8,000,000 were to be in progressive payments.

The Dominion Government was asked to accept Russian seven per cent bonds payable in June, 1935 for payments outstanding; the cattle were to be shipped to Russia before November next which would mean that the total liability would be incurred by November; a guarantee should be given by the Dominion Government against any possible breach of agreement by the Russian Government. These were matters which the Dominion Government was not warranted in doing, Mr. Stevens said.

Then there was the question of exchange. Petrol, lubricating oil and Russian anthracite were to be sent to Canada in connection with the cattle barter. He had already made it clear, Mr. Stevens continued, that the Dominion Government did not believe it was advisable to sacrifice the British coal market in Canada to Russia.

BILLIARDS

Ivan Harley defeated McTague in the best match so far. After trailing McTague all the way up to 180 Harley came from behind to win by 5 points in the nicest game of billiards played on the table for a long time. In the class B Bradley won from Col. Brown in a close game ending 200-174.

NAZIS EXPECT CO-OPERATION OF POLICE

Hitlers Followers Confident Of Majority In Reichstag.

(By Louis P. Lochner, Associated Press Staff Correspondent.) BERLIN, Feb. 3.—If the next Reichstag election brings the 51 per cent majority which Adolf Hitler's Nazis confidently expect, the Nazi storm troop leaders will head the police forces in countless German cities a close adviser to the Chancellor said today.

Beginning with Berlin, where Count Wolf Heinrich Von Helldorf, leader of the Berlin storm troops, is slated for Chief of Police, and continuing into the smallest towns, the Nazis expect to take the places of anti-Nazis.

"The street now belongs to us," the Hitler spokesman said. "Hereafter our demonstrations will be held under police protection instead of combatting police chicanery. With our men heading the police everywhere it will be unnecessary to proclaim special laws against political terrorists. They will disappear so quickly that special measures will not be needed."

Siberia Claims Severe Weather

MANCHESTER, Eng., Feb. 3.—Many people think that the coldest spots on earth would be at the North and South Poles, according to a writer in The Manchester Guardian, but this is not so, for the coldest spot in the Northern Hemisphere is really in Siberia.

This is situated west of Verkhoyansk, about 200 miles inland from the Lena River. This region has the lowest mean annual temperature of any place in which records have been taken. It can boast of a record of 90 degrees F. below zero, or 112 degrees of frost! Its usual minimum temperature during January is not above 60 degrees F. Temperature records for the southern polar regions are not complete, but it is considered that the coldest area is in the highlands on the Antarctic Continent, some distance from the South Pole.

The reasons for this curious state of affairs are to be found in the fact that water, which, although coated with ice, is present round about the North Pole, has a warming effect. A region distant from the sea in Siberia thus experiences a greater degree of cold. Altitude also affects temperature, and so it is the elevated lands in the Antarctic region that have a lower temperature than the South Pole itself.

CENTRAL GUARDIAN

THE YOUNG PEOPLE'S DEPARTMENT OF TRINITY UNITED CHURCH—Met in regular session on Friday evening, February 3, with 74 members present. The devotional period was led by Miss Nora MacKenzie. After the business was disposed of the regular half-hour classes in music, Canadian literature, Bible study and present day world affairs were held. The members then reassembled in the Social Hall where a musical program was enjoyed, followed by an interesting contest and badminton. The Society was pleased to welcome Rev. Russel O'Brien, M. A., B. D., Field Secretary of the young people's department, Maritime Conference, who is to speak to the young people at the Church service on Sunday evening and will dispense Holy Communion at the close. Mr. O'Brien is to be the guest of honor at a banquet given by the Council of the Y. P. D. on Saturday evening.

Abegweits And Wolves Battle To A Scoreless Tie

Ninety Minutes Of Hockey And Not A Count By Either Team —Red Shirts Outplay Halifax Team In Overtime, But Sargeant Was Too Good.

Battling through ninety minutes of good and bad hockey, Abegweits and Halifax Wolverines skated off the Forum ice last night with not an orphan tally to show for their night's work. On the evening's play, Abies had the edge, but their listless showing in the first period and most of the second almost cost them a defeat, as Wolverines playing cautious but flashy hockey gave "Daddy" Bubar many anxious moments, and only for his brilliancy in the nets the game would have gone Halifax way long before the end of the second session. Both lines seemed to be off stride, with the Beaton, McArthur, Hudson string giving the poorest exhibition.

The third period, however, found an entirely different band of puck chasers. They opened up, played great hockey and entirely took the play away from their opponents. This rejuvenated exhibition continued into the overtimes, but Leo the Great Sargeant lived up to his moniker by turning aside countless numbers of whistling drives which were let fly close to his goal line. It was Sargeant, and Sargeant alone who was mainly responsible for the long drawn out scoreless game last night. His net minding was phenomenal, and before the final gong sounded he had turned aside forty-nine shots to Bubar's twenty-five. The latter also turned in a great game in the Abbie citadel. "Daddy" had his anxious moments, especially when Moshier rushed at him from close in to be foiled, and later when Owen Lennon tried to cross him up after grabbing a loose puck inside the blue line; and then again Lawlor made him sit up and take notice, but Bubar was all eyes last night and handled everything that came his way.

On the night's play Abies engineered the most opportunities. Two golden chances featured when Beaton broke away a centre in the first overtime, fooled Vince Ferguson and Lavigne, laid a perfect pass on Hudson's blade to trick Graham, but Hudson failed when he was out-guessed by Sargeant.

In the third overtime, Hickey Nicholson stickhandled his way through the opposing forwards, whipped the disc to Kane, the latter driving in on top of Sargeant, but he too failed as the fans scented a score. Kane was overcautious and missed the "hole" by inches. It was a tough ending to a play that brought over two thousand persons to their feet with frenzied cheers.

Not wishing to detract from the wonderful net-minding of Sargeant, but the writer feels justified in stating that luck or whatever you wish to call it helped the Wolverine goalie to hold Abegweits last night. On several onslaughts on his cage he was caught with his head up on many rebounds that hit him on the chest, legs and arms, while he fought to hold his feet. Leo is a great goalie, but if somebody had searched him last night they might have found a horseshoe dangling beneath his jersey.

THE SUMMARY

First Period: No score. Penalties—Graham, 2 minutes; W. Ferguson, 2 minutes; Lavigne, 2 minutes; Kane, 2 minutes. Stops—Bubar, Abies, 5; Lavigne, Wolverines, 7. Second Period: No score. Penalties—Lavigne, 2 minutes; Jemmett, 2 minutes; Moshier, 2 minutes. Stops—Bubar, 4; Sargeant, 9. Third Period: No score. Penalties—Lennon, 2 minutes; Graham, 2 minutes; W. Ferguson, 2 minutes. Stops—Bubar, 7; Sargeant, 11. First Overtime: No score. Penalties—Graham, 2 minutes; Moshier, 2 minutes. Stops—Bubar, 3; Sargeant, 13. Second Overtime: No score. Penalties—Gross, Moshier, 2 minutes.

Stops—Bubar, 4; Sargeant, 4. Third Overtime: No score. Penalties—None. Stops—By Bubar, 2; Sargeant, 5. Total stops—Bubar, 25; Sargeant 49. Referees—Jack Carroll, Moncton; Roy Prowse, Charlottetown.

THE LINEUPS: Abies Goal, Bubar Defence, Gross Lavigne, Ferguson Centre, Beaton Moshier, Jemmett Wing, Hudson Shields, Kane Beazley, Cook Fergusson, McArthur Fergusson, Nicholson Lawlor.

NOTES The refereeing of Jack Carroll last night left much to be desired. The Graham-Lavigne defence duo got away with more knee checks last night than one could think possible. This is the first time this writer has ever criticized the work of a referee, but last night's exhibition was the "straw that broke the camel's back."

The Kid Line was much off color last night. The first two periods the Wolves had a great time, and only for the stalwart defence of Gross and Ferguson, not to mention Bubar, the result might have been sad to chronicle.

On the other hand Kane, Jemmett and Nicholson turned in splendid defensive hockey, and in the third period and overtimes they caught the Kid Line offensive disease—and maybe they didn't travel. Had these two lines played the same hockey in the opening sessions, there's little doubt that the great Sargeant would have been forced to bend.

Lennon, Lawlor and Ferguson were the pick of the Conn crew. Three great hockey players are the above mentioned trio.

A wonderful attendance and a splendid tribute to the Abegweits and Forum officials.

The Red Shirts are still very much in the running. Watch 'em on the Mainland next week!

SCORED ON "DADDY" Previous to the opening of hostilities "Sonny" Gillispie, six year old son of Mr. and Mrs. William Gillispie, appeared on the ice in Abbie uniform accompanied by the team. "Sonny" took a pass from Jackie Kane to "breeze" in on Bubar. "Daddy" figured the attack was easy to handle but "Young Bill" pulled the wily Abbie ace from his net and slipped the rubber home for the only goal of the evening.

NORTH SHORE LEAGUE GAMES

The following are the remaining games to be played in the North Shore League: Wednesday, Feb. 8, Baltic vs. Irishtown, Germany vs. Sea View; Friday, Feb. 10, Stanley vs. Spring Valley, New Annan vs. Kensington Aces; Wednesday, Feb. 15, Kensington Aces vs. Baltic, Irishtown vs. Indian River.

FORUM SKATING BAND with 3 to 5 P. M. TODAY

DOWN THE BACK STRETCH

The list of new 2.10 trotters for 1932 totals 148. Of these eighteen were two year olds, forty three year olds and thirty-one four year olds. The remaining 59 rank in age from five to eleven years.

Of more than ordinary interest will be the statement that of the total number of new 2.10 trotters which secured records faster than 2.06, all are two and three year olds with a single exception, Scotsman (4) 2.05. This is really remarkable and goes to show how precious speed is at the present time with the improved breeding strains and improved methods of training.

The fastest of the new 2.10 performers is Hollywood Dennis, brown colt, three, by Hollywood Harkaway son of Peter Volo and out of Jane Dillon by Dillon Axworthy. His record of 2.01 1/4 made at Goshen, New York, August 17, 1932, with Will Crozier up is a world's record for a three year old stallion in a race.

The season of 1932 was fruitful

in the establishment of new world records and the two year old pacing geldings were especially prominent in this respect, all previous performances on both mile and half mile tracks being bettered.

In 1927 Sep Palin campaigned the two year old pacing gelding Red Pluto and gave him a record of 2.05 1/4, which lowered by a full second the best previous effort of a two year old pacing gelding of like age. Red Pluto's record stood from 1927 until the past season, when Calumet Dubuque lowered it to 2.05 at Buffalo and to 2.04 1/4 at Lexington, Ky. He is by Peter the Brewer 2.02 1/4, out of Gertie Guy, a full sister of the noted stake winner Ante Guy 2.03 1/4.

The world's race record for trotting mares on a half mile track which was set at 2.05 1/4 back in 1923 by that grand campaigner Mrs. Yerkes 2.02 1/4, by Peter the Great, remained supreme for eight years, but during the past season

(Continued on Page 9)

N. S. Delegates To Grain Fair

(Canadian Press) TRURO, N. S., Feb. 3.—Nova Scotia's delegates to the world grain exhibition and conference in Regina next summer will be Clark Burns of Shinfield, Roy MacDonald of Bay View and Angus B. MacLellan of South West Margaree. They were chosen in an elimination contest at the seed show and short course at the Nova Scotia Agricultural College here.

Feb. 22 Set For M.S.B.A. Meeting

(Canadian Press) AMHERST, N. S., Feb. 3.—The Maritime Stock Breeders' Association meeting, scheduled to be held here on Feb. 22, was postponed until Feb. 22, according to word received today from C. F. Bailey, the president. Citizens of Amherst are strongly in favor of reviving the Maritime Winter Fair, and discussion of the proposal is expected to be a feature of the meeting.

SETTLEMENT

spare engineers. Firemen on their part agree that when engineers are demoted they may take positions as firemen at their home stations unless junior engineers have been running at other home stations for a period of 12 months.

Four conciliation boards had already heard the dispute during the past few years. The present board began its sittings on Monday. Wednesday Mr. Justice Kingstone appealed to the parties to get together and settle the matter.

Howard Lynch, Vice-President of the Brotherhood of Locomotive Firemen and Enginemen and R. H. Cobb, Assistant Grand Chief, Brotherhood of Locomotive Engineers reached the settlement assisted by a number of general chairmen.

The board adjourned for two weeks. It will then meet at Ottawa to present its report. Specialist: "This eccentricity you speak of in your daughter— isn't it after all, a matter of heredity?" Mother (severely): "No, sir! I'd have you know there never was any heredity in our family!"
