**Are Your Eyes Worth Watching?**

In the bustle and bustle of business your eyes seldom come in for consideration—not until they rebel against ill usage. Then the case is serious, your head aches, your stomach is not right and you go to see a medical doctor he will probably prescribe for your stomach and still you feel no better—finally he traces the whole cause back to those poor abused organs of the head and refer you to an optician.  
If your eyes are not right remember I have the best equipped optical department in this province. Your case will have expert attention here.
