MACDONALD'S HONEY DEW

CENTRAL GUARDIAN

ENJOY a good night's entertainment by coming to the B. I. S. auction forty-fives and old time dancing tonight, cards start at 8.15 sharp. 2216-11

LIQUOR SEIZURE—A seizure of several gallons of rum was made in the city by Messrs. Shaw of R. C. M. P. and Morris of the Prohibition Commission yesterday afternoon. The liquor was hidden by the sidewalk in front of a premises on Grafton St. No arrest was made in connection with the seizure.

CALEDONIAN CLUB—The regular monthly meeting of the Caledonian Club was held last evening with President, J. M. MacFadyen in the chair. The meeting was well attended. The routine business of the meeting was carried out. No new work was taken up.

I. O. O. F. CELEBRATION—The 113th anniversary of the I. O. O. F. was celebrated in their hall last night. The lodge room was set apart for cards and the large hall downstairs for dancing. About 125 were present and took part in the card playing. Over 200 took part in the dancing.

BARN AND CAR DESTROYED—About 5 o'clock yesterday morning a barn owned by Mr. James Murphy of China Point was totally destroyed by fire. A 1929 Whippet car and a hay loader stored in the barn were also destroyed. The barn was located some distance from Mr. Murphy's home and by the time he reached the scene after being informed of the fire by neighbors, the roof was already falling in. The loss is thought to be about $1,000 without insurance.

STILL AGROUND—The steamer Sydfold which ran aground at Indian Rocks on Sunday night was reported still held fast at a late hour last evening, she being unable to free herself at high tide. This morning assistance was asked from the Marine Department here but no craft was available. The agents here have also wired Halifax but were informed that no immediate assistance could be rendered. It is understood that a part of her cargo will have to be removed before she will be able to get out of her present predicament. From the latest report it is stated the steamer is in no danger unless a wind blows up from the south west, which would probably drive her farther on the rocks.

PERSONALS

The many friends of Mr. Harry Richardson will be sorry to learn he is in the Prince Edward Island Hospital undergoing a minor operation.

Mr. G. R. Keefe leaves this morning for Montreal to accompany Mrs. Keefe from the Royal Victoria Hospital where she has undergone a serious operation.

Mr. C. M. Tait of Montreal arrived in the City last evening. Mr. Tait is a guest at the Canad'an National Hotel.

Britain's Medicos Increase Nervous Disease Studies

NEW YORK, N. Y., April 26—Increased attention is being given in Britain to functional nervous diseases, according to the London correspondent of The Journal of American Medical Association.

"The Maudsley Hospital in southeast London was endowed by the well-known psychiatrist of that name and was organized by the London County Council on the lines of the combined neurologic and psychiatric clinics of the Continent and of America," he says. "It represented the first provision of the kind by a public body in th's country. To increase accessibility of psychiatric diagnosis and treatment, the Council has now established psychiatric clinics at each of the three municipal general hospitals north of the Thames. Mile End Hospital, St. Mary's Islington, and St. Charles's Hospital, Hammersmith. The Maudsley Hospital has a complete staff of eminent specialists in the various branches of medicine and survery, and the three new clinics will be subordinate to it. The clinics will be supervised by the medical superintendent of the Maudsley Hospital, and the physicians in charge of them will be drawn from elsewhere on a voluntary basis. Among suitable conditions are neurotic disturbances such as neurasthenia, hysteria, obsessional and anxiety states, and mental or neurotic symptoms, associated with physical disease. On the other hand, mentally defective patients, those clearly requiring certification and nonvolitional patients are excluded. After diagnosis at the clinics, patients will usually, owing to local exigencies of time and space, be referred for treatment at the Maudsley Hospital."

NEPHEW WEDDED AUNT ILLEGAL, SAYS JUDGE

WINNIPEG, Man., April 26—Definition of the word "affinity" and Archbishop Parker's table of consanguinity, drawn up in 1563, were the grounds given by Chief Justice Macdonald today for declaring a marriage between a nephew and his aunt to be null and void.

Arthur Dejardin, a British subject domiciled in Manitoba, on September 2, 1913, married Margaret Dejardin, a British subject and the divorced wife of his uncle, in New York city, where the bride arrived from England. Mrs. Dejardin is now in Australia, where she was served with notice that her husband was asking to have the marriage annulled. No defence was entered. His lordship held that legality of the contract in New York state had no weight here.

LUMBERING INTEREST FALLING OFF IN SWEDEN

STOCKHOLM, Sweden, April 26—The Swedish lumber industry had a bad winter. Scant snowfall and the mild temperatures hampered logging and transport of lumber, and were it not that the prevailing depression in the industry curtailed operations anyway there might be a serious shortage of logs this year.

Heavy gales in July of last year, and later in December and January, are estimated to have blown down 13,000,000 trees, owners sustaining losses which will be felt for several years.

Lawyer (who has just come home) —I've worked like a horse all day. His wife—Been drawing conveyances?

::Douglas' Egyptian Liniment makes the finest blister known. Invaluable for stock. Leaves the hair roots in natural and healthy condition. Hair comes back. No scar remains.

BAHAMAS CACHES PROTECT SECRET LEGENDARY GOLD

LONDON, Eng., April 26.—Pirate gold exists mainly in legend and in fiction, but some genuine treasure turned up recently when a poor Bahama fisherman led the police to a cache on the shore of New Providence Island, according to British reports now to hand. Here he found five bars of gold bullion worth about $60,000 which had been buried beneath a wild plum tree among rocks bearing a sign of Freemasonry.

In many a tale of pirate gold or other hidden treasure, a pile of stones, a tree, a cross perhaps, and a map with mysterious symbols appear. Hence the most recent Bahama treasure yarn runs more or less true to form. And it is quite true that pirates and buccaneers found safe havens among the numerous islands of the Bahamah group. One recalls sinful old John Watling, who gave his name to Watling's Island and who died by a bullet while engaged on one of his raids.

And there was another nest of pirates who harried the Bermuda salt rakes when they went yearly to the Bahamas to harvest their "crop" from the ponds they had established as early as 1678 on Turk's Island. The Bermudians, in their 20 ton sloop with slave crews, raked the salt in Winter, selling it in the American Colonies or exchanging it for foodstuffs which they took home and sold. It was a lucrative trade for 60 years or more, despite the interference of pirate bands.

Possibly there are other treasure caches hidden in the Bahamas; at all events, genuine treasure trove has been recovered in New Providence. The fisherman who found the recent cache must give two-thirds of it to the British Imperial Government in accordance with ancient law and practices.

RELICS OF THE STONE AGE

MYSORE, India, April 26—Relics of a race who lied in the Deccan 6,000 years ago who made pottery with remarkable skill and attained a considerable degree of culture, have been discovered in the Chandravalli Valley near Chitaldrug.

Six different levels, each marking a ground-surface of which an ancient people once lived, were revealed by excavations. The most recent strata was 800 years old — the lowest marked the level of the ground 6,000 years ago.

In this lowest strata the pottery and other relics of stone and iron ages were found. The stone age relics were ornate, with geometrical floral and other resigns. The discoveries are considered to indicate that these prehistoric inhabitants of the Deccan had attained a degree of culture equal to that of the Campignian of France and Getulan of Africa.

"PRINTED" WALLS

Travels, prints are smart on your walls at any time of the year. A very charming library had dozens and dozens of prints showing scenes from every corner of the world on three of its walls. It was a cheerful, fascinating room. Why not carry out the idea in a room of your house?

ALBERTA BIG BEEF EXPORTERS

CALGARY, Alta., 26—More than 100,000,000 pounds of beef was exported from Alberta in 1931 according to S. G. Carlyle, Alberta livestock commissioner. There were exported also 105,000 head of cattle, of which 8,000 went overseas. He stated 1931 would go down in history as having the lowest livestock price levels in 30 years.

Montreal Market Sidelights

MONTREAL, Que., April 26. (By the Canadian Press)—Back on the unrestricted trading district, common shares of the Montreal Light Heat and Power Consolidated today immediately assumed their old place as market leader in activity on the Montreal stock exchange. The stock, trading in which had been forbidden under a price level of 30, slumped slightly over 8 points, in line with quotations made over the counter for the past several weeks. It opened at 26¾, rose slightly to 27½ and closed at 27¼ for a net decline of 8¾ points. Liquidation of the issue, which sold to the amount of 2,054 shares, was ordered and within narrow limits. The balance of the list closed fairly firm. In striking contrast to recent sessions a high for 1932 was registered by one issue Atlantic Sugar, which advanced 1¼ points to 23¼.

Montreal Tramways, in its first board lot sale in over a month dropped 28 points to close at 101, a new low. Other new lows were shown in B. C. Power "B" down ⅛ at 3⅞ and Sherwin Williams, off a point to 7. Canadian Pacific was second in activity with 1,100 sales and lost ½ to 13⅜, McColl Frontenac, third with sales of 340 shares, gained a point to 9 the advances being result of its annual report showing higher earnings than in 1930. Other closing prices included Bell Telephone up ¾ at 85¾, Brazilian Traction up ¼ to 9¾, Smelters up 1¼ to 39½; International Nickel, up ⅛ to 6½; and Quebec Power, off ½ at 15. The recent selling pressure directed against the Canada Cement issues was lifted. The common gained a point to 4¾ and the Preferred was 2 points better at 42 after touching 44¾. Total trading amounted to 5,439 shares compared with 3,704 yesterday. The increase being due to activity in Montreal Power. The bond market continued activey, and mixed. Cedar Rapids lost 7⅞ to 97¾, a new low level, while Victory 1934 and refunding 1940 showed small advances. Total sales were $103,950. tSerling closed at $4.0750 and United Funds at a premium of 11⅞ per cent.

Grain Market

CHICAGO

CHICAGO, April 26.—Forecasts of heavy frost and freezing temperatures tonight in Western Nebraska and Kansas led to generally higher prices today on wheat.

A leading unofficial crop expert sent extremely bullish crop reports as to wheat in Edwards, Pawnee and Baron counties, Kansas, and in sections of Texas and Oklahoma. A government crop observer after a 1,300 mile trip in Western Nebraska reported rains came too late to be of material benefit, and that big abandonment of acreage was probable.

Wheat closed firm, ⅛-½ up above yesterday's finish, corn ⅛-⅜ off, oats ⅛-⅜ up and provisions varying from five cents decline to a rise of two cents.

WINNIPEG

WINNIPEG, April 26.—Wheat traders marked time today as the market idled through one of the dullest sessions in months to close ¼-⅜ lower for the day.

May eased ¼ to 62⅝; July ⅛ to 64½ and October ¼ to 67.

There was no trace of any export worked overnight.

Trading was wholly local in character and consisted of changing from May to July. Lack of offerings checked any tendency to lower levels but there was never any great pressure to either buy or sell.

Bradstreet reported the available supply of wheat in Canada and the United tSates had decreased 12,573,000 bushels. Wheat afloat and in Europe decreased 4,100,000 and total wheat available reported at 420,784,000 bushels.

Cash wheat and coarse grains were dormant. Prices were unchanged.

Oats—No 2 c w 33⅞; no 3 c w 31½; ex 1 feed 31; no 1 feed 29½; no 2 feed 29; rejected 25½; track 34.

Barley—Malting grades: 6 row ex 3 c w 47⅜; 2 row ex 3 c w 44⅜; other grades: No 3 c w 42¼; no 4 c w 40¼, no 5 c w 38⅛; no 6 c w 37⅛; track 42⅜.

PRODUCE

MONTREAL, April 26. (By the Canadian Press)—A firm undertone was evident today in the produce and dairy markets here. Prices of eggs in bulk were advanced while other lines such as butter and eggs, were unchanged. Butter was generally at the 16½ cent line for no 1 quality in carlots or less. Receipts continued moderate, at 300 boxes. Export trade in England has not yet started, stocks here being small. The egg market was a little firmer with extras at 16½ cents, firsts 14½ cents, and seconds 12½ to 13 cents per dozen, these prices were half cent above yesterday's levels. Receipts were 3,609 cases. The cheese market held steady at 10 cents for current make, and 12 to 12½ cents for summers. Loading for export was continued. Receipts were 404 boxes. Potatoes were unchanged, new Florida no 1 were $10.50 to $11, ex track, with no 1 quality quoted $7 to $7.50. Prices for old potatoes follow: New Brunswick green mountains 80 pounds no 1 42 to 45 cents; P. E. I. and Quebec green mountains 15 pounds, fancy 14 to 15 cents; green mountains, 90 pounds no 1 55 cents; local whites 80 pounds no 1 30 to 40 cents. Carlot prices were 10 cents cheaper per bag.

BOY'S PIGEON FLIES WITH HIM TO SCHOOL

GRIMSBY, April 26—Mary's little lamb is rivalled by a pigeon in this air-minded age.

A Grimsby boy, Jack Laing, who lives on Elm Street, can be seen any noon hour on his bicycle with the pigeon flying beside him, bound for school. The bird flies low and apparently gets a great kick out of the ball games at the High School grounds.

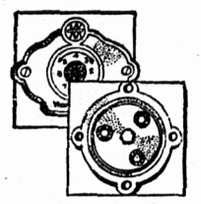
TOLL BRIDGES IN ENGLAND

LONDON, April 26—(By the Canadian Press)—The question of bridges across certain of the great rivers of England is very much in the forefront just now. Within the last few days the important bridge across the Trent at Gainsborough, in Lincolnshire, has been freed from tolls. The bridge was built exactly a century and a half ago, and practically from the day of its opening there has been an agitation that it should be free. Not until seven years ago, however, when the tremendous increase in road traffic became so obvious, did Gainsborough see a definite chance of the removal of the tolls. After prolonged negotiations the private company was bought out at $650,000. Fifty per cent of the purchase price was granted by the Ministry of Transport from the Road Fund.

There are now few important bridges in England where tolls are still collected. Two bridges in the neighborhood of Southampton have just been freed, and in one or two other areas a toll bridge has been superseded by a free bridge at a neighboring site. In several instances this latter procedure appears to be the most economic and feasible. It is interesting to recall that Waterloo Bridge, which is the subject of so much controversy, was built by private enterprise, and that tolls were collected for many years. Less than 60 years ago there were 87 toll turnpike gates and bars within four miles of Charing Cross. In the days of the stage-coach a four-horse coach running every day between London and Birmingham paid tolls amounting to $7,500 annually.

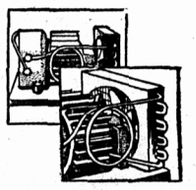
You are entitled to ALL *of* these/



7-SPEED TEMPERATURE SELECTOR—Seven speeds of freezing at a touch of your finger. *Automatic under all normal conditions.*

AND

"BUILT-IN WATCHMAN" —An exclusive Westinghouse feature—*automatically controls all extreme conditions.*



HERMETICALLY SEALED UNIT—Enclosed in steel with permanent oil supply, for lifetime operation without attention.
