Securities Move Lower On Montreal Exchange

(C. P. By Guardian's Special Wire)

MONTREAL, Nov. 20 — While Montreal Power spurted upward, securities on the Montreal Stock Exchange moved into lower territory along a broad front during today's session.

With heavy buying reported in brokerage circles, Montreal Power continued its higher movement of yesterday. An overnight gain was chalked up at the opening and big utility soared at its high of the day, 28 3-4, with a gain of 1 1-2 points. Premier L. A. Taschereau in a statement today advised investors in public utilities not to be worried by attacks made against the companies at the hearings of the Quebec electrical commission He promised the Quebec Government would take steps, if necessary, to protect their interests.

Other members of the power group, however, were generally lower with Power Corporation, Canada Northern Power and Quebec Power down fractions. Shawinigan, British Columbia Power and Southern Canada were unchanged.

On threats of possible milreis inflation Brazilian Traction, in active trading, was under pressure. It dipped to 9 7-8 and closed with a loss of 5-8 at 10. The company reported net earnings for October showed an increase of $104.333 over Oct. 1933. The Brazilian milreis in Montreal declined .01 of a cent.

Canadian Pacific Railway was subjected to selling and dipped 1-8 to a new low for the year at 11. International Nickel held firm while Hollinger was off five cents and Consolidated Smelters two points.

Sales on the exchange totalled 21,774 shares and bonds $6,150.

MARKET GOSSIP

(By Johnston and Ward's Special Wire)

MORNING MARKET LETTER

NEW YORK, N. Y., Nov 20—Prices were irregular at the opening yesterday with the changes small except for declines in the Utilities. Soon after the opening, however, general strength developed with a noticeable increase in volume. This was followed by a small reaction during which volume declined and for the rest of the day trading held within a narrow range with the Industrial and Rail averages showing small gains on the day.

The selective character of the market based upon the outlook for individual stocks as affected by Administration Policies and general business is continuing. Those stocks with the more favorable outlook have advanced considerably in recent weeks but are still acting well. In the averages the Rails and Industrials are making another "line" the breaking of which will provide the technical clue to the direction of the next move.

Laidlaw and Company.

BABSON'S REPORT

BABSON PARK, Mass., Nov 19—Outlook for first half of 1935." "Stocks should advance". A more active market with advancing prices should mark the first half of 1935 The increased volume of the market reflects a quickening of speculative interest. Previous dullness was evidently used as an opportunity to accumulate sound securities for the long pull. The floating supply of many stocks has quietly diminished day by day.

Sooner than you realise, choice stocks will be lodged in strong hands. This means that a sharp advance will take place. Better earnings will accompany improving business during the first six months of 1935. Because of the inflationary possibilities ahead, stocks must be selected carefully, emphasis being placed on those lines and companies which are best able to function skilfully under the changing conditions of the New Deal.

Fugitive At Large In Truro

(C. P. By Guardian's Special Wire)

TRURO, N.S., Nov. 19.—A fugitive described as violently insane and with criminal tendencies was at large somewhere in Truro tonight while Royal Canadian Mounted Police searched the district for his whereabouts.

They believed George Richards of Glace Bay, N.S., was hidden in the dense thickets of Victoria Park, where he dashed today after escaping from Police Officer Nowlan of the Glace Bay Police, who was escorting him to the Nova Scotia Hospital for the Insane at Dartmouth.

Nowlan and his prisoner were emerging from the C. N. R. station restaurant after a lunch when Richards, with a twist of his manacled wrist, snatched the loose end of a handcuff from the officer's hand and sped across the railway tracks to freedom, disappearing into the wooded park.

Residents of the town section adjoining the park kept their children indoors tonight, though police expressed belief Richards would attempt no violence. It was expected hunger soon would drive him out of hiding.

NEW YORK, Nov. 20 — Stocks managed to keep above water today, but most other financial markets were unable to come up for air.

The news was rather bright, including a host of regular and extra dividends. General business also appeared to be moving at a more accelerated pace toward more prosperous levels. But the majority of traders were not disposed to chase their favorites and the result was that a more cautious speculative attitude prevailed even in those departments that showed improvement.

While Wall Street was encouraged by the fact that the recently depressed utility stocks displayed resistance to further selling pressure, the heaviness of scattered power and light company loans in the bond market, as well as the softness of carrier liens, served to restrain any substantial revival of enthusiasm.

A break in grains at Chicago did not seem to affect the equities list particularly. Wheat, corn and rye dropped about 2 cents a bushel in a late profit taking flurry. At the same time a number of stocks recorded modest recoveries in the final hour. Cotton was ten cents a bale lower to 5 cents higher.

The Standard Statistics Co. composite for 90 selected stocks got back the three-tenths of a point it lost in the previous session, closing at 72.6. The turnover amounted to 870,010 shares.

Optimism regarding the dividend action to be taken tomorrow by the American Telephone directors was reflected in a recovery in these shares of 2 1-8 points at 105. Only a few days ago this issue sagged to just above par. Telephone's upturn was attributed partly to short covering.

Public service of New Jersey got up nearly a point, and the board voted the regular quarterly dividend after the close of trading. Consolidated Gas dipped in the morning, but finished unchanged. Other utilities that ended a trifle higher included North American, which earlier had recorded a new year's low; Pacific Gas and United Gas improvement.

Shares of Associated Dry Goods, which owns the majority of stock in Lord and Taylor department stores, spurted on the overnight announcement that the Lord and Taylor directors had voted on an extra dividend of $5 a share, in addition to the usual holiday extra of $5 and the regular quarterly disbursement of $2.50. Associated First preferred advanced 9 points, the second preferred was up 6 1-4 and the common issue gained a point. Most other merchandising shares, however, were listless.

Increases or extras were also declared by Mesta Machine, Beech-Nut Packing and a number of other companies. Shares of Mesta advanced fractionally, but the Beechnut stock was not traded.

There was little news to account for the softness of the rails. Delaware & Hudson was off 2 points, Union Pacific nearly as much and Santa Fe yielded more than a point. In some quarters it was thought that the low earnings condition of most of the carriers, and the continued fear of receiverships, may have been responsible for the heaviness of this group.

The oils did little or nothing and such stocks as U. S. Steel, Bethlehem, Du Pont, National Distillers, General Motors, Chrysler, General Electric, Westinghouse, United Aircraft and a host of others held to a restricted groove.

Owens-Illinois Glass got up 3 1-4 points and International Business machines advanced 2 in small turnovers. Some improvement was registered by Radio Preferred B, Loew's, American Commercial Alcohol and Electric Auto-Lite. American Can and Allied Chemical gave up about a point each.

Noranda Mines touched a new 1934 botton at 30 1-4. Other Canadian stocks were generally lower. Fractional losses were recorded by Brazilian, Canadian Pacific, International Nickel, Lake Shore, Massey-Harris, Wright-Hargreaves, Ford of Canada, Hollinger, St. Regis Paper and Imperial Oil. Distillers-Seagrams added half a point at 14 1-4 while smaller gains were shown by McIntyre-Porcupine, Dome Mines and Teck-Hughes. Dominion Bonds were steady. The Canadian dollar ruled slightly higher at 2 5-8 percent premium.

SAINT JOHN, N. B., Nov. 19—"I know nothing about it. I'm not guilty," was all that Peter Murray, 62, had to say this afternoon before Magistrate S. W. Palmer committed him for trial on a manslaughter charge resulting from the death of Emanuel Poirier, occupant of Murray's boarding house.

Detective-Inspector Biddiscombe testified that the accused was intoxicated when police were informed of a fatality and that he told conflicting stories of his whereabouts and actions the night before Poirier was found dead in bed. The victim bled to death from face and head cuts.
