ENGLAND DISAPPOINTED OVER POINCAIRE'S ATTITUDE

The Hope That the French Premier Would Unbend to Baldwin's Friendly Offer is Abandoned. Britain Urged to Withdraw From Ruhr and Let France Paddle her Own Canoe.

LONDON, July 16.—Poincare's speech at Senlis caused the deepest disappointment in England where it had been hoped against hope the French Premier would unbend at least slightly in response to Premier Baldwin's cordial gesture. The majority of the morning papers deplore this decided attitude and express only a forlorn hope that settlement was yet possible.

Commons Discusses Abolition Of Capitalistic System

LONDON, July 16.—Resolution urging the gradual suppression of the capitalist system was discussed at length with the House of Commons today. Philip Snowden, Laborite, author of the resolution demanded that the House go on record as favoring public ownership. He advocated the installation of an industrial and social regime with democratic control of all instruments of production and distribution. Sir Alfred Mond moved an amendment seeking a substitute resolution declaring that the abolition of private ownership would aggravate existing evils. Moreover, Sir Alfred said, far-reaching social redress can be accomplished "without overturning the present basis of society." The situation in Queensland is cited by Sir John Simon, Liberal, who also opposed Snowden resolution as an example of futile public ownership. Nationalized railroads there face a five year deficit of 1,500,000 pounds sterling instead of a surplus of 50,000 pounds he said. Unemployment also is being experienced there to the greatest degree of any dominions.

Far Away Borneo Offers Easy And Cheap Living

LONDON, July 16.—British North Borneo appears to be as near paradise as it is possible for the tax burdened man of today to get. No income tax is collected in the district. There is only a nominal land tax, railway fares have not been increased since 1911, tobacco is cheaper than in any other place in the world, chickens sell for a shilling apiece and whisky for eight shillings a bottle. These facts are not taken from the circulars of a colonization agent, but are found in the official report of the British government authorities. Incidentally the report says the natives have given up their old habit of head hunting.

Love in a Barber Shop

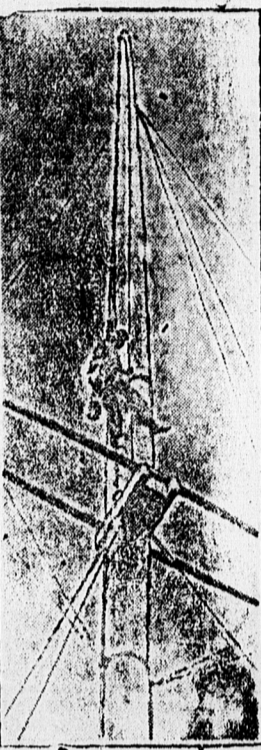

(By Dominion News Service) LONDON, July 16.—A woman barber—who endeavored to father and love at the same time was the complainant in a curious case of Maryelone County Court. Ivy Gladys Smith was suing Joseph Wass, master hairdresser, of Kilburn, for a week's wages, in lieu of notice and also for two dollars, the price of a razor. But love laughs, it would seem at master hairdressers as well as at locksmiths, and Miss Smith's young man spent most of the day in the shop. Miss Smith, while wielding a wicked razor around the jagular vein of a nervous customer persisted in gazing with love-lorn eyes toward his sweet heart. Mr. Wass protested that this sort of thing was not done in the best barber shops, and the young man considered it his duty to beat up his fiancée's boss. The boss had the young man summoned and fined and fired Ivy Gladys. The Registrar decided that Miss Smith was due a week's wages.

Delinquent Groups In Colleges Found To Favor Easy Life

EVANSTON, Ind., July 16.—Too little sleep, too much play, not enough study, too much leisure; fast eating and diversified thinking are factors that devitalize students and are responsible for the "delinquent groups" found in every university, according to a report made public by Professor Delton Thomas Howard of Northwestern University. In Northwestern alone, out of 1,635 students in the college of liberal arts, Professor Howard found a "delinquent group" of 265 composed of 166 men and 99 women. In other words, he points out, 16 out of every 100 students do not "pass." But delinquency does not necessarily imply lack of intelligence, the professor found. "No result of our study," the Northwestern professor writes, "is more significant and interesting than the discovery that the average intelligence of the so-called delinquent group is quite as high as that of the general student body. Students found to be delinquent were not interested in their work, and have to make good or be dropped from the roster. "The probationers," the investigator reports, "devote more time, as a whole, by their own confessions, to athletics, social activities, outside work, leisure, than do the freshmen; less time to sleep, campus activities, meals, classes and studies." Among the total group of men interviewed, 15 were thought to be handicapped by "mental immaturity." Commenting on this Professor Howard remarks: "These are boys who have, for the most part been reared under easy circumstances and who have never been required to view life seriously. Such students have a distinctly childish attitude toward their class-room work, have no intellectual interests, no definite ambitions, no sense of responsibility. In most of these cases, as might be expected, high school preparation has been superficial and inadequate." Illness, family troubles, and financial worries are among other causes leading to students being put on probation. Professor Howard drew attention to the comparatively high percentage of delinquent students, using his figures to illustrate the serious situation in American university life today.

SPLendid RECEPTION GIVEN CONSERVATIVES AT DUNDAS

Mr. J. D. Stewart Spoke in Addition to the Conservative Candidates and was Very Warmly Applauded.

There was a large gathering at the political meeting at Dundas on Friday evening. Mr. William McLeod acting as chairman. On the platform were Mr. J. A. McDonald, Mr. Leslie Hunter, Mr. J. A. Dewar, Mr. D. J. Riley and Mr. S. A. McLeod, Messrs. D. A. McKinnon, M. P., and D. E. Shaw were present in the interests of the Liberals and Mr. J. D. Stewart for the Conservatives. Mr. Riley was the first speaker and had evidently learned Mr. Leas' budget speech by heart as he repeated it almost word for word. Mr. John A. McDonald followed and received excellent applause with his splendid speech. Mr. Dewar spoke along the same lines as when in the House and asked for support. The audience were not duly impressed and shouted "Windjammer" and "Time served." Mr. S. A. McLeod who followed referred incorrectly to a statement made by Mr. McDonald at a previous meeting. Mr. McDonald immediately called him to order. McLeod then lost the theme of his discourse and after three minutes was howled down by the audience. Mr. Hunter, a Conservative candidate made an excellent speech and was given a fine hearing by his own people. It being his home district.

When Labor Rules

(By Dominion News Service) BLYTH, July 16.—"The integrity of the Empire as a whole will be in safer keeping in the hands of Labour when our party takes the reins of government than in the hands of those who are responsible for the chaos and misrule that permeates Europe today." So stated J. H. Thomas, M. P., the well-known Labour leader in a speech here. Continuing, he said that there is no evidence or justification that would warrant asserment equal importance to that which occurred here 150 years ago when the sailing ship "Hector" would suffer. In spite of the jeers against labour representation, to him labour representation was a Divine right, and he based his claim on the ground that brains were not a monopoly of any class. The day had arrived when men and women were taking to thinking things out for themselves, and thinking things out for themselves had resulted in their sending to the House of Commons a new type of politician.

HECTOR CELEBRATION IN FULL SWING AT PICTOU

Small Nova Scotia Town Mecca of Thousands of Visitors From all Over Canada and United States, Including Newspaper Representatives.

PICTOU, N. S., July 16.—The Lady Byng and the Vice-Regal party, "Hector" has weighed anchor and has swung out into the full stream. This quiet little town on the southern extremity of the Northumberland Straits is the Mecca for thousands from all parts of Canada and the United States. Every train over the Canadian National lines running into the town carries many extra coaches filled with passengers. Warships loom grey upon the harbor; motors pour into the town, and the white tent city on the hill beside the town is filling up rapidly. Among the most prominent visitors to the "Hector" celebration which opened Sunday, are a party of newspaper men from the press gallery at Ottawa, who with their wives and families left Ottawa by special Canadian National Railway train on Friday, it was Friday the 13th, there were 13 cars on the train and 13 members in the party when the train left the capital, though more were picked up along the way, but only good fortune has attended them so far. In the newspaper party is Mr. T. M. Fraser of the press gallery; he is more than a visitor, he is an honored son, for his great-grandfather came over on the "Hector" and his great-grandfather was the first child to be born to the pioneers after they made their landing at Pictou 150 years ago. Mr. Fraser is accompanied by his wife and daughter, Mona. Mr. H. E. M. Chisholm is also another visitor of more than usual consequence. Mr. Chisholm, a veteran of the press gallery has with him a silver stirrup drinking cup which was carried through the battle of Coloden and presented to Mr. Chisholm's great-grandfather by Roderick Mackenzie, of the tower of Fairburn, chief of the clan Mackenzie for services rendered him during that battle. Highlanders to whom this cup has been shown here have been most enthusiastic and declare it one of the finest specimens of cup they have seen. The newspaper party are honored and guests. Everything is being done for their comfort. Officers of the Canadian National Railway have combined with civic officials to make their stay a pleasant one, and they have been given the freedom of all the Clubs and other places of recreation. This morning Lord Byng and

A Church Dispute

(By Dominion News Service) NORWICH, July 16.—The Rev. Lee Elliot, Vicar of Blakeney, a fishing village on the north Norfolk coast, is in trouble with his parishioners. In fact he is in such serious trouble that the parishioners have made complaints to the Norwich Consistory Court and the rector has replied by applying to the Court for permission to do as he wishes. What he wishes to do is to assemble the existing public War Memorial Tablet and the private War Memorial Tablets in his Church in one place, and to put above them a Crucifix and two carved figures made in Oberammergau. The parishioners are not so much averse to the assembling of the various Memorials, but they strongly resent anything German being placed in proximity to them. "It is the biggest insult we could offer to our dead," they say.
