CHICKLESS FARMS.—Some of our farmers may have to carry on without their usual backyard chicken this year unless they make another effort to supply the deficiency. Complaints have been received by the Department of Agriculture that a number of farmers have not yet received the chicks for which they contracted early in the year. The trouble, according to the department, is due to the failure of the representative of one particular firm (outside the Province) to forward the orders on which a deposit was collected. The Minister of Agriculture reports that the matter has been taken up with the company, and efforts are being made to locate the representative.

The many friends of Madam Doyel will be glad to know she is improving in health after her recent illness.
