MARKED WITH BRAND OF CAIN

So Says A Priestly Member of the Duma of the Russia Ministry—Profound Discontent Expressed Over Governments, Refusal to Stop Military Executions

St. Petersburg, June 14 (Special)—The Duma was rocked and swayed by tremendous outbursts of passion this afternoon, evoked by scores of Government communications including War Minister Pauloff's refusal to cease military executions in the Baltic Provinces, and a cool request that the House expel a member who had been indicted for press offences, so that he could be tried.

The House emphatically refused to exercise the right of expulsion and after a violent scene passed a resolution expressing profound discontent with the Ministry. In course of the discussion the Ministers were called murderers and traitors. One priest said "It was marked with the brand of Cain and ripe for Divine vengeance."

TROUBLE COMING FOR RUSSIA

St. Petersburg, June 13.—A tempest is brewing in the lower house of parliament and it will break when Military Procurator Pavloff takes the rostrum as he is expected to do on Thursday, upon the reassembling of the house, to give War Minister Rudiger's explanation of the executions in the Baltic provinces. It is claimed that the evidence has been secured that the orders were issued to stop the execution of the eight men who were put to death May 29 for the killing of a police lieutenant, but that the order was deliberately delayed by Pavloff and the telegram arrived too late, although the execution to the last possible moment. The Socialist group intends to make a stormy demonstration and even conservative members of the constitution al democratic party are enraged at what they regard as new proof of governmental duplicity in another death sentence for an attempt to murder a Cossack which is reported from Revel. The constitutional democrats are also irritated by the discovery of a secret circular to governors ordering that the closest watch be kept over prominent members of the party and that their every movement be reported to St. Petersburg. An interpellation with regard to surveillance will be introduced.

BRITISH CABLES FOR CANADIANS

LONDON, June 13.—Writing to endorse the office of the Society for the Propagation of the Gospel to raise £20,000 to assist the church in the Northwest, the Bishop of Rupert's Land says that things are moving so fast there that an opportunity now unobtainable will be lost unless taken up at once. The governor of New Zealand wires the colonial office that all tinned meat supplied has been subject to a minute inspection by qualified veterinarians appointed by the government. Armour and company of Chicago offer to pay the expenses of a committee of the British Medical Association when in Toronto in August to go to Chicago, Omaha and Kansas City and inspect the Armour packing houses. The Armour asked a competent, disinterested inspection, leaving the report to the discretion of the doctors. The chapel of St. Michael and St. George will be dedicated in St. Paul's cathedral by the King on Tuesday. Among those allotted stalls are Sir Charles Tupper, Lord Strathcona and Sir Charles Rivers-Wilson. Henniker Heaton, M. P., informs the Associated Press that he expects the postmaster-general to announce a moderate reduction on the postage of newspapers and magazines to the colonies in a few days. In an eulogy of Lord Dufferin at the unveiling of the Belfast memorial, the Earl of Londonderry said that the secret of Dufferin's success in smoothing away the difficulties in Canada was by getting into the sympathy of those among whom his lot was cast. "This Canada of ours" was his favorite phrase and Earl Londonderry was certain that Canada could speak of him as "this Dufferin of ours." The Bristol Observer quotes a gentleman who lived several years in Canada in endorsement of a writer on Canada who says that Canadians today are the heaviest and strongest of the white races. The gentleman says he was struck when in Toronto by the number of tall, fine looking men. The average in Ontario in height was five feet eight inches, equal to the best in England.

FOR THE BAPTISTS AND ANGLICANS

LONDON, Ont., June 13.—For two hours the General assembly this morning fell into a sort of a deadlock. It was one of those occasions when great parliaments or conventions become nearly unmanageable. Dr. Falconer is doing exceedingly well and at the same time avoiding the manners of a dictator and to his credit he stuck to his guns though he may see some day that his decision was not strictly in accordance with the law. Rev. R. G. Macbeth, of Paris, after his first vote was taken on the amendment to Dr. Patrick's motion and declared lost, proposed a new amendment to refrain from sending an incomplete document like the "Basis" to the people for information until the scope had been widened to admit the Anglican, Baptist and other denominations into negotiations. President Forrest raised the point of order that the first amendment having no second amendment and defeated by vote the time had come to vote on the original motion. Both Drs. Campbell and Sedgwick, amid great excitement held that the amendment was competent. Blue Books were in many hands and general confusion prevailed, but the moderator has a calm and fair attitude and ruled liberally to allow the speaker to proceed. Dr. Holdman seconded the amendment and among other things said that the Methodists and Presbyterians in the west had a good deal to do in the way of decent treatment of each other while side by side before proposing to enter a corporate union. The vote was taken and about three to one the amendment was lost. This ended the first part of the report.

TO GIVE ANGLICANS AND BAPTISTS A CHANCE. The next resolution, moved by Dr. Patrick, was to enlarge the scope of the deliberations to admit Anglicans and Baptists. Principal McLaren moved in amendment that this be done at the present stage. He thought that it would not be a benefit to the parties, now fairly well started. Professor Dyde, of Kingston, spoke strongly for the motion. The whole report being put the house came to an almost unanimous decision to adopt it, thus the union committee is reappointed. What they have done is to be left to the people for information and a larger scope is made to open communication with other denominations. Minard's Linctment for sale everywhere. "Peter Pan" collars for ladies, only 25c. sent in. Moore & McLeod. 15d11.

Island is under arrest, charged with criminally assaulting Marquerite Marsh, a Newton girl, in his office last night. Cousins came from the Island fourteen years ago. He conducts a private hospital.

WOMAN FISHED BABY DROWNED

ROCKPORT, Me., June 12.—This afternoon Mrs. Melvin Hutchings went to Hall's wharf on the water front to fish for flounders, taking her seven months old baby in a go cart. Mrs. Hutchings was intently fishing when a sudden gust of wind rolled the go-cart off the wharf into the river and the baby was drowned, there being no help at hand. The body was recovered several hours later.

The Very Best Remedy for Bowel Trouble Mr. M. F. Burroughs, an old and well known resident of Bluffton, Ind., says: "I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as the very best remedy for bowel trouble. I make this statement after having used the remedy in my family for several years. I am never without it. For sale by all druggists."

Little Crystals Cause Rheumatism

It's the little uric acid crystals that have settled around and grate upon your joints and muscles, which cause the pain of rheumatism. Any physician will tell you this. When you get rid of these crystals, you've got rid of your rheumatism. That is plain. Why, they are carried around in the blood until they lodge somewhere else, and then you have rheumatism there. But supposing you have an ingredient, known as a solvent, which being taken into the blood, circulates through it and dissolves these little crystals. It is easier to get rid of them then, isn't it? And do you know, that is just exactly what the Japanese solvent in Kimo Tablets does? It dissolves these crystals. Then, other ingredients of the tablets stimulate the kidneys and they remove the dissolved crystals from the blood. And the rheumatism is cured, isn't it? It must be, for the cause has been removed. And the fact of most interest to you, if you suffer from rheumatism, is that this Japanese solvent is found thus far only in Kimo Tablets. It is this solvent which makes the cure certain, and it takes but one box to prove its worth. Remember now, you don't have to suffer from rheumatism.

Kimo Cures It.

FIVE BRITISH OFFICERS SLAIN

By Treachery of Native Villagers in Egypt, Believed to be the Outcome of Religious Fanaticism Stirred up During Dispute About the Tabah Boundary.

CAIRO, Egypt, June 14.—(Special)—A hamlet to shoot pigeons. The villagers surrounded the party, deprived the officers of their guns and then attacked them with bludgeons. The affair appears to be the outcome of the recent Pan-Islamic campaign carried on during the Anglo-Turkish dispute over the Tabah boundary. Five officers apparently on the invitation of a village official, went to

HOTBED OF PLOTS IS UNEARTHED

PARIS, June 13.—It is learned that not only the French Government, but the governments of other countries, are deeply interested in the discovery by the police of a hotbed of Anarchist schemes, that ramify through Ceuta, Perpignan, and Port Vendres, on the French side of the Pyrenees, toward and within the Catalanian frontier. The details are rigorously kept secret, but the fact has crept out. Discoveries of the greatest importance have been made, that have resulted in the taking of measures of preparation for the protection of certain notabilities. The centre of the precautions is Montpellier.

OTTAWA AND THE GREAT REVIVAL

OTTAWA, June 13.—The Torrey-Alexander mission opened in Dey's arena Thursday afternoon and judged by the enthusiastic interest shown, the large attendance, the powerful preaching and the admirable singing, the special meeting will be a great power for good in the Capital. Dey's rink where the meetings are held is excellently suited for the purpose and the acoustic properties for both the singing and preaching are highly satisfactory. The raised platform for the choir is at the western end of the rink while a raised stand in front is used by Dr. Torrey while speaking and by Mr. Charles M. Alexander in singing. In addition to the regular seats at the end and sides, over two hundred seats are placed in the centre of the rink so that there is ample room for a very large audience. The rain storm in the afternoon militated against the attendance, still there were about 2,500 people present and nothing was lacking in the way of interest. The afternoon audience included a party of eight from Rideau hall. Six thousand was a moderate estimate of a night audience. Manager Dey of the arena, who is used to sizing up hockey crowds, said there were 7,000 present, and many were turned away. It was a most auspicious opening and Dr. Torrey was greatly pleased with the prospects. The singing is going to prove a big factor in the campaign and the large choir at night responded splendidly to Mr. Alexander's baton.

SULTAN OF TURKEY A KHEDIVE

CONSTANTINOPLE, June 13.—Taking advantage of the visit of the Khedive of Egypt to the Sultan the Turkish Government is, in official utterances, making an effort to show the Sultan's complete sovereignty over the Khedive. Today's newspapers print an official notification reading as follows:— Abbas Pasha Hilm, Khedive, of Egypt, called at the Yildiz Kiosk in order to lay down at the foot of the imperial throne the most respectful expression of his absolute devotion to the Sultan. The Sultan deigned to receive him kindly. Afterwards the Khedive was permitted to withdraw to his apartment. This is considered the most provoking sort of anti-British demonstration.
