NO HOPE FOR VESSEL

(Canadian Press)
ST. JOHN'S, Nfld., Jan. 5.—Hope waned today for safety of the Burin schooner Martha E. and her crew of seven, as a Fisheries Department broadcast failed to bring forth any report of the vessel since she sailed from North Sydney on December 12. The Martha E.'s destination was Harbor Breton, a town on the Fortune Shore, on Newfoundland's southern coastline. Several storms have swept the Cabot Straits since she sailed in ballast. The vessel was commanded by Captain Peter Mullins of Jersey Harbor, who carried his two sons, Roland and Ran, as members of the crew, along with Fred Moore, of Jersey Harbor, Cook; Joseph Kingslow and his brother, of Red Island; and James Tobbo, of Harbor Breton, seaman.

Three resolutions slated for discussion Wednesday include one protesting curtailment of provincial Government grants to vocational schools in New Brunswick.

For India

(By the Canadian Press)—Challenging citizens of the United States as well as Canada to support the present policy of Great Britain in India, including the imprisonment of Mahatma Gandhi, Rev. Warren H. Wilson, director on the board of home missions of the Presbyterian Church in the United States, speaking at the home mission council today, declared that the British Government was doing its utmost to promote self-government in India.

"Though the recent imprisonment of Mr. Gandhi will bring many strikes, boycotting of British goods, violence and great injury to England's trade and commerce, India's government will carry on as usual, Mr. Wilson predicted.

England, he said, was allowing the Indian people to become autonomous as rapidly as was good for them. But the Indian Congress—the popular body—demanded that autonomy should be hastened and that complete independence be given India.

POWER RATES STATED UNSATISFACTORY

Injustice To Local Power Users Alleged at Trade Board Meeting.

A short council meeting of the Charlottetown Board of Trade was held last evening in the Board Rooms, President George J. Tweedy presiding.

The meeting was called chiefly to discuss two communications received by Mr. S. A. MacDonald. The letters, one of which was from Mr. Robert Smith, the other from Mr. F. McLure Scanders, related to the sitings of the Railroad Commission to be held in Halifax about January 11 and later in St. John. The letters stated that the governments of the Maritime Provinces were laying information before the Commission regarding means of economizing without reduction in service, the competition of busses and trucks and other matters relating to the work of the railroad. As the government have no organization to deal with the matter the Boards of Trade were assisting them. Nova Scotia had already prepared a brief which had been approved by New Brunswick. Mr. MacDonald stated he had sent for a copy of this brief to be presented to the local Government for their approval. It was agreed that the matter be left with Mr. MacDonald and that he reply to the letter received.

Mr. R. E. Mutch reporting for the committee to enquire into the power rates of the Maritime Electric Company, stated that the committee had conferred with a number of Charlottetown men who used a considerable amount of electric power. It was the general opinion that they were being unjustly dealt with in regard to power rates, especially since the electric rates on electric current for uses other than power had been reduced. In fact the a. h. d. of power rates now in use has been in force since June 1927. The committee drafted a letter to the Board of Commission of Public Utilities of this Province setting forth the matter. The letter is to be signed by five prominent power users of the city.

Secretary Higgins read a communication from the Moncton Board of Trade enquiring whether or not the Charlottetown Board were pressing for air mail service and if they required any assistance.

It was agreed that a copy of the letter sent to Ottawa regarding the service be sent the Moncton Board and ask their support.

Margin Higher

MANCHESTER, Eng., Jan. 5.—(By the Canadian Press Cable)—The margin of tariff protection accorded to Canadian cotton mills by the Canadian Government is higher than necessary, according to the report of the home and overseas dominions section of the Manchester Chamber of Commerce presented at the annual meeting of the section today. The report declares the drop in Britain's trade with Canada is due to three factors: The Canadian tariff, the development of Canadian industry, and competition with other countries. "The tariff has been and still is the greatest obstacle," the report says.

Gov't. Closing In On Indian Leaders

Emergency Ordinances Have Been Extended To Four Important Cities And To The Entire Madras Presidency.

(By James A. Mills, Associated Press Staff Writer)

BOMBAY, Jan. 6.—(Wednesday)—(A.P.)—Emergency ordinances have been extended to four important cities and to the entire Madras Presidency, and early today the government began rounding up leaders of the Indian Nationalist Congress in meeting the civil disobedience campaign.

The outlawing of the all-India National Congress party, led by the jailed Mahatma Gandhi, and a ban on all contributions to its funds, as well as stringent repressive measures against demonstrations and peaceful picketing, were among the ordinances included.

Bombay, Calcutta, New Delhi, Ajmer and Rajputana, are the cities affected. In Calcutta alone, forty-five organizations were placed outside the law by the extension of the emergency ordinances. Numerous arrests have resulted from the application of the government's ordinance.

DEMOCRACY IS WARNED

(Canadian Press)

WASHINGTON, D. C., Jan. 5.—Democracy was warned tonight by chairman John J. Jaskob of the National committee to find a common meeting ground on prohibition or face a north and south split or a third party.

In a letter to members of the democratic national committee, he advanced as a solution a constitutional amendment providing for state control of liquor, which he has proposed under the title of a "home rule" plan.

Talking later with newspapermen, however, he emphasized that he would not ask the committee at Saturday's meeting to commit itself on this or any other issue. He said, though, the prohibition question was bound to come before the national convention.

The manager of the 1928 presidential campaign of Alfred E. Smith also told newspapermen that no one could say he was interested in any single candidate. He added he particularly wanted to avoid any party "oligarchy."

Castling tradition aside, Raskob favored the Democrats having their convention ahead of the Republican meeting, scheduled for June 14. He proposed that the Democrats "ignore the Republicans; adopt a brief platform, touching all vital issues without the usual wherabouts."
