*Nuxated Iron Helps to Spread Health and Strength to 3,000,000 People Annually. Get Your Share!*

When you think of the successful men and women you know—people who are doing things worth while—you will find that they possess force, vim and energy—the kind that simply brim over when the blood is filled with iron.

Iron is red blood food—it helps put strength and energy into the veins of men and roses into the cheeks of women.

A prominent New York Surgeon and former Adjunct Professor of the New York Post Graduate Medical School and Hospital, Dr. Kenneth K. MacAlpine, says: "If people would only realize that iron is just as indispensable to the blood as is the air to the lungs and be just as particular about keeping up a sufficient supply at all times there would, in my opinion, be far less disease resulting from anaemic, weakened conditions. In my opinion, Nuxated Iron is the most valuable tonic, strength and blood builder any physician can prescribe."

**MANUFACTURERS' NOTE:** Nuxated Iron, which has been prescribed and recommended by physicians and which is used by over three million people annually is not a secret remedy, but one which is well-known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated and does not irritate the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser at the price they will refund your money.

Dear Lorne:—We, your friends and neighbors, are proud to welcome you back to this your "Own" and "Native Land". Your family has won honorable distinction for having made such a splendid response in the hour of your country's need. When the clarion trumpet, of war sounded all four brother quickly donned the "Khaki" and went forth where duty called. Although you did not go to France you chose a no less hazardous and important task in that branch of service with the "Grand old British Navy" which kept her silent watch upon the waves, and contributed so largely in bringing about a successful issue, and final victory.

We are delighted to receive you back again, and are thankful that you and your three courageous brothers were all spared to see the end of the conflict, and the triumph of the cause for which you were willing to make such a noble sacrifice. We offer this small gift not as a reward for services done, but as a constant re-

**Reparations Considered**

(Special to The Guardian)

PARIS, March 31.—When the Big Four resumed its sessions today the question of reparations was expected to be the principal subject of discussion. An effort was to be made to dispose of this problem which is understood to have been chiefly instrumental in delaying the peace work. During the past week Premier Lloyd George, it was learned, was prepared to offer a substitute for the French plan presented last week which proposed that France's share of indemnities be sixteen trillion dollars.

A prominent financial expert said today the Big Four had obtained the advice of several financiers in the matter and that he understood that French proposals had been headed off. While the informant did not reveal the exact nature of the financiers' advice he indicated that President Wilson and Lloyd George felt that sixteen trillion dollars was excessive, in as much as from twenty-five to forty billion dollars have been practically agreed on as the maximum of reparations. He added that the situation is such that the French cannot expect to get an excessive amount.

**AN INFALLIBLE SIGN OF SPRING.**

NEW YORK, March 29.—The gilded statue of Diana, from her lofty stand atop the Madison Square Garden tower, knew that spring was here when she looked down into the great amphitheatre to-day and beheld the red wagons, the saw dust covered arena and other evidence of the arrival of the circus. To-morrow the great show, bigger, brighter and more bewildering than ever, will begin the customary two weeks' engagement in the metropolis, preliminary to its season on the road.

The beginning of the present season will mark an epoch in the circus business in America. For the first time within the memory of the present generation of small boys and also many of their elders there is to be no separate tented aggregations touring the country under the old familiar names of Ringling Brothers and Barum & Bailey's Greatest Show on Earth. Instead, there will be but one big circus, representing a merger of the two older shows. Increased taxes and increased rates of transportation are said to be largely responsible for the decision of the owners to put out only one circus this year.

Reminder of the fact that your action was not unnoticed, and your valor was fully appreciated.

Signed on behalf of your friends and neighbors in New Glasgow and vicinity.

**WOMAN SAVED MUCH SUFFERING**

By taking Friend's Advice and Lydia E. Pinkham's Vegetable Compound.

West Plains, Mo.—"I was all run down in health, had indigestion and terrible cramps every month so I was unable to do anything. I had tried every doctor in West Plains, also every remedy I could think of, without relief. One day when I was suffering greatly a friend was at my house and said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound?' So I did, and through it, I found relief from my suffering and I really believe it saved my life. It does not seem as though I can say enough in praise of this wonderful medicine for the health it has brought me."—Miss CORA LEE HALL, West Plains, Mo.

Perhaps it may seem an extravagant statement to say that this great remedy saved a life; but women like Mrs. Hall, to whom it has brought health, appreciate the danger and suffering they have escaped too well to doubt it! All who suffer should try it. Why risk life and health without it?
