Tells How to Stop a Bad Cough

Surprising results from this famous old home-made syrup. Easily prepared and costs little.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness or difficulty breathing, or if your child wakes up during the night with cough and you want quick help, try this reliable old home-made cough remedy. Any druggist can supply you with 2½ ounces of Pinex (50 cents worth). Pour this into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes 16 ounces of really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief. You can find this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing. Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds. There are many worthless imitations of this mixture. To avoid disappointment, ask for 2½ ounces of Pinex with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

Abbies Won From Saints--8 to 4

The Abbies beat the St. Dunstan's 8-4 in a good exhibition of hockey last evening. The Saints furnished a surprisingly strong team and for two periods it was anybody's game. The first period opened with the Saints doing most of the forcing and winning applause for their exceptionally good work. They made the first tally which the town team soon duplicated. Long runs by Sanschagrin of the Saints and Gordon of the Abbies featured this period and Gordon's break saved the situation time after time. The first period ended 2-2.

The second period was fast and furious and of the see-saw variety. It was marred by slashing and checking to the boards. Williams of the Saints who worked and played like a trojan throughout was much in evidence during this period. Purcell of the Abbies was a tower of strength to his team during this session his blocking and clearing of the net in dangerous pinches leaving nothing to be desired. The period ended 5-4 in favor of the Abbies.

In the third period the Saints appeared to tire, their substitutes not being in the same class as the wearers of the red and black. The Abbies notched three more goals and the game ended 8-4. For the Abbies Gordon was easily the star of the forward line with Purcell doing the bulk of the defence work. Kinsman in goal gave a splendid exhibition of stopping.

For the Saints Williams' work was of the stellar variety, while Callaghan and Sanschagrin made up a defence very hard to beat. The teams lined up as follows:—
ABBIES
Howatt Goal
Kinsman
Sanschagrin Left defence
Campbell
Callaghan Right defence
Purcell
Williams centre
McEachern
McDonald left wing
Burnain
Arsenault right wing
Gordon
SUBSTITUTES

The game between the second Abbies and Saints resulted in a victory for the Abbies 6-3. The Guardian has been asked to state that the team that defeated the Millionaires 6-2 in Amherst on New Year's day was not the same as the team which the Abbies tied 7-7. In addition to the Stewart brothers the Ramblers played Lowther and Brundage when they defeated the Millionaires and also Twaddle. Lowther needs no introduction to the Charlottetown public while Brundage is the star of Mt. Allison.

lish-speaking world. Undoubtedly the necessity for increased production of all foods has been a great factor in this awakened interest, but before this necessity arose the wave had begun, so that it increased rather than started it. While there are a great many factors more or less responsible for the awakened interest, the greatest of all has undoubtedly been Laying Contests.

The primary value of laying contests undoubtedly was the advertising and stimulus they gave to the breeders who entered their flocks, but the greatest value to the poultry industry was and is the public attention that they have attracted to the production end of poultry keeping and the establishing of confidence in records made under public supervision.

The shows and exhibitions that had been held in the past attracted attention and stirred interest from the love of beauty of form and feather, but with the coming of the Laying Contests the general public—the keen business man and the dissatisfied city worker realized that here was a business that was more than a fad, a hobby, that here was a business capable of returning a good profit on investment or a good independent living.

The man of means invests in a farm, employs an experienced poultry man and goes into the business. The city worker has not sufficient capital for this, so he starts a small back-yard flock, learns how to handle it with profit, gradually expands, looking forward to the time when he can stop his city work and depend entirely on poultry for a living. It is this awakening of public interest in poultry production that has so far been of first importance but while this, no doubt, will continue ultimately the greatest value will come from the establishing of records of performance that will be above reproach. In the past, records have been published that were made solely under the supervision of the owner. Many of these needed to be taken with a grain of salt, but when records are made in public contests, government supervision creates a confidence that is not felt in home records. With the establishing of an Official Record of Performance, the door to breeding for greater egg production will be opened in a way that has never been possible before. With a view to stimulating interest in production, the Dominion Experimental Farms have established Egg Laying Contests throughout Canada. The first of these was started at Charlottetown, P. E. I. on November 1st, 1918, and created so much interest in that province that on the following Novem-

ber 1st, six other contests were started as follows:—
The Canadian Egg Laying Contest at Ottawa with fifty pens competing. Federal contests of twenty pens each at Nappan, N. S., Cap Rouge, Que., Brandon, Man., Indian Head, Sask. and Lethbridge, Alta.
These latter, while not strictly confined to the provinces in which they are held, are intended to be more or less of a Provincial nature, while the Contest at Ottawa is international in scope.

It is expected that next year not only will the capacity of the present contests be increased, but that new contests will be established in other districts throughout Canada. GEORGE ROBERTSON, Poultry Division, Experimental Farm, Ottawa, Ont.

naval decorations. The sub-committee intends to finish this phase of the inquiry before starting a general investigation of the navy opened up by the sensational charges, contained in the letter of Admiral Sims. Administration senators are getting ready to give Admiral Sims a severe grilling when he appears before the committee again. It was reported they were preparing an exhaustive list of questions to ask him on cross examination and that he will require to prove his charges. The Admiral it is understood is preparing to bring forward proofs.
