The Best Liberal Element Wants MacKenzie King in Opposition

"These Women"

BY MALCOLM DUART (Continued) CHAPTER XXXVI

Audrey looked at him inquiringly. "It's been two years since you left boarding school," Morton said. "Don't you miss your old friends here?"

"Daddy," she said finally, "I'm ages older than those girls now. I wouldn't know what to say to them."

AVOIDED AN OPERATION

Mrs. Dayman Gives Lydia E. Pinkham's Vegetable Compound the Credit

Colborne, Ontario. - "When I was first married I was very thin and weak. The doctor said I was weak and would never be able to have a child, but I did, and from the time my baby came I suffered all the time and doctored and took medicine. Life became a burden, and doctors said an operation could help, but my husband was opposed to that. I had seen Lydia E. Pinkham's medicine advertised, so I told my husband that I thought I would try it, that I might get some relief."

"No, I've decided on my proper place in society. Those old cats who came to see me about you have disgusted me with THIS crowd. And the girls from school are in-laws and owe my good health to Lydia E. Pinkham's Vegetable Compound. I take a bottle when I think I need it."

Mrs. STANLEY DAYMAN, R. R. No. 5, Colborne, Ontario.

RED PIMPLES ITCHED BADLY

Neck and Chest Broken Out. Cuticura Healed.

"My daughter's neck and chest were very badly broken out with red pimples that festered and itched badly. She scratched the affected parts and caused the trouble to spread. At night she could not sleep, and the breaking out caused discomfort."

He told her with droll commentaries, of his adventure with Mr. and Mrs. Carver, and of the lady's insistence that her husband should institute divorce proceedings. Audrey listened gravely.

"That isn't it," she contradicted him calmly. "She really was attracted to you," she told him. "I know the feeling. If women can't get the notice of the man they like by smiling at him they're apt to do crazy things, so he'll look at you. If she thought she could get your attention by standing on her head, she'd have done that!"

"You said I was like my mama," she said. "If you couldn't marry her, wouldn't I go - if only as a substitute?"

"You are going out to be a wild woman and vamp men and crush them?" he enquired, dipping into his grapefruit.

"They were on a farmhouse holiday, and after the very first night Smith rose early and in a very bad temper. 'I've had practically no sleep,' he complained to his wife. 'Those beastly roosters have been crowing out there in the barn since dawn. Heaven knows why!'"

That Car Of Yours

By WILLIAM ULLMAN

Heart-to-Heart Talks With Automobile Owners and Drivers on How to Get the Most Out of Their Cars at the Least Expense.

ANOTHER TWO-WAY RULE

There is a striking similarity between new automobiles and second-hand ones with respect to their care and attention. Each has to be broken in, and that carefully. There is hardly a rule in the breaking in of new cars that will not produce valuable results when applied to the second edition of service.

BREATHER FOR BATTERIES

A battery is capable of greater discharge if it is permitted to rest at intervals. In regard to starting the engine, this is a handy thing to know because the starter takes the heat the battery has to offer. Thus, if the engine does not start in a few turns, stop for about a half a minute and then step on the starter button again. The battery recuperates enough in so short a time that it is able to deliver a much stronger current for the next few turns of the motor. This snappy cranking is what counts in starting.

SAY GOOD-BYE, THEN GO

Just how much fuel is wasted by the practice of starting the engine and then beginning a conversation is difficult to calculate, but it certainly represents a tremendous total of lost gasoline. The book of etiquette claims that when a guest has reached the point of holding the knob of the door handle he ought to make the farewell as brief as possible and be on his way in. "See us raised," he inquired, "wouldn't that stir this old town make an avoirdupois and cranking simultaneous."

QUIETING NOISY GEARS

Gears unfairly treated, or poorly made to start with, will develop irregular growling and clicking noises. Gears that are spaced poorly or carelessly shifting will make this sort of unpleasant sound. Except for question the best remedy is a different grade of lubricant. This will have all cases, obviously, an effort should be made to keep out of the noisy gear combination as much as possible.

WHAT THE SPRINGS DO

Springs, in bending, contracting and expanding, are subject to wear. They should be inspected regularly. If they are found to be worn, they should be replaced.
