CABARET SHOWS IN MONTREAL

MONTREAL, May 16.—Mayor Martin decided to cut the gordian knot of legal proceedings that has enabled five restaurants, including four cabaret shows, to continue open despite the fact that the License Commission has refused them a license. The tangle was caused when the refusal of the License Commission to grant licenses was thrown out by Judge Charbonneau, because a copy of the finding was given to the newspapers before it was delivered. The Attorney-General's department appealed against Judge Charbonneau's judgment and the licenses were again refused. Pending the result of the appeal, however, the restaurants continued in operation. Mayor Martin has now ordered the Chief of Police to summon the owners of the restaurants to appear in the Recorder's court for selling liquor without a license.

C.N.R. DEBATE DROPPED BY CONSENT FOR THE DAY

Saturday's Session Quiet. Majority of Members Off for Holiday.

LIBERALS ARE STILL DIVIDED

Laurier and Graham Have Criticized but have no Solution to Offer.

Progressive Liberals Disgusted With Reactionary Stand Taken by Leaders.

(From Our Own Reporter.) OTTAWA, May 17.—Saturday's sitting of the House was almost peaceful. By agreement between the two leaders it had been decided to drop the C. N. R. debate and devote the day to non-contentious political games, slipped out to the golf links or took a holiday jaunt. A few faithful never more than a quorum stuck at their post and five Bills, all of a more or less minor nature, were advanced another stage. The C. N. R. debate will be continued tomorrow and the first vote will come Tuesday on the motion of Mr. E. M. MacDonald for a six months' hoist. This will dispose of the resolution. The Bill will then be given a first reading. The next fight will be on the second reading and in committee stage.

That the Liberals are about as divided on the C. N. R. question as on the tariff is admitted. Laurier and Graham have given the rank and file nothing to enthuse over or cheer about. They have criticised the agreement but they have nothing to offer as a solution other than the 30-year-old solution of the C. P. R. problem of 1884—loan them the money. The country has passed that stage. It demands something substantial in return for further aid and this is what the Government has secured. The few progressives in the Liberal party, and they are not numerous, are openly expressing disgust at the reactionary stand taken by their two leaders. They would like to be supported by Bennett and Nickle and to throw in their lot with the bull-moosers. The two dissenting Conservatives have the advantage of not only criticising but of endeavoring to formulate a constructive alternative policy. Mr. MacDonald's motion is frankly a compromise between the two wings of the party. He gave no reasons for a six months' hoist. In view of the stand of the two Liberal leaders that aid should be extended and the road must be continued.

WOULD SELL 5,000,000 ROSES.

LONDON, May 16.—Queen Alexandra Day, which has been arranged for June 24, will be celebrated this year on an even greater scale than before. The aim is to sell 5,000,000 wild roses, which is Queen Alexandra's favorite flower. There will be sub-committees in 300 centres throughout the whole Kingdom, compared with seventy-two last year. The women who will invade the streets as sellers of roses will be dressed in white, with white or light colored hats trimmed with wreaths of the emblem of the day, their own contribution to the fund.

CANDIDATES WITH PUSH ARE PILING UP VOTES

The First Great Period in the Great Contest Will Close Next Saturday Night. New and Active Workers Are Developing Each Day, and the Spirit of Determination is Shown; All Should Get Full Benefit of the Present "Booster Period"

It requires some work on the part of your friends to cut the coupons out of the paper each evening and bring them to the office and it is only in justice to your friends that you should bestir yourselves and see if you can not win the first prize and not spend your spare time idly and allow your name to fall when it is within your power to prevent it. The contest manager and his assistants are here to help you in any way possible. These are the days that every live candidate is busy hunting in every nook and corner for subscriptions. Most everyone is meeting with fair success. So far the race has been very even and it is a great question in the mind of the contest manager who the real workers in this great campaign will be. Each day there emerges from the large list of names in the paper, new workers and although these people have had a late start they seem to have the right motto. These are the people that will win the prizes. If some do not wake up and get busy. O'clock closes the first epoch in this great campaign. At the end of that time one must be in the lead of the other contestants. Are you going to be one of the tail-enders? There will be a great many in this class and it is safe to say that 99 per cent. could have been close to the lead if they had made the best of their time. Stop and look at yourself as others see you. Remember every candidate who does not get a prize but who gets subscribers gets re-energized. Are you doing your best to win the grand prize? When your friends nominated you in this campaign, it was their object to see you crowned with one of the greatest honors ever presented in your country. Did you ever stop to think how many people are interested in your

OFFICE OPEN EVENINGS.

The office of the contest department will be open evenings until 8 o'clock and if there is anything that you do not understand call at the office at any time and it will be explained to you. It has been the desire of the contest manager to see everyone in the contest but time has not permitted. It is his wish that all candidates call at the office as there are things that could be explained that would be of great benefit to them.

DON'T FORGET SATURDAY.

All candidates must remember that they must get in their subscriptions for 8 o'clock Saturday evening in order to receive the big vote. Don't think that Monday will be just as good for it will not. Don't leave a stone unturned to get a subscription between now and Saturday night. One single subscription may be the means of your winning the Grand Prize, if it is turned in by the above date. Telephone for information or suggestions.

HUMBLE COTTAGES LATEST FAD

LONDON, May 16.—It is an anomaly of these times that one of the latest results of the excess of luxury is the desire of the rich to live in the cottages of the poor. The fashion is not for the new and charming cottages, in which some of the best architects are specializing, but for the old timbered, tumble-down homesteads from which possibly some long established family is evicted. Three or four thousand dollars is spent in repairing the humble home. Old oak doors are put in with silver hinges as in the cottage of a well-known actress, a bathroom is added and priceless old pieces are fitted into rooms that are so low that one can hardly stand upright in them. The potato patch is then transformed into a fashionable orchard and expensive Dutch bulbs are planted round about it. Tiny latticed windows, blackened beams and old ironlooks once the property of some laborer, are now collected to satisfy the cravings of the rich for an old cottage. With an old cottage you are in the swim. Once there, why there's nothing else in life to strive for.

BURGLARS BLOW UP SAFE POST OFFICE

PENTICTON, B. C., May 15.—Under cover of a heavy rain storm which swept the city during the early hour yesterday morning burglars forced an entrance into the post office, blew the safe and escaped, getting \$6,000 worth of blank post office receipts and registered packages worth \$900. They also took a register of packages consigned to the branch of the Canadian Bank of Commerce which contained \$5,000, mostly in bills of ten dollars denomination.

At the convocation exercises of King's College, Windsor, N. S., on Thursday, President Powell announced that at the Board of Governors' meeting the night before, it was decided to undertake the establishment of a residence for college girls. In response to a telegram the Government Steamer Minto was despatched to their aid today. Some of the schooners are in danger of being crushed by ice floes.

EXCLUSION OF SIX COUNTIES ONLY THING TO AVERT WAR

LONDON, May 15.—"When we get the home rule bill through the Premier can whistle for his amendment bill. We cannot agree to exclusion upon any terms which make it permanent. We consider the Premier took too much upon himself when he suggested that he will persevere in the amendment bill whether there is an agreement or not." This threat was made by John Redmond in the lobby to the Glasgow Herald representative, who says "What the Nationalists most fear is being sold at the last moment." From the Parliamentary standpoint, it is generally conceded that Asquith has played a skilful tactical move, but from the practical standpoint the situation seems more complicated than ever. The note of pessimism which marks the editorial comment is also blended with a pleasing tone of moderation. Thus the Times, while asserting that there is no improvement in the general prospect since the fixed determination to press the bill depreciates the confidence of the amendment bill in advance. It recognizes that Asquith is in an extremely difficult position and that the issue is too serious to regard as a merely party one. It also enjoins the Unionists, so long as the door is open, to a settlement to be careful to keep it open.

AKREST FOURTEEN YEAR OLD GIRL AS WITNESS AGAINST WHITE SLAVERS.

MONTREAL, May 16.—Defective Foucault yesterday morning placed under arrest a fourteen-year-old girl wanted as a witness in a white slave case in Ottawa in connection with which a man has been taken into custody. The girl was arrested at the Place Viger station as she was boarding a Quebec train. Though only fourteen, she is said to have been an inmate of a disorderly house in Ottawa and she was given money to get out town. The arrest was made at the instance of the Ottawa police.

TWO SHOT AT DANCE AT C. P. R. HAMLET NEAR NORTH BAY.

NORTH BAY, Ont., May 15.—Woman River, a small hamlet on the C. P. R. main line, 200 miles west of North Bay, was the scene of a tragic shooting affray last night, which resulted in two men being shot to death. A public dance was being held and it is said that considerable liquor was consumed by the male dancers, with the result that a free fight occurred. John Chapman, of L'Orignal, and Oessee Fortin, of Woman River, drew guns and began shooting at each other. Both men were shot dead.

FIRST MACKEREL ON NOVA SCOTIA COAST.

YARMOUTH, May 15.—Mackerel are very backward this season. All the trawls that are usually out in this section are out, but as yet, no fish have been stopped. One mackerel has just been secured in a net at Tusket Islands, and is the first to be stopped in the Nova Scotia waters this season. Lobster fishermen continue to do well, and the good weather is a great benefit to them. This afternoon the steamer Boston sailing for Boston took 550 crates.

SENSATION IN TURF CIRCLES.

LONDON, Eng., May 16.—A tremendous sensation was created in turf circles recently when it became known that the famous unbeaten race horse, Tetrahis, favorite for the Derby, has sustained injury to the leg and that Trainer Perrot had advised Captain D. McCalmont, owner of the horse to search it from the Derby list of entries. The announcement of the injury to the speedy three year old, came in such a way as to suggest the suspicion that the horse had been purposely injured, by some one interested in the outcome of this classic turf event on May 27. Private detectives are reported to have been hired to investigate the circumstances. For weeks special guards have been employed to watch the quarters in which Tetrahis is stabled to insure the horse's safety.

MEAT SCARCITY IN ENGLAND ALARMING

LONDON, May 16.—England is anxiously looking over her sources of meat supply and wondering if fresh foods are soon to be denied her. Meat's mounting in price. There is today much public discussion of the meat question. Meat dealers are almost a unit in predicting that their commodity will soon cost Britishers even more. The causes for it are world-wide in their operation. The world's population is increasing, and the number of meat-eaters is increasing in a greater ratio than the population. On the other hand, the areas which furnish supplies are becoming more restricted every year. Most of them have been already occupied.
