Death Sentences Commuted To Imprisonment

(By Carter L. Davidson)
JERUSALEM, Aug. 20—(AP)—Death sentences imposed on 11 young men of the underground Stern gang for sabotage were commuted today to life imprisonment by Lt.-Gen. Sir Evelyn Barker, British commander in Palestine. The underground had threatened reprisals if the sentences were carried out. Gen. Barker's action was announced as British troops suddenly searched Latrun detention camp for hidden arms and blocked all roads to Tel Aviv after reports of an impending "suspicious action" possibly an underground attempt to free 500 British detainees at Latrun. The camp was cordoned off while soldiers searched the neighborhood. Large-scale searches and identity checks were made also in Tel Aviv, Ashdod, and other towns. U. S. Radio Station Set Up In Berlin

BERLIN, Aug. 20—(AP)—Having failed in many months' effort to gain a share with the Russians in the control of Radio Berlin, the American Military Government announced today it has set up its own radio station here to broadcast to the German people. This medium-wave station scheduled to begin operation about Sept. 1, will have one kilowatt power against the 100 kilowatts of Radio Berlin. But its power is estimated sufficient to be heard throughout greater Berlin and probably for a short distance into the Russian occupation zone.

Army Prejudice Must Be Dispelled Says Monty

(By JACK BRATLEY, Canadian Press Staff Writer)
OTTAWA, Aug. 20—A serious talk that likely touched vital commonwealth defence problems was given here today before headquarters officers of the three armed forces by Field Marshal Viscount Montgomery as he made the only "strictly business" departure from a tour that is mostly ceremonial in character. Last night he spoke of the possibility of another war and the consequent need for preparedness and today he told reporters at his first press conference that any prejudice against the army must be dispelled and the soldier must be fitted into the fabric of the community. He is understood to have elaborated on these general remarks in discussions with chiefs of staff and at the off-record talk to the 200 officers.

Major Battle Seen As Result Of Russian Action In Rejecting Applicants

(By The Canadian Press)
LAKES SUCCESS, N.Y., Aug. 20—Soviet Russia refused today to accept Trans-Jordan. Eire and Portugal into the United Nations because they do not maintain diplomatic relations with the Kremlin. This started a fight which since certainly will be one of the major battles of the forthcoming general assembly. Paul Hasid, spokesman of the United Nations, said today that the U. N. security council late today had given clearance to only three applicants—Afghanistan, Iceland and Sweden. The United States stood by its opposition to Albania and Outer Mongolia. Andrei A. Gromyko, Soviet delegate, said today that he had made himself clear and that he had nothing to add. The council president, Dr. Elio N. Van Kleeff, then the Netherlands, served notice that he reserved the right to discuss the question in the assembly. Hershell V. Johnson, the United States delegate, said today that he had no objection to the applicants but that his reason was not taken into account by the council. "It is a Russian reason," Mr. Johnson said. The council closed its consideration of the eight applications today. The council president, Dr. Elio N. Van Kleeff, then the Netherlands, served notice that he reserved the right to discuss the question in the assembly. Hershell V. Urges Experiments In Lobster Conservation

(By The Canadian Press)
OTTAWA, Aug. 20—(AP)—A 100 new opportunities. Quebec's fishermen had lost certain benefits by being placed under provincial autonomy. All other provinces benefited from Federal legislation. But Quebec's fishing men suffered for the sake of the fight against purported centralization. Mr. Langlois objected to restrictions and limitations on the marketing of fish. It should be possible to work out a system of regulating quantities for both domestic and foreign markets. N.S. Fishery Problems. W.L. Macdonald (L-Halifax) said two problems faced Nova Scotia fishermen—first, destruction of nets by forest vessels and second, conservation of the fish population. The first was an old problem. A royal commission some years ago recommended the action of "outsiders" who had "ruled" the catch of Cumberland Strait fishermen by setting up traps at the mouths of its small rivers. Leopold Langlois (L-Gaspé) commended "the injection of blood into the ranks of fisheries inspectors. He was pleased that veterinarians would get preference in the

(By The Canadian Press)

The report said no reason was given for the arrest. It identified the Yugoslav as "Mr. Antonovic." Passau is on the Danube River, on the German side of the border. The report followed by a few days allegations by London Yugoslav sources that the United States was withholding from Yugoslavia some \$100,000,000 worth of her Danubian shipping.

Up Orange Prices To U. S. Level

(By The Canadian Press)
OTTAWA, Aug. 20—(CP)—The Prices Board announced tonight that effective immediately the price of oranges in Canada will be brought up to the level set by the United States Office of Price Administration, plus transport charges and mark-ups. A Board announcement said the action was necessary to assure that Canada received an adequate supply of the fruit. The increases were not expected to result in higher prices than those prevailing in June, since the adjustment is offset by savings resulting from exchange parity of U.S. and Canadian money. The announcement explained that Canadian and U.S. prices for oranges had been fixed at the same level until O.P.A. ceilings were suspended last June 30. These ceilings were re-imposed July 25 and on Aug. 22 the U.S. price was increased by 37 cents a standard case.

(By The Canadian Press)

Fifteen Germans were arrested.

Donny Fourth Application For Bail

(By The Canadian Press)
MONTREAL, Aug. 20—(CP)—A fourth attempt to have bail granted for R. Ecol Rowley, Canadian director of the United Textile Workers of America (A.F.L.) and Azelus Benouage, Valleyfield organizer of the union, both charged with illegal actions during strike disturbances at Valleyfield, ended in failure today when Judge Edouard Teller denied the defence motion following the preliminary hearing. The two union officers, charged on four counts of rioting and inciting an illegal assembly, in connection with the 13-week-old strike at the Valleyfield mill of Montreal Cottons, were remanded to Sept. 4 for voluntary statement. Defence counsel Jacques Perreault, in the latest application for bail, invoked section 696 of the Criminal Code which states that the judge may commit the accused parties to bail if the presumption of guilt is not strong enough to warrant a commitment to trial. This may be employed in cases where potential sentences do not exceed five years.
