## STONE IN KIDNEYS

The Terrible Affliction of a Well-known Citizen of Ottawa.

Mr. Sam Cassidy Tells the Story of his Awful Experience, and Explains How he was Extricated from his Dangerous Predicament

OTTAWA, Ont., Oct. 25.—(Special).—For years Mr. S. A. Cassidy has been a martyr. The pain he has endured cannot be described in words. To-day he is well.

So many people have been asking him questions that he decided to satisfy everyone by publishing in the Ottawa Citizen a letter giving the full particulars of his cure.

The letter read as follows:—  
"I want you to publish for the benefit of others who are suffering as I have suffered about how I was cured of Stone in the Kidneys.

"My friends all know that I have been a martyr to this disease for years. They know that beside consulting the best physicians in the city, and trying every kind of remedy I could think of, I was unable to get better. Some time ago a friend told me that Dodd's Kidney Pills would cure me. As a last resort I tried them and they have cured me.

"This is the first year in a great many years that I have not been confined to my bed with the disease.

"I could not imagine more severe suffering than one endures who is afflicted with Stone in the Kidney, and I feel the greatest gratitude to Dodd's Kidney Pills.

"Anyone who has suffered need suffer no more, for Dodd's Kidney Pills will cure them.

It is impossible to estimate the impression this wonderful case and its miraculous cure has made on the people here. Men and women are asking, "If Dodd's Kidney Pills can cure such apparently incurable cases, what will they not cure." It is a revelation to even the physicians.

## WANTS, LOSTS, FOUND, ETC

TOLLET.—Large's Hall, Queen St. Apply to Large's Livery.

WANTED.—An experienced girl for general household work. Apply to Mrs. W. F. Carter, Queen Street.

## BORN.

At Kinross to Mr. and Mrs. A. J. McLeod on Oct. 24th., 1901, a son.

## MARRIED.

At the manse, Georgetown, P. E. Island on the 22nd, Oct., by Rev. A. W. K. Herdman, George Yoston of Georgetown, to Mary J. Crossman of Charlottetown.

At Pleasant Grove, on Oct. 24th, by Rev. D. D. McLeod, M. A., Charlotte, daughter of Mr. Uriah Matthews to Mr. Frederick McDonald of Charlottetown.

## DIED.

At Little York on October 25th, Mabel R. Brown, aged 17, daughter of Pbeneser Brown.

At Red Point on the 24th inst. Eliza A. daughter of Mr. George Harris aged 22 years.

On Oct. 26th, Ashleigh Erie, age 4 months and a half, son of E. Hildreth and Minnie A. Duchemin.

"Of such is the Kingdom of Heaven."

In this city, on Saturday, Oct. 26th, John George Eckstadt, aged 77 years. [Funeral to day at 8.45 a. m., to St. Dunstan's Cathedral.]

## WHERE THEY GROW WHEAT.

Manitoba Sends Good News to all Sick and Suffering Ones the World Over.

OAKVILLE, Man., Oct. 23.—(Special).—Since the publication of the story of Frank Colleaux, of Oak Lake, much attention has been directed to some similar cases in this neighborhood.

One of the most striking of these is that of William Lloyd who for months past had Diabetes. All the dangerous symptoms were present. He lost over thirty pounds in weight in less than three months.

He heard of the good work Dodd's Kidney Pills were doing and started to use them.

Very soon he began to recover. His thirst left him, he gained in weight and one by one the unpleasant symptoms were forgotten till now he is well as ever.

## Fall Arrivals.

43 Cases of New Season Goods.  
Books,  
Fancy Goods,  
Fine Stationery  
and Novelties.

We invite inspection. Late Magazines and New Novels coming daily.

HASZARD & MOORE

## BAPTISTS COLLECT \$2050.00 FOR DEBT.

At the morning service Pastor Raymond briefly reviewed the beginning of Baptist history on this island, speaking of the work of the missionaries who from time to time came from Nova Scotia and preached at various places in this Province. The first Baptist preacher of whom we have any record as laboring here was Alexander Crawford, a native of the Isle of Arran, Scotland. He baptized eight persons. This was in the year 1811 and a few days after the event a great storm visited the island doing considerable damage. "This was said by many to be a judgment from the Almighty on account of Mr. Crawford's plunging people in the water."

Elder Crawford taught school in Charlottetown and preached in Lot 48. In 1825 Rev. Charles Tupper (the father of Sir Charles Tupper) came to the island and preached in Bedouque, Tryon, North River and Charlottetown.

Next year Revs. Joseph Crandall and Theodore Harding came. The first churches which were organized by Elder Crawford were called Scotch Baptist and were very strict in discipline. For example members who married outside their church membership were excluded.

The first regular Baptist church was organized at Tryon in 1827 with 25 members. The first Baptist ministers to be ordained in this Province were Benjamin Scott at Lot 49, John Scott at North River, and John Shaw at Three Rivers.

These were all ordained in 1832 by Rev. Edward Manning and T. S. Harding who came on a mission from Nova Scotia.

Thos. Desbrisay was the first man baptized (by immersion) in Charlottetown, Oct. 27, 1827. The Baptist church of this city was organized in 1836 with a membership of nine.

The church met in a private house then a large room or hall was rented. A new church was opened on the corner of Euston and Prince streets, 1845.

The membership of the church was then about thirty.

This building was moved to Great George street on the site of Dr. Conroy's residence in the year 1862 while Rev. W. H. Hobbs was pastor. During the pastorate of Rev. D. G. McDonald a new brick building was erected on the site of the present edifice. This was burned in June 1886 and under Rev. J. A. Gordon's pastorate the present church was built.

The church has had thirteen different pastors in the sixty-five years of its history and three of these have served two separate terms in the pastorate.—Rev. B. Scott, Rev. John Knox, and Rev. D. G. McDonald.

After touching upon some of the most prominent points in the history of the church the pastor referred to the unwritten history the moral and spiritual influence for good that has been exerted all through these years by the membership of the church not only in the city but in other places where the members have gone to reside. Pastor Raymond expressed his appreciation of the kindness of the members to him during his short pastorate and hoped they would become a great blessing to the city as they should increase in numbers and spiritual life under the guidance of a new pastor.

Dr. Trotter, President of Acadia College, Wolfville, who arrived on Saturday evening preached in the afternoon from II Peter, 1st chap. verses 57. In the evening Dr. Trotter preached again to a full house taking for his text, John 1st verses 15. Both discourses were of a high order and showed the Doctor to be a preacher of marked ability and power. At the close of the evening service Mr. Raymond said a few words expressing thanks to the kind friends who had responded to his appeal in behalf of the church after which he announced the amount of the contributions including a bequest to be \$2050.00.

## OUR PROVINCIAL FARM

An Excellent Article Written For The Home-  
stead By Prof E. J. McMillan.

That provincial farms may aid, the methods of conducting them should be in accordance with the needs of those whom it is intended to benefit. Are the conditions in one province particularly adapted to dairying? Then let the provincial farm in that province set an example in the selection and management of a dairy herd. Or does the breeding of live stock obtain special favor in another? Then let that industry be fostered and encouraged there. Thus, while the operations of the provincial farm should not be confined to prosecution of any one branch of farming it seems probable that there is in every province some special line of agriculture which merits more attention than any other. It is proposed, therefore, to conduct the provincial farm of Prince Edward Island in a manner that will give prominence to one or two important and already well established branches of farm work, and also investigate several other promising fields of agricultural employment.

It is plain that experimental work with field crops should receive considerable attention. The selection of seed grain, the choosing of varieties, and the most favorable time to sow them also the treatment of soils and crops, are questions which by reason of certain peculiarities of soil and climate must be solved within the bounds of the province. A beginning in this work has been made this season. A small section of the farm were devoted to trial plots of the leading varieties of cereals roots and fodders. Next year the work will be extended by instituting a wider range of experiments. The selection of seed grain with the object of increasing the productiveness of the varieties under test will receive a larger share of attention. The selection of an early maturing corn which will be satisfactory for insilage purposes will also be attempted. As stock raising and dairying are extended a greater demand arises for fodder to be fed to the animals. Other things being equal, cheaper fodder means larger profits in feeding. How to produce an abundant supply of fodder at

small cost is, therefore, a very important problem to the farmer, and comparative tests of fodder crops cannot fail to be particularly interesting to him.

In view of the importance of dairying in the Island it is deemed advisable to establish a dairy herd at the farm. Both pure breeds and grades will be included in its make-up, and the animals will be chosen mainly with regard to performance at the pail. A herd of carefully selected cows, housed and fed in a proper manner will pay a good yearly profit, and should be the means of inducing our dairymen to put forth greater efforts toward better feeding, and more careful selection of dairy stock. We are yet far from the ideal in these respects, and it is safe to say that the product of our herds may be almost doubled in a few years by paying close attention to the above mentioned points. In years past the breeding of live stock has received a large share of attention in our provincial farm. Every year a large number of young animals has been distributed among the farmers of the province. This practice has added very much in the improvement of Island stock. The demand for this pure bred stock continues, and it is intended to keep on stock raising at the farm in order to still further to benefit the industry.

It would be an injustice to the fruit growing interests of the province were the provincial farm to continue in its present state of the entire absence of fruit trees. An orchard consisting principally of apple trees will accordingly be established there. A fruit plantation will in time prove to be a valuable asset to the farm, and when properly cared for will afford an instructive object lesson to the average fruit grower in the province.

In conclusion, it is useless to make any extravagant claims concerning the possibilities of the provincial farm, but it is hoped to be able to render efficient service to the farmer in the difficulties which have arisen to confront them in these latter days.

## MILNER'S SPEECH

Hopes for a Prosperous South Africa

## ADM. RALTY INTEREST'D

In the Personnel Bill of the American Navy and its Effect.

## MILNER REALIZES GRAVITY OF SITUATION.

PIETERMARITZBERG, Oct. 26.—(Special).—Sir Alfred Milner in a speech dwelt on a desire for a peaceful and prosperous South Africa, one great community under British flag, but said let us not count on it coming in a hurry.

## ADMIRALTY WATCHING PERSONNEL BILL.

LONDON, Oct. 26.—(Special).—The Admiralty is taking a lively interest in the working of the personnel bill of the American Navy and may amalgamate line and engineer officers as line officers must wake up and become expert mechanics or be ousted by engineers.

## LONG LIFE INHERITED

This statement you can prove by investigation. When a person whose ancestors had long lives dies in middle age you can in nine cases out of ten trace the cause to disordered kidneys and consequent suffering from Bright's disease, rheumatism, fatty heart or dropsy. Dr. Chase's Kidney-Liver Pills prevent and cure these fatal and painful diseases as no other preparation was ever known to do. One full dose 25 cents a box.

## KILLED WHILE ON HIS WAY TO SCHOOL.

TORONTO, Oct. 26.—(Special).—While James Dougall, aged 14 years was running across the track on way from school he was struck by a train and killed.

## MISSING LOBSTERS AND CAVALRYMEN.

HALIFAX, Oct. 26.—(Special).—Five cases of lobsters were stolen from the deep water wharves last Sunday and are supposed to have been taken by the Sussex Cavalrymen.

## CANADIAN TEAM TO VISIT ENGLAND.

TORONTO, Oct. 26.—(Special).—The Toronto Lacrosse players will visit England next spring and will be the guests of the South English Lacrosse Association.

## DEPRESSED AND DISCOURAGED.

It is remarkable how thoroughly the whole system is thrown out of order when the nerves become weak and exhausted. All energy and ambition seems to disappear, the mind wanders, memory fails and despondency reigns supreme. Dr. Chase's Nerve Food puts new vim and energy into the brain, nerves and body, builds up the system and prevents paralysis, prostration and insanity.

## Detective Crockett Shares in Reward of \$25,000

BECAUSE "he did good work," Detective Crockett, of San Francisco, brother of Mr. J. T. Crockett, Vice Consul of this city, will come in for a share of \$25,000 offered by the Selby Smelting Company, for the recovery of gold bullion valued at \$335,000 stolen from the Selby plant at Vallejo Junction, Calif., last month, and the apprehension of the thieves. Mr. Crockett has been in detective business for about twenty years, and his success in the above case is decidedly commendatory, he being one of

but few whose services were such as to entitle them to a share of the rewards.

WHEN THE BABY CRIES AT NIGHT there is a cause for it. Perhaps it is gas on the stomach may be cramps or diarrhoea. Don't lose sleep, anticipate such contingencies by always keeping handy a bottle of Poison's Nerviline. Just a few drops in water given inwardly then rub the little one's stomach with a small quantity of Nerviline and perfect rest is assured for the night for both mother and baby. You may not need Nerviline often but when you do need it you need it badly. Get a 25c bottle to day.
