ARRIVED SAFELY. Mr. and Mrs. John McLeod, City, received a cable yesterday announcing the arrival in England of their daughter, Nursing Sister Miss Winnifred. Her friends will be pleased to know that she has made another journey in safety across the Atlantic.

LAI D TO REST. The funeral of the late M. P. Hogan which was held yesterday morning at 9:45 o'clock was largely attended. Solemn High Mass of Requiem was sung in St. Dunstan's Cathedral by Rev. Maurice McDonald, with Rev. G. J. McLellan as deacon and Rev. F. McQuaid as subdeacon. His Lordship Bishop O'Leary was also present in the sanctuary. The service at the grave was conducted by Rev. Frank McQuaid.

UNIQUE FUNCTION. The Lawn Festival at the home of Dr. Martin, Grand View on Sunday evening July 22 was a decided success. The decorations were patriotic and the ice cream booth which was very well patronized during the evening was in charge of five young ladies. Miss Florence Martin, Mrs. Alex Martin, Mrs. Angus Martin, Miss Margaret McLeod and Miss Iona McLeod, dressed in Red Cross Uniform.

HOW MAJOR PROWSE'S BOYS WON ARMY TUG-OF-WAR CHAMPIONSHIP - A correspondent of the Charlottetown Guardian with the 98th Battery, gives a graphic account of the series of rounds in the tug-of-war competition at the front which resulted in victory for the 98th after a hard tussle with the 8th Siege Battery.

Sir - Never before, sir, have I indulged upon the privacy of your editorial sanctum. But, this morning, Sunday morning, too, but that's just the same as any other morning over here, as I have time on my hands I am going to tell of a little incident affecting the two "Island Batteries" the erstwhile 98th and the 8th. On June 25th these two met in deadly combat on the field of France. Oh no, it wasn't with bayonets, bombs, or shells, it was on the field of Sport and as the story of the mouse runs, "Thereby hangs a tale."

The higher Command realize the effect upon the men of the unceasing strain of the strategy and tactics means to give them a change, anything to make them forget. One idea is a Rest Camp to which men are sent at intervals. Another is by encouraging sport and of course the "Tug-of-War" figured prominently. A series of "pulls" was arranged and as the 98th had a reputation of "Never Been Down" from the time it pulled the team of the Labor Union in Charlottetown, pulled all-comers, crossing the Atlantic and likewise at Horsaam, a team was naturally entered. Without any practice we won the first pull, then the second and by so doing, the 98th was champion of the Artillery Group. Then came the pull of between the champions of the various Groups for the Corps Championship. After two pulls we were champions of the Corps. One of those pulls lasted nine minutes and the entrance of the 98th was a surprise. They came "home" with honorable scars upon them in the shape of skin-deep arms etc. By this time we were getting interested and practised regularly. Then came the great day of June 25th when the Champions of the 8th were the Champions of one Corps. In the semi-finals we had to pull against them. It was Greek meeting Greek. We tossed for choice of ends - the 8th won. They knew how to select the good end. The pull began. Our men slipped and could not make any impression on the hard ground. They were losing. It was a once-all-over pull. Six of our men were over the line. It was looking desperate. But Major Prowse, D. S. O., once more entered the arena as a leader. After Lieut. Hooper's departure to England he took charge of the team himself. Just when everything looked like defeat he went to every man and encouraged him to hold, hold and they held. Presently they gave a heave. The 8th began to come on way. We were winning. We shouted lustily, inch by inch, foot by foot, slowly but surely we were gaining the day. Again our endurance had won. But the 8th were "good stuff" and worthy opponents. Rather strange that these two pulls, the 8th and the 98th, should meet behind the line. Somewhere in the "Never Been Down" line. Two hours later we had to pull with the winners of the pull between the other two Corps. It was something like Caesar, "Veni Vidi Vici" or better,

Veni, traxi, vici." We were the champions of the Heavy Artillery of the Army to which we belonged. The prize was a beautiful Silver Cup, suitably engraved and a silver medal to each competitor.

The team was as follows: Anchor man - Eddie Robertson, 6 ft. 4, "Long Eddie" we call him. Thomas McFavish, a Belfast. George Compton from Montague way.

Angus Murchison, another square shouldered Scot from Belfast. Burt Stewart from Southport. "He's a terror for his size. John Collins, who perhaps labored more than anyone else for the efficiency of the team.

He was always "there with the goods." Burt Miar who took Compton's place in the last two pulls. Like McKenzie, another old fisherman and puts heart and soul into whatever he goes into.

We were a happy bunch going home, and proud of our team, proud of our Major and the way he led his boys so well on the field of sport, just as he leads them so ably in the greater game of war.

THE CHILD'S APPEAL

There can be no Beautiful, Healthy Rosy Cheeked women without Iron." F. KING, M. D.

There can be no healthy, beautiful, rosy cheeked women without iron," says Dr. Ferdinand King, a New York physician and author.

"In my recent talks to physicians on the grave and serious consequences of iron deficiency in the blood of American women, I have strongly emphasized the fact that doctors should prescribe more organic iron - nuxated iron - for their nervous, run-down weak, haggard looking women patients. Pallor means anaemia. The skin of the anaemic woman is pale, the flesh flabby. The muscles lack tone, the brain fags and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks."

Dr. Ferdinand King, New York Physician and Medical Author, tells physicians that they should prescribe more organic iron - Nuxated Iron - for their patients - Says anaemia - iron deficiency - is the greatest curse to the health, strength, vitality and beauty of the modern American Woman. - Sounds warning against use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good; advises use of only nuxated iron.

CLOSING PRICES. Table with columns: Yesterday, Today, and various stock symbols like Anaconda, Cen, Can Pac, etc.

Mother Why Don't You Take Nuxated Iron And Be Strong and Well and Have Nice Rosy Cheeks Instead of Being Nervous and Irritable All The Time and Looking So Haggard and Old? - The Doctor Gave Some to Susie Smith's Mother and She Was Worse Off Than You are and Now She Looks Just Fine.

On account of the peculiar nature of woman and the great drain placed upon her system at certain periods, she requires iron much more than man to help make up for the loss. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good, and as a consequence you become weak, pale and sickly-looking, just like a plant trying to grow in soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while, doubt their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the red coloring matter in the blood of her children is, alas! not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good, otherwise it may prove worse than useless. I have used Nuxated Iron wide-

You can tell the women with plenty of iron in their blood - beautiful healthy rosy cheeked women full of Life, Vim and Vitality

In my own practice in most severe aggravated conditions with unfavorable results, I have induced many other physicians to give me a trial all of whom have given me most surprising reports in regard to its great power as a health and strength builder. Many an athlete and prize fighter has won the day simply because he knew the secret of great strength and endurance, and filled his blood with iron before he went into the fray; while many another has gone down in inglorious defeat simply for the lack of iron.

Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York City, said, "I have never before given out any medical information or advice for publication as I ordinarily do not believe in it. But so many American women suffer from iron deficiency with its attendant ills - physical weakness, nervous irritability, melancholy, indigestion, flabby, sagging muscles, etc., etc., and in consequence of their weakened run-down condition they are so liable to contract serious and even fatal diseases that I deem it my duty to advise such to take Nuxated Iron. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power, and endurance will find it a most remarkable and wonderfully effective remedy."

NOTE - Nuxated Iron which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine, no secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers, have such great confidence in nuxated iron, that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron, and increase their strength 100 per cent. or over in four weeks' time - provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Geo. E. Hughes, Apothecaries' Hall; E. A. Foster, Central Drugstore; H. J. Mabon, Montague, and all good druggists.
