**15 REASONS WHY YOU SHOULD
INVEST IN THE JOHN R.
DINNIS PEDIGREED
FOXES, LIMITED**

1. BECAUSE John R. Dennis, the caretaker, has had six years' experience in the raising of foxes.
2. BECAUSE his name is synonymous with success in fox raising. He is simply without a peer on Prince Edward Island. His average last year was about 100 per cent. greater than the average of all P. E. Island ranches.
3. BECAUSE according to this year's Government Returns his ranch paid taxes on more young foxes than any other ranch, although he had less pairs of breeders than many other ranches on P. E. Island.
4. BECAUSE all the pairs of breeding animals are chosen from the most prolific stock in this large ranch, and one can easily see that \$1,000 in a strain of breeders averaging five to six per litter is very much more profitable than the same amount invested where two or three is the rule.
5. BECAUSE over 50 per cent. of the breeding stock is chosen from litters of sixes and 30 per cent. from strains having litters of fives. The average on P. E. Island last year was, according to Government statistics, two per pair.
6. BECAUSE the animals will remain on the same ranch in which they were born and have the same caretaker and feeder, a very important matter where such valuable and timorous creatures are concerned.
7. BECAUSE prospective investors may inspect the ranch at the present time.
8. BECAUSE this highly prolific strain of stock is put into the flotation at practically market value; absolutely no water. You get one hundred cents for your dollar.
9. BECAUSE Mr. Dennis' reputation is selling the company's stock faster than that of any other on P. E. Island where people have first hand knowledge of the ranchers.
10. BECAUSE, in a word the twenty-two pairs are the choicest foxes in the world with the highest record for productivity in ancestry of any Company ever floated.
11. BECAUSE it is the only Company, which has made any effort to select the breeding stock on ancestral records for both fur quality and large litters.
12. BECAUSE all the animals are registered in the highest grade "A" of the Fox Breeders' ASSOCIATION HERD BOOK, and the ranch is the best equipped and most carefully guarded of any on P. E. Island.
13. BECAUSE the Company has an asset—First—The sole use of the name and goodwill of Mr. John R. Dennis, second—A directorate composed of men of the highest probity and occupying high official positions.
14. BECAUSE of the cheapness of this high quality young stock in flotation; for a strain of foxes, giving five to six pups per litter, valued at \$17,000 per pair, is a much better proposition for investors than the average strain of foxes where the rule is two to three, even if these are placed as low as \$10,000.

COPY OF MR. DINNIS' GUARANTEE TO THE DIRECTORS.

I, John R. Dennis, stock breeder and fox rancher, of Charlottetown, P. E. I., do hereby agree to place with the John R. Dennis Pedigreed Foxes, Limited, only stock with the highest ancestral record for fecundity and fur quality, and pledge my honor that no one fox which is not above average quality of silver black foxes shall be placed in the Company, and that none of the young foxes will be taken out of litters of less than four young. I hereby agree to give the John R. Dennis Pedigreed Foxes, Limited, the sole use of my name and good will in so far as the breeding of foxes is concerned.
(Signed) John R. Dennis.

BOARD OF DIRECTORS.

- President—John R. Dennis, Esq., Charlottetown, P. E. I., Stockman and Fox Rancher.
- Vice-President—Dr. B. C. Borden, Sackville, N. B., President Mt. Allison University.
