The Upward Trend of Public Confidence

MONEY rates are a barometer of conditions. Lower interest rates and consequent rising bond prices indicate confidence. This upward trend of confidence has been evident in the important financial centres of the world. Investors have recognized the encouraging world-wide tendency toward lower interest rates by subscribing heavily to recent public issues. There is cause for satisfaction in the fact that bonds of the Dominion of Canada are sharing in the improvement that is taking place.

Plan Now to Buy the New Dominion of Canada Bonds

On Monday, October 31st, there will be offered to the Canadian public an issue of \$80,000,000 Dominion of Canada 4% Bonds, 1932. They will be offered at a discount which will provide an income yield in line with present interest rates. This issue will offer Canadians an opportunity to obtain the soundest investment for their savings and, at the same time, to render an important national service.

As an investor and as a citizen—for your individual benefit and for national advantage—plan now to buy the new Dominion of Canada Bonds when they are offered on Monday.

This preliminary advertisement is published by THE DEPARTMENT OF FINANCE to enable Canadian investors to make arrangements to participate in this offering.

SEEKS DEATH
 Because he had caused his side to lose in a game of street football in Prague, Czechoslovakia, a twelve-year-old goal keeper tried to kill himself recently. The opponents made three goals and the lad blamed himself. He ran to a railway line just as an express train was approaching, and threw himself on the track. One of his legs was severed and the other crushed, but he will live.

Austria has decreed that parents must not express their political feelings or enter into flights of fancy when naming their children. The Ministry has sent instructions to the birth-registration bureau throughout the country, stating that infants will not be permitted to bear Christian names which offend against either morality or public order, or are likely to be unpleasant to their owners.
