

IMPORTANT READING MATTER SELECTED FROM THIS WEEK'S NEWS FOR THE GUARDIAN'S SATURDAY SUBSCRIBERS

FRIDAY.

The Grand Division of the Sons of Temperance held its regular quarterly session in the auditorium yesterday.

There was a very large attendance of delegates among them being James Brodie, city.

The sessions opened at eleven a. m. and continued again at two o'clock until six.

In the evening a public meeting was held in the hall at which a number delivered addresses on the temperance subject.

The hall was packed to the doors long before the hour of opening.

Sir.—As I have written some sharp criticism on the management of the winter steamer, it gives me much satisfaction to express my appreciation of the gallant way in which the Minto was brought into Georgetown on Tuesday last.

The difficulties to be overcome were complicated, and in such severe weather it was most creditable on the part of the Captain and crew to face them.

Great credit is also due to the Grey for fighting her way so bravely and making this port against accumulated ice and heavy frost.

I think it only just that the courage and energy displayed by the Captains of the boats should be recognized and I am pleased to do it.

J. T. JENKINS.

A. Lord, City, has received word of the death of his brother-in-law, William B. Dean, which occurred in Los Angeles, Cal., on Jan. 15, 1911.

A Physical Wreck

Suffered Tortures from Nervousness. Miss Marguerite Lees, of Robert St., Hamilton, Ont., writes: "I was a wreck, reduced in body, and despondent, and was totally cured from nervousness, and recommended Hood's Sarsaparilla. I commenced taking it and by the time the second bottle was consumed I knew that I was mending. Gradually I grew well. I have used Hood's since. I would not be without it on any account, and do most enthusiastically endorse every word in its favor."

serious one and that steps should be taken immediately to prevent the further spread of the disease in the declaration made by prominent doctors.

The medical men indignantly deny that the rapid spread of the disease during the last few weeks was due largely to the carelessness of the doctors in not treating the cases properly.

Special to The Guardian. BERLIN, Jan. 19.—The Morning Post's Kiel correspondent says: Investigation indicates that Command Fischer of submarine U-3 sacrificed himself to save his crew.

Observing that he and two companions were cut off by the rushing water, he closed the tower doors and then gave the vessel a slanting position, evidently hoping to keep the torpedo tube above water so that the other men could escape.
