### INSANE WOMAN'S MAD ACT.

KENTVILLE, Aug. 20.—(Special)—Mrs. Wm. Bennett while temporarily insane drowned her baby, fearing it would starve. They are not poor.

### BAY FORTUNE NOTES.

A correspondent at Bay Fortune writes that the road on the East Shore is in a fearful state of disrepair. Recently a buggy and its occupants were thrown over a bank, fortunately escaping unhurt. Mrs. Haskell's Thursday evenings have been very successful, bringing together the good people of Bay Fortune and vicinity once a week. Recently over sixty people availed themselves of her hospitable, and a charming evening with vocal and instrumental music, recitals in costume, etc., was enjoyed. The dispassionate anonymous letter writer is again plying his trade in Bay Fortune.

### MARRIED.

Japs Occupy Anshanshan and  
Russians Retire on Mukden—  
Reserves Get Orders.

### CZAR'S HEIR DISCREDITED.

PARIS, Aug. 20.—(Special)—Russian revolutionists deny the reported birth of an heir to the Russian throne, declaring the child was substituted for the son of a peasant born the day previous.

### JAPS MOVING ON.

TOKIO, Aug. 20.—(Special)—The Japanese troops occupied Anshanshan yesterday and the Russians retired toward Mukden.

### CALLING OUT RESERVE.

ST. PETERSBURG, Aug. 20.—(Special)—The Emperor has issued Ukase summoning all the reserve officers throughout the Empire.

### RUSS IS MODERATE.

The Russians say the Japanese have already lost ten thousand men before Port Arthur.

[Anshanshan, reported to have been quietly occupied by the Japanese forces is situated about midway between Hai Cheng and Lao Yang. It was here that heavy fighting was expected, but it appears the Russians have withdrawn northward toward Mukden. Lao Yang is said to be the location selected by the Japanese command for their winter quarters. The Russian estimate of a total loss of 10,000 men by the Japanese during the siege of Port Arthur thus far seems to be very moderate compared with previous reports which gave twenty to thirty thousand killed in each one of several assaults. Port Arthur is no doubt in a bad way and its fall may come any day, but may possibly be deferred for a week or more.]

### MILITIA NEWS.

ST. JOHN Sun says: This year is the last in which artillerymen will shoot with carbines and it is a together like it that in future they will be armed with rifles. The reason of this is due to the fact that the men claim that the sighting gear of the carbines is defective, and in nearly every case they shot low. Carbines are used in the company shooting for the Solomon cup and like matches, and then when the men go to the meet at Sussex they have to use rifles, to which they are not accustomed. As a result of this the men are anxious to be armed with rifles altogether, and it is quite probable that a petition will be sent to the militia department largely signed by the artillerymen in the Maritime Provinces to that effect. C. I. White is at present working along with C. I. Moore of Prince Island, to secure this privilege.

## DRIVEN ASHORE DURING THE STORM

On Governor Island Reef Saturday Night—  
Story of Capt. Boudreau and Capt. Sundby  
of the Wrecked Schooner Margaret

Ann Said to be a Total Wreck  
—Other Vessels Ashore at  
St. Peter's Island.

After weathering what was the worst gale in his experience in the Northumberland Straits, Capt. Boudreau of the Brillant, ladea with coal for A. Down from Sydney, arrived in port at six yesterday morning having on board Capt. Sundby and two of a crew of the schooner Margaret Ann, 53 tons, coal laden for C. Lyons & Co. that was wrecked off Governor's Island in the storm of early yesterday morning.

Capt. Sundby and his men had a very narrow escape from drowning. The schooner left Port at six o'clock Saturday evening. Coming up the Straits the gale struck her and after running about for some hours to find Charlottetown harbor she was dashed on Governor's Island reef. For a time the men stayed by the ship but she soon filled and they had to leave in a boat in which they were tossed about till picked up near the Black Buoy by the Brilliant who was running bare polled up the Straits.

The Margaret Ann was bought last spring by Capt. Sundby of Port Eglis from Capt. Buckler of Tatamagouche. She was a trim schooner and is well known here. She is said to be a total wreck.

Yesterday afternoon a vessel coming into port reported that three more vessels were ashore at St. Peter's Island but their names or their condition was not ascertained.

The following is the story of Capt. Sundby of the wrecked schooner Margaret Ann, who was interviewed by a Guardian representative last evening: "We left Port Saturday evening at 6 o'clock, bound for Charlottetown laden with coal for C. Lyons & Co. The crew consisted of my son Barney and a seaman Alvey Veneburg. At seven o'clock off Wool Island we were struck by south-south-easterly gale accompanied by a

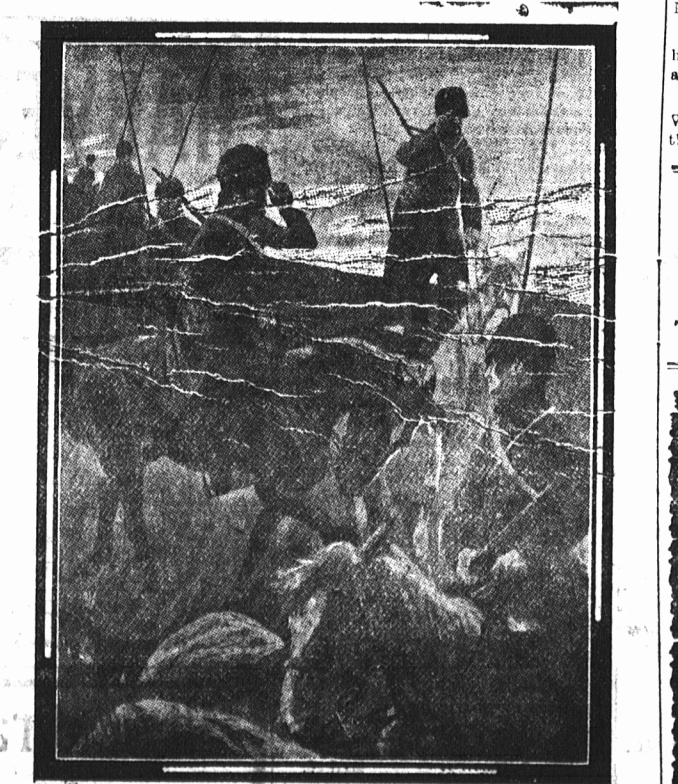

heavy blinding rain storm, which compelled us to run under tarpaulins, and we were driven on the reef off Governor's Island about three o'clock. We remained with the schooner until five o'clock when she filled with water and we were compelled to take our chances in the row boat. In this we drifted about until six o'clock when we were picked up by Capt. James Boudreau of the schooner Brillant, Charlottetown, which was ladea with coal from Sydney. The Brillant arrived in port about 8 o'clock and we were safely landed minus everything except the clothes we had on.

The schooner Margaret Ann, 53 tons is now practically a total wreck off Governor's Island, with no in urance and was bought only last spring by Capt. Sundby of Port Eglis, N. B.

The tug Helen M. Eutler, Captain Pride who is making the route from Port to Charlottetown in place of the S.S. Lunenburg, on Saturday, left yesterday afternoon, about 1 o'clock for Port, and within a half mile of Point Prim buoy was obliged to return on account of the high sea. The captain reports seeing the wrecked schooner Margaret Ann off Governor's Island, also seeing three other schooners ashore at St. Peter's Island, one near St. Peter's Island light and two off the East Point of the Island. Up to a late hour this morning, no particulars of these wrecks could be received.

### TURNING DOWN THE DOCTORS.

The marvelous cures of Catarrozone are being much talked about. Thousands are daily recognizing the exceptional merit of this simple inhaler treatment, and instead of running to the doctor with their winter ills they protect themselves by Catarrozone; it kills colds in the head in ten minutes, quickly relieves Catarrh, Bronchitis, Asthma, Lung Troubles, and cures even though all other remedies have failed. Catarrozone is very pleasant, safe and convenient to use. Its best recommendation is its enormous sale; try it today. Price \$1.00, small size 25c, at Drug-gists.

### COSSACKS SCOUTING AT DAWN.

The Cossacks are the eyes and legs of the Russian Army, and their scouting work has figured largely in the incessant retreats which Kur patkile has ordered on the part of his general officers. The Cossacks are termed Siberians by the Russian Army officials, and have really borne the brunt of all the fighting during the present struggle. The Japanese when the number have been equal, have had little to boast of in their conflicts with the Cossack cavalry. However, these few regiments of superb horsemen have counted for little in the movement of vast masses of artillery and infantry carried out by the Jap plan of Manchurian invasion and Korean occupation.
