ALLIANCE CHARGES JUDGES'S VERDICT

(Continued from page 2

costs, or in default, three months' imprisonment. No payment has been made nor has the offender been imprisoned.

12.—Cowan R. McKinnon, of Vernon River, was convicted of a second offence on the 9th July last. He has neither paid his fine nor been imprisoned, and this Committee is informed that this offender has been boasting that he has not been called upon to pay his fine. A search was made on McKinnon's premises in July last and beer found, but no prosecution has been brought.

13. The said Allan Boisner has improperly intervened to prevent persons sentenced to prison for violations of the provisions of the said Act from being imprisoned.

In the case of Henry Benoit and Augustus Ellsworth, convicted in January last, of third offences and sentenced to six months' imprisonment, the said Allan Boisner has endeavored to obtain the Lieut. Governor's consent that said offenders be not imprisoend.

14. This Committee charges and complains that the said Prosecutor Boisner is lacking in initiative and in vigor and earnestness in enforcing the provisions of said Act.

We charge that Joseph Meade, the Prosecutor or Inspector for King's County, has shown himself unfitted for the duties of his office for the following reasons:—

1. The said Prosecutor, Joseph Meade, has neglected and omitted to enforce convictions obtained for violations of the provisions of the Prohibition Act, in the following cases, namely:

(a) Samuel Carpenter, convicted of a first offence in June last and fined $100 and $17.50 costs;

(b) Catherine Martin, convicted of a first offence on 29th September last and fined $100 and $36.45 costs;

(c) John T. O'Brien, convicted of a first offence on 25th September last and fined $100 and $42.95 costs;

(d) John McDermid, convicted of a first offence on the 9th September last and fined $100 and $45.25 costs;

(e) Dr. Archibald A. Allen, Cardigan, convicted of an offence against said Act on 28th November last and fined $20 and $21.30;

(f) Dr. Thomas V. Grant, Cardigan, convicted of a first offence on 28th November last and fined $100 and $22.10 costs;

(g) Dr. Michael Donahoe, Peake's Station, convicted of a first offence on 28th November last and fined $100 and $31.50 costs;

This Committee charges and complains that Prosecutor Meade has been shielding and protecting said offenders from the proper enforcement of said convictions.

2. That on the 15th September last a trial took place at Souris, of Mary Elton Dalton, who had been charged by said Prosecutor with selling intoxicating liquor contrary to the provisions of said Act. At the trial the said Prosecutor himself gave evidence that he purchased liquor from said defendant, but the defendant and her daughter, Mrs. John Morrison, swore that said Prosecutor himself brought the liquor to said defendant's residence, and told the defendant and her daughter they might sell all the liquor they wanted to sell on the day on which the offence was charged, and in consequence of said evidence the said prosecution was dismissed by the Magistrate.

3. This Committee complains that the said Prosecutor Meade is lacking in initiative and in vigor and earnestness in enforcing the provisions of said Prohibition Act.

This Committee ask that prompt action be taken by the Government in regard to the above made statements and charges.

The Committee would prefer that an investigation be held respecting the truth of the afore mentioned charges before one of His Majesty's Judges of the Supreme Court.

We are, on behalf of the Prince Edward Island Alliance,

Respectfully yours,
(Sgd.) THOMAS MARSHALL,
President of the Alliance.
A. W. STERNS,
Secretary.

ABBIES DEFEAT VICS IN SENIOR GAME BY SCORE OF 6-E VICS WIN IN SECOND GAM4

A fair crowd witnessed the best game of hockey this season played at the Arena last night between the old-time rivals the Abegweits and Victorias, the former winning by the score of 6-4.

The ice was splendid, with the exception of a few holes, and the game was fast, clean and exciting. Preceding the game and at intervals the 82nd Band gave excellent music; some of the popular songs being among the selections on the programme.

At 8.30 the game started with a rush by the Abbies to the Vic's end, the Vics coming back immediately. The puck was played from end to end, mostly by individual runs, until four minutes had elapsed, when Duffy shot, quite a distance from the goal, and got one through Dougan. The Abbies followed up their advantage and kept the Vics on the defensive for nearly five minutes. Then D. Gillis made a magnificent run, taking the puck from his own goal right through the Abbies lines and finally placing the rubber in the net for a score. The Abbies got the puck from the bully and went at Dougan, who was on the job for a good stop. Gregory then took a run and lined one at Van Iderstine, who was also wideawake, and with his old-time efficiency repelled. The play was now of an even nature. It kept so for a while, the play being one minute in the Abbies' territory and then in the Vic's. Excellent runs by C. Campbell, D. Gillis, W. and J. Prowse and L. Campbell, and good stopping by both goal tenders featured this period. The Vics were showing but little combination, and the Abbies were not doing much better in this respect until J. Power and L. Campbell commenced the good work, combining for a beautiful run and scoring. This was eight minutes before half-time. In the play that followed the Abbies showed more combination. Next D. Gillis, who had been showing a disposition to rough it on two occasions with the opposing point, unnoticed by the judge of play, was given the rest cure. While Gillis was off Power and L. Campbell again combined for a pretty run from centre ice, and scored the third goal for the Abbies. Gillis celebrated his return by a splendid run to the Abbies goal, but he shot off the mark. The puck remained in the Abbies' end for a short time, then it was gradually worked to the Vic's end, where L. Campbell shot No. 4 for the Abbies. The Vics then journeyed to the base of the opposing team and shot for goal, but "Ches" made another good stop. The bell rang with the play about centre ice.

The Vics at the commencement of the second half displayed much improved combination, and commenced by a combined run to the Abbies end, shortly followed by another. The hopes of the Victoria fans were raised by the improved playing of their team, and seven minutes later, when Prowse and Lane scored on a pretty piece of combination, they fairly went wild. The Abbies sent the rubber out of their vicinity, only to be taken back by W. Prowse to Van Iderstine, the latter having a number of shots sent at him immediately after each other, which he stopped in his characteristic excellent manner. For a time the battle was waged in the Vic's end till D. Gillis, J. Prowse and Lane came up for a magnificent combined run and scored the third goal for the blue and white.

The score was now 4-3 in the Abbies favour, with the second period about half over. The Abbies scored the next goal after a mix-up while Dougan was out of the net. They followed six minutes later with their sixth and last goal. The half continued fast, but got got rather slow towards the end. The game ended 6-4 a victory for the Abegweits.

The second penalty, there being only two, was meted out to C. Campbell for tripping.

The second game was one by the Vics by the close score of 2-1.

CENTRAL GUARDIAN

SPECIAL TRAINS.—The mail train arrived in Charlottetown yesterday at 4.45 p. m. The special from the Minto at Georgetown arrived in the city at 1.10 p.m.

PANTOMIME SOCIAL.—The pantomime social in St James Hall last evening, held under the auspices of St James Guild, was another of those enjoyable affairs for which this energetic giuld is noted. There was a large attendance. An excellent musical programme was rendered, supplemented by a pantomime performance which caused much merriment. A birthday contribution by those present totalled the very creditable sum of $70. After the programme a number of games were enjoyed by the younger set. Altogether the social was fully up to any of its most enjoyable predecessors, and the ladies who so successfully engineered it are to be congratulated.

PEOPLE'S THEATRE.—Undoubtedly the most sensational innovation presented by the producers of the "Million Dollar Mystery" to date is the clever performance of a trained collie, who is successful in turning the tables against the conspirators and enabling the heroine to escape with the papers the Stanley Hargreaves mysterious box contains, in the nineteenth chapter of the serial shown at the People's Theatre last night. The situation that leads to the startling performance rendered by the canine is that in which Flo LaBadie, after overcoming many obstacles finally succeeds in getting some important papers which evidently relieves her father from persecution by the conspirators. She swims away with them from the underground meeting-place of the Four Hundred via a river. Braine pursues her in a motor boat, and when out in the open bay, overtakes and attacks her, Jim (James Cruze), who was strolling along the bank with his dog, swims to her rescue. He pulls Braine out of the boat and engages in a battle royal in the water, when a number of toughs, who have been waiting for a signal from Braine, drop anchor and come to his aid. The dog, seeing his master getting the worst of of the argument, plunges in to the rescue and with remarkable intelligence keeps the conspirators at bay while Jim and Flo man the power boat and escape. This performance of the four-footed actor called for much favourable comment, and aside from this fact some important events transpire, such as the securing of the mysterious papers and the unmasking of the Countess Olga before Florence Hargreaves. Three other fine reels made up the balance of a fine programme, while Dave Parks in a vocal selection, "The Vale of Dreams," fully sustained his reputation. This programme will be repeated to-night.

THE MARKETS

There was a fair attendance at the market yesterday considering the state of the roads, which are badly drifted in some places, so the farmers state.

There was very little change in the price of commodities, with the exception of pork, which has declined ¼c. per pound.

Hay still sells at 75 cents per 100 pounds, with pressed hay at $14 per ton. Oats 50 to 52 cents. The oat market is very strong and a despatch dated Wininpeg, Jan. 27th, states that the situation in oats begins to look serious. Estimating the western crop at 150 millions of bushels, subtracting about 60 millions shipped out, leaves about 90 millions of bushels for local consumption, or 14 millions less than the amount actually consumed last year.

The only substitute food is corn, of which there is a fair supply to be had at moderate prices. Luckily the Island is likely to be all right in respect to this commodity, as our farmers, or at least the bulk of them, usually hold a little more than they consider necessary, and generally after cropping have some to dispose of, so that it is not anticipated that there will be any shortage here. Potatoes when offered bring 30 cents per bushel.

Butter is quoted at 23 to 28, and eggs 30 to 35.

Merchants report business fair and collections about average. Some people are inclined to blame the present war for nonpayment of bills, but General Manager Richardson of the Bank of Nova Scotia in his annual report makes the following statement, which is to the point:—

"To be quite frank, those who blame the present depression on the war are only hugging a delusion, for the reaction from speculation, extravagance and over-expansion was inevitable, however much it may be aggravated by war conditions. It is now our duty to contribute in such full measure as we can towards the prosecution of the war, in the issues of which our future is so inseparably bound up, and towards that end it is required of us that we devote ourselves energetically to the development of our natural reserves, thus adding to our production, and to cultivate greater habits of thrift and economy, thus conserving our material resources. If we see to it that we do our duty in this regard, then one blessing at least will accure from the war."

The flour market is greatly agitated these days by the rise in the price of wheat.

Dealers interviewed and asked their opinion as to the flour market state that they did not care to express an opinion, in fact they did not know—no one knew. This was true, however, that the public have no fault to find with the merchants here as they are selling present stocks at a great deal less money than the mills are asking to-day. It may not be good business, but it means that flour is selling cheaper in Charlottetown at the present time than on any part of the mainland. As to the future, as one dealer expressed it, "we are all at sea." This is certainly a time when all waste should be avoided and every effort made to conserve stock.

STEAMER SAILS WITH HUGE WHEAT CARGO FOR THE BELGIANS.

PORTLAND, Jan. 28.—Laden with 240,000 bushels of wheat, and clothing and ofod for the destitute Belgians, the steamer Strathlay, the first of three ships to be sent from this port by the Belgian relief commission, steamed to-day for Rotterdam.

An Easy Way to Increase Weight

GOOD ADVICE FOR THIN FOLKS.

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the dgestive organs to help them convert food into rich, fat-laden blood. This masterstroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its re-generative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of the body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid healthy flesh. Sargol is absolutely harmless, inexpensive, efficient. All leading druggists have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

Caution:— While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles it should not be taken by those who do not wish to gain ten pounds or more.

BRITAIN DOING MORE THAN EXPECTED OF HER.

PETROGRAD, Jan. 28.—A number of questions dealing with many phases of Russia's relations to other countries, both her allies and neutral states, were put to Foreign Minister Sassanoff by members of the Duma at yesterday's sitting of the Budget Committee, M. Sassanoff replied briefly to everything asked him, and said he would request the imperial sanction to give detailed explanations at a plenary sitting of the Duma.

Replying to a query concerning the help Britain was rendering the Allies, France and Russia, M. Sassanoff said that Great Britain had undertaken a burden far heavier than had been expected of her.

Answering a question as to whether there was any danger of the conclusion of a premature peace, M. Sassanoff said emphatically that Russia would remain faithful to the spirit of the imperial manifesto and the agreement, not to conclude an independent peace.

PROVINCIAL INVESTIGATION INTO VICE IN MONTREAL.

MONTREAL, Jan. 28.—A despatch from Quebec to-day quotes Sir Lomer Gouin as saying that the Government would appoint a royal commission to investigate vice in Montreal if a strong demand is made for it. The proposal to have an investigation is the outcome of a report published, that an alderman would be called as a witness in the case of a woman arrested for conducting a house of ill-repute. Alderman Blumenthal announced in council that he was the alderman referred to, but said he could prove he was there on business. The woman who conducted the house pleaded guilty in the recorder's court and some interesting developments are promised.

THE DISABLED STEAMER CAMINO MAY GO TO NEW YORK FOR REPAIRS.

HALIFAX, Jan. 28.—It was reported in marine circles yesterday that the disabled Belgian relief steamer Camino would be towed to New York for repairs. Enquiries made by The Mail as to the authenticity of this report elicited the information that no decision would be reached regarding the steamer pending the completion of the official survey. The owner of the Camino is in the city from San Francisco, having come by way of New York. It was at first thought that the steamer would be taken into New York, but Halifax being the nearest port, she was brought here. Every effort will be made to have the Camino repaired at Halifax.
